The Bombay Advertiser,

AND COMMERCIAL GAZETTE.

AS its name imports, this Paper is a medium for the publication of ADVERTISEMENTS ONLY; it is not a Newspaper. It is issued TWICE A WEEK, on the mornings of MONDAY and THURSDAY, and TWO THOUSAND FOUR HUNDRED COPIES are circulated GRATIS, weekly. In the Presidency Town of Bombay it is very freely distributed.

Should it be found requisite, the number of Copies issued will be still further increased.

It is unnecessary to enlarge on the advantages which a Publication like the ADVERTISER offers to the Commercial and General Public of the Bombay Presidency. It may suffice briefly to suggest the following :—

1. Being exclusively devoted to Advertisements, it is specially sought and consulted by those requiring the information which it supplies.
2. Having a guaranteed circulation nearly equal numerically to that of all the Daily Newspapers of Bombay, while, as many of these go into the same hands, it will in effect have a much larger number of readers, the ADVERTISER in itself forms a vehicle of communication the most desirable of any.
3. Being unaffected by the preferences and prejudices, professional or personal, which influence the distribution of a Newspaper, the ADVERTISER addresses itself alike to all classes, and is equally distributed over all parts of the Presidency, in the Civil Station, the Military Cantonment, and the Commercial Town.
4. As the Scale of Charges is based upon that now adopted by the Daily Newspapers, to the other advantages offered by the ADVERTISER may be added that of embodying all those afforded by advertising in the other Papers, and at a greatly reduced cost.

TUCKER & SON'S

REGISTERED INDIAN TENT LAMP

IS MADE EXPRESSLY FOR THE

GOVERNMENT SCHOOL OF INDUSTRY AT JUBBULPOOR,

And supplied with the Tents sold by that Institution.

The Lamp, with all necessaries, is packed up in a partition case for travelling, and with reference to the Lamp, the Overseer (Mr. J. B. Williams) remarks in one of his letters, that "the great simplicity of their construction is their greatest charm, and I have no doubt they will be generally used in bungalows, throughout India, in place of the old and cumbersome wall-shades." The Lamp burns any kind of vegetable oil, and gives the light of six candles at a cost of one rupee for about eighty hours.

For sketch and further particulars of this Lamp, address Mr. J. B. Williams, at Jubbulpoor, or Tucker & Son, or they may be obtained of the Agents named below.

This new, elegant, and thoroughly useful article, is the most portable and most convenient Hand Candlestick in use. It is not possible for any spark to escape from the flame, and may be carried in a draft without the risk of the flame being extinguished. It is but seven inches high to the top of the glass, and is by far the lightest hand candlestick of the sort ever made. From the simple method of fixing the glass shade, it can be removed in an instant, though an extinguisher is attached to the candlestick, by which the candle can be put out *without removing the glass.*

From the very great satisfaction which this article gives, and the number of recommendations T. & Son are constantly receiving from those who use them, they are induced strongly to urge the adoption of their Candlesticks in preference to all others.

The suitable candles for the above are TUCKER and SON'S Tropical Sperm Candles, 12 to the lb., at 1*s.* 4*d.* per lb., or Spermaceti Candles, 12 to the lb., at 1*s.* 10*d.*, which, exactly fitting the nozzle, require neither paper nor cutting, and burn out to the very last morsel. Any short candles, however, may be burnt in them if required, or even the ends out of ordinary candlesticks, provided they do not require snuffing.

The above Candlesticks are to be obtained only of

ADVERTISEMENT.

THE Publisher of "THE BOMBAY ALMANACK AND BOOK OF DIRECTION" for 1859 has the pleasure to place his tenth annual volume in the hands of the Public with that punctuality which has distinguished previous issues of the Work,—somewhat in advance of the commencement of the year to which it relates. It is hoped that its character as a useful and valuable book of reference will be found to have been maintained, and that it will consequently merit a continuance of the patronage hitherto so liberally extended to it.

A reference to the Index will show that no subject of public interest, which it is customary to introduce into works of this description, has been overlooked.

The English Parliamentary Lists have been carefully revised, and brought down to the latest practicable date.

The Army Lists of the three Indian Presidencies contain lists of all the Troops that have arrived from England since the commencement of the late disturbances, as well as of the various Irregular Corps and local levies.

The portion of the work relating to the Bombay Presidency has been carefully corrected, and the List of Inhabitants considerably extended.

A special Index to all the names in the usual elaborate Army List of Bombay will be found at pages 397—410, the figures in which, it should be observed, refer to those at the *foot* of the Army List pages, those at the head being a continuation of the paging of the Almanack itself.

LIBRARY OF THE BOMBAY BRANCH OF THE ROYAL ASIATIC SOCIETY

The Calendar

FOR

1859.

THE Time given in this Almanack is Bombay Mean Solar Time, or that which a well-regulated Clock ought to show.

The time of Sunrise and Sunset shows the instant at which the centre of the visible Sun is on the visible horizon of Bombay. In calculating the effects of refraction and dip of the horizon, the Barometer has been assumed to be 29·8 in., the Thermometer 80° Fahrenheit, and the height of the observer 15 feet above the level of the sea.

The time given as the Moon's Age is the period which has elapsed since the Sun and Moon were in the same longitude at Bombay.

The time of High Water has been calculated from Tide Tables prepared at the Colaba Observatory.

ECLIPSES.

During the year 1859 there will be four Eclipses of the Sun and two of the Moon; but the Lunar Eclipses only will be visible at Bombay.

INTRODUCTION.

The only explanation which is conceived necessary, to render the scheme of the following Calendar fully understood, is that the Christian months indicated at the top of each page divide the Native months as they appear represented in the space below allotted to their names. January, for example, partakes of the Hindoo months (Marroo) Poush and Maugh; (Guzerat, Duxun, and Concan) Margashersh and Poush; (Malabar) Dhanuh and Magram;—the Parsee months (Shaenshoyee) Teer and Amoordad; (Kudmee) Amoordad and Sharaver; and the date of Nowroz 129 to 159;—the Mahomedan months Jummadee-ul avul and Jummadee-ul-akhur;—and the Jewish months Tebbett and Sabbatt.

In the respective columns the 1st of January corresponds with the 13th of Poush Vud (Marreo), and Margashersh Vud (Guzerat Duxun, and Concan); the 19th of Dhanuh (Malabar); the 9th of Teer (Shaenshoyee); the 9th of Amoordad (Kudmee); and the 129th day of Nowroz or Kudmee; the 25th of Jummadee-ul-avul (Mahomedan); and the 25th of Tebbett (Jewish); and so on throughout the year.

PARSEES.—There are at present two branches of the Parsees, who differ in their reckoning of the Calendar one month in the year from each other; those that are one month forward in their year are styled Kudmees, and the rest Shaenshoyees. The present scheme embraces the Parsee Era of Yezdezerd, commonly styled Kudmee or Dureayee Nowroz, or sea reckoning, the same being made use of in all nautical calculations among Asiatic mariners, the New Year of which always commences on the 1st of Furverdeen. The Kudmees reckon the New Year and the Dureayee Nowroz to fall on the 26th of August, one month earlier than the commencement of the Shaenshoyee's New Year. It also embraces the Parsee Era of Yezdezerd, commonly called Shaenshoyee, the New Year of which generally begins on the 1st day of Furvurdeen; the Shaenshoyees compute the New Year to commence from the 25th of September, a month later than the commencement of the Kudmee's New Year.

HINDOOS.—It may here be observed that the Hindoo Lunar months invariably consist of 30 Tithees, or Lunar days; and the whole month is divided into two equal parts of 15 Tithees each, the one called Shookla Puksh, or Shood, the bright half or increase of the Moon, the other the Krishna Puksh, or Vud, the dark half or decrease of the Moon. The Lunar month begins, on the Western side of India and South of the Nurbudda river, with the first day of the Shookla Puksh (Shood Pratipuda), or bright half of the Moon. At Benares, Oojein, and the countries North of

the Nurbudda, the Lunar month begins with the first day of the Krishna Puksh (Vud Prutipuda), or dark half of the Moon. The first is designated the Shookladee mode of reckoning; and the latter the Krishnadee. The Lunar year begins with the first day of the Shookla Puksh, or bright half of the Moon in Chytr, both North and South of the Nurbudda, in every country in India; but as the dark half of the Moon precedes the other, or Shookla Puksh at Benares, the half Lunar month of Chytr is taken from the last Lunar month of the year preceding, and considered to belong to it.

It has been already stated that the Lunar month invariably consists of 30 Tithees or Lunar days, but it has been customary with all Eastern nations, in order to regulate their Feasts and Festivals, to drop certain Lunar days, and to reckon others twice to make up the deficiency; the first of these are termed by Hindoos, Kshuyu Tithees (perishable days), and the days repeated twice are called Virdh Tithees, (additional days). The rule of these is exceedingly simple; those Lunar days on which the sun does not rise (Sooryoduyu nuheen) are struck out; those in which it rises twice are Virdh, or additional; and it is obvious that such circumstances will occur about six times in the course of the Lunar year.

MAHOMEDANS.—The first day of the Mohurrum, or the commencement of the year, is ordinarily reckoned from the first appearance of the Moon after the conjunction, observed from an eminence of any sort, or even in cloudy weather from the time at which, but for these obstacles, it would be visible; and this can scarcely happen earlier than 24 or later than 48 hours after the conjunction. After this manner each several month is reckoned, and the lapse of 12 such months constitutes the Mahomedan year.

JEWS.—The Jews have ever marked their time by *sevenths*, according to the command given by God himself, for labouring during only *six* days of each week, and resting on the seventh, which was consequently set apart, or consecrated, to the service of their Creator. They not only hallowed the seventh day, or SABBATH, which formed a portion of their *week of days*, but they had, also, their *week of years*, which consisted of seven years, and their *jubilees*, or rejoicing periods, which were celebrated by many acts of justice, forgiveness, and restitution, at the end of every *week of seven times seven years*. The Hebrews, the Assyrians, Egyptians, Arabians, and Persians, all had this custom of reckoning by weeks. The origin of computation by *sevenths* has been vehemently contested by some authors, who say that the four quarters or intervals of the Moon (the *phases* or changes of which are about seven days' distant) originally gave occasion to this mode of division. But it seems more reasonable to conclude that it arose from the traditional account of the *first seven days* of the world's existence.

We have endeavoured to discriminate the Feasts and Festivals of each nation by different sorts of type; the Hindoo, for example, we have distinguished by Roman small letters, as Poush Shood; the names of the Malabar and Jews' months by Roman capitals, as MAGARAM; the Parsees by small capitals, as AHOORDAD; and the Mahomedans by Italic small letters, as *Mohurrum*.

Native Festivals, Fasts, and Observances.

HINDOO.

MUCKUR SUNKRANT.—On this day the sun enters the sign "*Muckur*," or Capricorn. —Vide 12th January. The Hindu festivals are so numerous, and the observances of them are so intricate, that they often bewilder a writer when he sits down to describe them. And it is equally difficult to point out which of the festivals is the greatest. The writers of the Hindu legends have set such enormous merit on the observances of each of them, as to surpass all human comprehension; and they have ever unhesitatingly said, that those observances themselves will obtain heaven. Great rejoicings are held among the Hindus, but particularly among the Brahmins, on account of the feast of *Muckur Sunkrant*, when the sun reaches the most southern sign of the Zodiac, *Muckur* or Capricornus. From this day till the time of his leaving the most northern sign of the Zodiac, he is said to be in *Utarayan*, and from the time of his leaving the northern sign to the entering the sign "Kurk" or Cancer, he is said to be in *Dukshanayan*. The vernal and autumnal equinoxes divide the year into two equal parts, *Utarayan*, and *Dukshanayan*. The days of *Utarayan* are esteemed lucky, and those of the *Dukshanayan* unlucky. During the days of *Dukshanayan*, it is said that the gates of heaven are shut, and in the *Utarayan* they are open. For men to die in the *Utarayan* is considered more blessed, because they get immediate entrance into heaven; but if the righteous die in the *Dukshanayan*, they shall have to wait outside of the gates till the *Utarayan* sets in. In the days of *Utarayan*, Moonj—the ceremony of investing the youths with the sacred cord—and marriages are celebrated. The ceremonies that are solemnised at the day of *Muckur Sunkrant*, just at the time of the sun's entrance into the sign, are these:—The Hindus go to the sea, accompanied by a Brahmin priest, to bathe: there they rub their bodies with *tillas*,* and wash themselves in the manner prescribed in the Shastra. The Brahmin then repeats certain incantations suited to the occasion, and closes the ceremony by receiving due adoration, and a present of money for himself. On their return home they invite Brahmins, present them with a cup of bell-metal, filled with *tillas* and some money, according to the ability of the *Yezáman*. Some even present the Brahmins with copper pots, new *dhoturs*, umbrellas, &c. and the whole family receives benediction from them, which is done by the Brahmins repeating certain words, and throwing on their heads a few grains of red coloured rice. After the performance of this ceremony they go to take their meals, which consist of sweetmeats. They invite their friends and relations to dinner; and towards evening they wear new clothes, gold, and other ornaments, and frequent the houses of their friends and relations, distributing *tillas* mixed with sugar At the time of putting the *tillas* into the parties' hands, they repeat these words: "Receive these *tillas* mixed with sugar, and be friendly with me throughout the whole year." All the praise and prayers that are offered this day are to the Sun, and to no other god. The second day of Sunkrant is named *Kur*, which is generally celebrated by women, by making small presents among those of their own sex.—Vide 13th January.

WUSSUNT PUNCHAMEE seems to have been instituted in honour of the Spring, which season is personified under the name of *Wausanta*, who is fabled as attending on *Camo*, or the god of love.—Vide 8th February.

RUTHSUPTUMEE is dedicated to the worship of the Sun. This day is the beginning of the Munwuntura, or period embracing the reign of *Munoo*, of which fourteen govern in succession, during the different ages of the world. The present age is under the dominion of the seventh Munoo; and at the commencement of this period a new sun is supposed to have mounted his chariot.—Vide 10th February.

SHEVARATREE.—A fast-day in honour of *Sheva*, during which the *Linga*, or Bacchiophallus, is worshipped.—Vide 2nd March Vud Chuttoordassee, or the 29th of every month, is kept sacred by the votaries of Sheva; but *Magh vud* Chuttoordassee has obtained its peculiar epithet,—*Maha Sheva Ratree*, or the great night of Sheva. The Hindu legends account in the following manner for its notoriety among the rest of *Sheva Ratrees*:—In time immemorial an archer of wicked and licentious habits went into a forest this day, to shoot deer. He spent the whole day in the pursuit of his game, and, on a sudden, night came on, and he was left to the mercy of wild beasts.

* Tillas are said to be the favourite grain of the Sun.

When he found himself in such a forlorn condition, he had recourse to a *Bale* or *Bilva* tree[2] to secure himself from their attack. Having got upon the tree, by way of relaxation, or to get a clearer view, he broke off all the branches that hung around and above his head, and flung them down: fortunately the twigs which he threw fell on the *Linga* of Sheva, which was near the foot of the tree. Sheva was so much pleased and satisfied by the accidental worship of his votary, that he forthwith sent a *Veman*, or heavenly chariot, and took the hunter into *Kylas*, his own abode, with acclamations of joy. To commemorate this great event of the entrance of the archer into Kylas, the Hindus observe a fast this day, and worship Sheva in hopes of obtaining a like merit. Observance of *Sheva Ratree*:—This day the votaries of Sheva fast, and in the night, repair to the temples of Sheva, accompanied by a Brahmin priest, who performs pooja by repeating certain incantations: first he pours some water over the *Linga*, and washes it, and afterwards he decorates it with choice flowers. When this is done, the priest takes his sacred book, wherein Sheva's thousand different names are written, and reads the names: and the Yazaman, the worshipper, flings a leaf of *Bale* over the head of the *Linga* each time. This kind of pooja is performed four different times during the night, and thus no sleep is obtained for the whole night. This is styled the pooja of the four *Pruharas* or watches. It commences at about eight P. M, and ends at five A. M. This night the pagodas of Sheva are thronged by devotees. Some persons engage twelve Brahmins, and others four, &c, to perform the pooja, according to the abilities of the Yazaman. The Brahmins must be liberally paid for their labours.

Holee (Sanscrit—Holika or Phalgutsuva).—This festival, called also *Dolwatra*, or the swinging festival, is supposed by Sir W. Jones to relate to the vernal equinox, and to be similar to the Persian Nowroz. It commences fifteen days before the full moon, on which the ceremonies are terminated, and is held in honour of *Kristna*. In the freedom with which the lower classes now behave towards their superiors, this festival resembles the Roman Saturnalia; and in the sending people on bootless errands, it corresponds with our 1st of April. Red powders are daubed upon the image of the god, and thrown and squirted by his worshippers on each other, while females are saluted by exclamations and jests of no very chaste description. The wheaten cake, which is placed on the pile lighted at the close of the festival, is called pollee, and the right of first offering it in a village is considered as an honorary privilege. Neither the origin of this festival, nor the manner in which it is observed, can be described. Nor is this manner of observing it confined to the lower classes of the native community—the highest apparently joining in it with the same zest as the lowest. This festival nominally continues from the new to the full moon; but only a few of the last days are practically and openly devoted to it. For two or three days no respectable women appear in the streets, so obscene and abusive is the language in almost every one's mouth, and applied to any woman that they may happen to see. It is often called Himga, from the name of the month in which it occurs.—Vide 18th March.

The Hindoo New Year (Shalivahan, called Goody Padwa)—On the morning of this day a Hindoo first rubs oil upon his body, and then bathes himself with warm water. A pole bearing a flag, and surmounted with a brass or copper vessel, is erected in front of the house. One such pole must be erected by each family. This represents the banner of Indra, the king of the gods, which on this day is also raised in honour of him by the gods. What is done here on earth is therefore in imitation of what takes place in the heaven of Indra. The leaves of the bitter nimb tree are then to be eaten, which secures health to the body, because this tree is the offspring of the Ambrosia of the gods. The Almanack for the New Year is then to be worshipped, and its predictions, in regard to the year just commencing, are to be heard from the mouth of the Jotishees. They tell whether there is to be an abundance or a scarcity of rain, whether there will be unusual heat or cold, whether robberies, insurrections, &c., are to abound, whether unusual sickness is to prevail, &c &c. Each individual on this day also learns what he is to expect during the year; whether health or sickness, prosperity or adversity, is to be his portion, &c. &c. All this important information is not, of course, to be obtained without some compensation. And not only are presents to be given to the Jotishees, but the poor people are taught on this day to extend their liberality also to the Gooroos and Brahmins. The day is also to be celebrated by feasting. This is considered an auspicious day for commencing a new building, or engaging in any new undertaking.—Vide 4th April.

Ram Nowmee.—On this day Ramchundra, the 7th incarnation of Vishnu, was born at *Ayodya* or Oude, about B. C. 1600.—Vide 11th April. Rama is supposed to be the same as the Grecian Dionysius or *Bacchus*, and the object of the incarnation was to effect the destruction of Rawun, the ten-headed tyrant of Lunka or Ceylon, which was at last done with the assistance of Hunooman, the chief of the monkey tribe. The

[2] A favourite tree of Sheva's, and which is held sacred among the Hindoos.

birth of Rama is, strange to say, celebrated eight days previous to its occurrence, that is, from the first of *Chytru Soodh* to the ninth. From the first day the temples of Rama are whitewashed and illuminated in the evening, and the image of Rama is adorned with costly ornaments. In the evening the *Ramayan*, or the sacred legendary history of Rama, is read in the temples, and in the night *Keertun* is preached by the *Hurridass*, who describes the morality and heroic actions of Rama Nautches are also not omitted during the nights. In some temples Brahmins are fed with a rich and substantial dinner for eight successive days; these days are denominated *Rama naovatra*, or nine nights of Rama. During these days, many Hindus, both males and females, go to the temples of Rama to hear the *Keertun* and *Pooran*. The last or principal day is *Ramnowmee*, when, it is said, Rama became incarnate at noon. In honour of this incarnation, the Hindus fast the whole day. They get up in the morning, wash themselves, and put on rich clothes and ornaments, and repair to the temples of Rama at about nine o'clock. Every temple of Rama is well furnished this day, and images are decorated with precious ornaments and rich brocade. A *Hurridass* is engaged to describe the birth and circumstances that attended this incarnation. He continues his prattling till twelve o'clock, when he brings a small image of Rama, nicely ornamented and well clad, and shows it to his audience, and tells them that it is Rama who became incarnate; and puts it into a small cradle prepared for the purpose. The assembly then throw themselves prostrate before the image and worship it. Great is the rejoicing and acclamation of the assembly on this occasion; they fling *golal*, a red powder, on each other, and with great mirth about one o'clock they return home, and again go to the temples in the evening. The feast of Ramnowmee is more particularly observed by the votaries of Vishnu.

VUD SEVITREE (SAVITREE VRUTA).—A fast observed by women at the root of the Indian fig tree, to preserve them from widowhood.—Vide 15th June.

ASHAADY EKADASSEE is the eleventh of the light half of the month *Ashad*, and is dedicated to Vishnu. On this day, which refers to the summer solstice, commences the night of the gods, during which the deity reposes for four months on the serpent Seshu.—Vide 11th July.

NAG PUNCHAMEE is sacred to the demi-gods in the form of serpents. Ceremonies are performed on this day to ensure protection against the bites of snakes.—Vide 3rd August. The serpent *Kaleeya*, slain by Krishna, is worshipped at the festival, as was *Pythan*, at Delphi.

SHRAWUN OR NARYOUL (OF NARULL) POORNIVA.—On this day the rainy season is considered to be at an end, and a cocoanut is offered up to the sea to gain its favour towards those who now begin to trust themselves to its mercy.—Vide 13th August.

JUNMA OR GOKUL USHTUMEE (JUNMA ASHTUMEE).—Instituted in commemoration of the birth of *Krishna*, which took place at midnight in the city of Muthoora. Krishna, who in many respects agrees with the Grecian Apollo, was the eighth incarnation of *Vishnu*, in which, according to a large sect of Hindus, was manifested a greater portion of divinity than in any of the preceding ones. His uncle *Kowns*, who, it was predicted, would be slain by one of his own family, endeavoured to ensure the destruction of the infant god, by placing guards over his pregnant sister; but the child was preserved from this and other attempts of his relations, who subsequently gave directions for the slaughtering of all newly-born infants.—Vide 21st August. This holiday is considered one of the greatest among the Hindus, and is therefore observed by almost all the Hindu community; there are two sects among the followers of *Krishna*, and they solemnise the feast on different days. Those belonging to the one keep the birth-day of Krishna on the eighth day of the dark moon, and those belonging to the other, the day following, being the one on which he was removed to *Gokul*, to the house of Nanda, through fear of his maternal uncle, who sought his destruction: and some even keep both days. The former fast on the day of *Janma Ashtumi*, and the latter on the day of *Gokul Ashtumi*. They fast the whole day, and at night they bathe, and worship an image of the infant *Krishna*, adorning it with *tulse*, a favourite plant of *Vishnu's*, and with other flowers, in the manner enjoined in the *Shastra*; and at about ten or eleven P. M, they eat their *Palahar* food, which consists of fruits and some kinds of grain, being prohibited from eating rice and other grains that day. A Brahmin is called in to perform the *pooja*, and afterwards he himself is worshipped, and sent away loaded with *Dakshina* and other presents. This is all done according to the rules of the *Shastra*. The holiday is thus observed among the people of the higher castes. On the day of *Gokul Ashtumi gowlees* (or keepers of cattle) keep a great jubilee among themselves, as Krishna was bred up among their race. They join themselves into a company, and frequent the houses of the people who follow their profession, holding each other's hands, dancing in the street, and repeating these words, "*Govinda, Govinda*," where they are honoured either by throwing over them curds, or presenting them a certain quantity of curds. These people are called *Gopalls*—protectors of cows. But the most extraordinary thing

relating to this festival is the following:—On the night of *Junma Ashtumi*, crowds of people, generally of the lower ranks, flock into the temple of *Canoba*, which is commonly known by the name of *Mutth*; there they hire native music, and continue shouting and making a great noise, so as to deafen one's ears. The *Bhugut* of *Canoba*, or the head of the temple, who is very often of the *Shudra* caste, and who is considered a supernatural being, at least at the time, with great solemnity and grave countenance makes his way through the assembly and stands before the shrine of *Canoba*, and offers prayers to the idol of *Canoba*, which is richly decorated on the occasion, accompanied by the playing of tom-toms, and acclamations of joy from his disciples. He is at first quite calm, but shortly after shows signs of inspiration by the god. He begins to untie his shendi, or the tuft of hair on the crown of his head, and then slowly shakes his limbs. By degrees his whole frame quivers, and he throws his whole body into violent contortions, dancing and muttering strange ambiguous and wild sounds, which no one can understand. He then takes his scourge, which is kept near the shrine, and scourges himself as if he were insane, and performs many other equally strange actions. No sooner does the assembly around see him in this predicament, than, believing that the spirit of the god has entered into him, they burn incense before him and fall prostrate, and pray to him to be merciful to them. When he has received divine homage, he quietly takes his seat, but does not cease quaking and trembling. His disciples, who are always near him, then commence, one after another, to shake themselves and dance in the same way; and the spirit of the god is believed to enter them also. This day the great *Bhugat* can create new disciples, and give them the power of bringing the spirit of the god into their bodies. Sick persons, persons possessed of devils, children, &c., are brought to the temple to receive the benediction of the *Bhugat* and his disciples; he rubs a little ashes on their foreheads, passes his hand over their heads, and gives them full assurance of their speedy recovery from their sickness without taking any medicine. The poor patient, with full confidence, returns home, expecting the fulfilment of the *Bhugat's* promise; but probably, to his great disappointment and distress, he gets worse, or is perhaps cut off next day. It is a great wonder, notwithstanding such disappointments, that the eyes of the ignorant are not opened to see the impotency and imposition of the *Bhugat*, for they still remain as faithful to him as ever. It is the subtlety of his speech, and the dexterity of his actions, that delude them. The *Bhugat* receives large presents on this occasion from the followers of his tenets, and he is held in great respect among the orthodox Hindus, and even among persons of some other tribes. On the following morning the *Bhugat* collects the circle of his disciples in front of the temple, and orders a sufficient quantity of curds to be thrown over their heads to wet their whole bodies: they all begin to dance in company, holding each other's hands, and occasionally throwing themselves on the ground and besmearing their bodies with mud, shouting as loudly as they can. The *Bhugat*, in the mean time, with a scourge in his hand, forces his way into the crowd with all his pretended dignity, and stands in the midst of the crowd, and looks in all directions in his feigned solemnity, and then lifts up his powerful scourge and puts it around the neck of one of his disciples as a token of his regard, and draws him towards himself, when the disciple trembles a little, and then stands firm, stretching his hands towards the sky, with his eyes closed. No sooner does the *Bhugat* see him in this state, than he scourges him two or three times so adroitly that it gives him no pain, while to the eye of the spectators it appears a prodigy that he does not feel it. This is repeated till he has shown the same mark of approbation to the whole body of his disciples, when he ceases, and sweetmeats are distributed among the disciples and to all the spectators. Thus terminates the feast of *Gocul Ashtumi* among the people of the Shudra caste.

PETHOOREE, OR PRACHEHEE AUMAWASYU.—A ceremony observed at the new moon of the month *Shrawun*, at which the 64 Yoginees, or female attendants of the goddess Doorga, are worshipped, particularly, it is said, by women, with the hope of obtaining issue.—Vide 27th August. The 30th of the month of *Shrawun*, or the last day of the dark half of the moon, is denominated "*Prachee Aumawasyu*." Prachee is, it is supposed, one of the goddesses of the East. She is commonly known among the people of the Konkan and Deccan by the name of Pethooree. Wealthy Banians and other people of Guzerat go to Walkeshwar on the previous evening with their families, to remain in the *Dhurrumsalla* during the night; and, on the subsequent morning, they bathe in the tank of Walkeshwar. (This tank is called by the natives *Ban-gunga*, *i. e.* the Ganges produced by an arrow; and they give a marvellous account of its origin. They say, when *Rama* visited this part of the world, and found that there was no pure water to drink, he pierced the ground with an arrow from his bow, and thus brought the Ganges into existence.) They also perform *Shraddhas* on the margin of the tank, and ceremonies for procuring the deliverance of their departed ancestors from the thraldom of *Yama*, the king of the infernal regions, if they still remain at his court or in his dominions. They afterwards repair to the temple of *Walkeshwar*

and worship his image, after which they take their meals. The remaining part of the day is spent in amusements, among which gambling is overlooked or neglected. Booths are erected in the locality of the temple, and furnished with all kinds of the choicest articles that please the fancy or delight the taste. The Hindus on this occasion squander away hundreds of rupees in hiring vehicles, and buying toys and sweetmeats for their children. This holiday is not observed by the majority of the inhabitants of the Konkan and Deccan. It is kept up chiefly by those women who lose their children in infancy. They fast this day, and worship an image of *Pethooree*, by adorning it with various kinds of fruits and flowers, through the medium of a Brahmin priest.

GUNESH CHOUTH, OR CHUTTOORTEE.—On this day was born Gunputtee, or *Gunesh*, who is considered as the god of prudence, and invoked, like Janus, at the commencement of all undertakings. The manner of his birth is differently told: one story relates, that as the god *Kartikeyu* was created by Shiva without connubial assistance, in like manner *Gunputtee* was formed by his consort *Parwuttee* from the turmeric and oil scraped off from her own body while bathing. The loss of his human head, and the substitution of that of a female elephant with one tusk, is also variously explained. By some, his head is said to have been cut off by Shiva when he endeavoured to prevent the god from entering the chamber of Parwuttee when performing her ablutions as above. According to other accounts, it was reduced to ashes by a glance from the eyes of *Shunee* or Saturn, when all the gods went to look at the newly-born child, and its place supplied by that of the animal first found, which happened to be an elephant. Clay images of the deity are formed, and after having been worshipped for nine or ten days, are thrown into the water. The Chinchore or Chinchwud (properly Deo) who resides at the village of that name near Poona, is supposed to be an incarnation of this god, who granted to a holy Gosayeen, who had won his favour, that the divinity should be continued in his family for seven generations; and though the present one has exceeded that limit, the miracle is perpetuated by the Brahmins for self-interest.—Vide 31st August. It is commonly said among the Hindus, that the *Shastra* enjoins its followers the worship of Mritica (earth) in the following forms, three times a year: The first of these is *Nagpunchmee*, on which day a snake of clay is made and worshipped; the second is *Gokul Ashtumi*, when a clay image of the infant *Krishna* is made and worshipped; and the third and last is *Gunesh Chuttoorthee*, on which day a clay image of Gunesh is worshipped. This being the last day of the worship of *Mritica*, it is observed with greater pomp and more ceremonies, conviviality, and music, than the two others. The image worshipped on this occasion has four hands and an elephant's head. The mouse, being *Gunputtee's* favourite vehicle, is also placed near his image, richly saddled and bridled. Besides this the worship of *Gunesh* may be traced to his origin. But different accounts are given in different *Purans* of that origin, and the consequent introduction of his worship, which it would be rather a difficult task to detail. The image of *Gunputtee* is either made in the house or purchased from an artist; it is gilt with the finest gold, and painted with superior and variegated colours; much labour and ingenuity is bestowed on it by some to render it elegant and attractive, according to the taste and pecuniary means of the worshipper. The 4th of the month of *Bhadrapud* is the appointed period for the celebration of this feast. On the previous day the worshipper cleans and whitewashes his house, and furnishes it with all sorts of costly furniture that can be procured. The profussion of light is the first thing that would attract one's eye. On the following morning, *i. e.* on the day of *Gunesh Chuttoorthee*, they bring the image home (if it be bought) with great splendour, accompanied by native music, and with all the honours of a god. A place where the god is to be seated is prepared, either in the form of a covered shrine or open space, which is adorned with all kinds of fruits and flowers strewed round it, and twigs of trees hung over in clusters; after which commences the business of the officiating priest, who sits near the master of the house, and begins consecrating the idol, by reciting incantations or *muntras* from his book, and throwing over it red coloured rice; thus after performing many consecrative ceremonies, he brings from heaven the godhead into the image on earth. Being thus installed, the devotee places before him *Nayavedh* food, which consists of sweetmeats, and invokes the god to partake of the offering. Afterwards he falls before him, and prays him to be gracious to him and his family. To perform the whole *Pooja* according to the rules of the *Shastra*, requires at least three or four hours' time. By the generality of the people, *Gunputtee* is kept one day and a half; but by some five or ten days, according to the wealth and wish of the proprietor. A discourse is delivered in commemoration of his godly exploits by a *Hurridass* in his presence, to which friends and relatives are invited to attend. A large party of Brahmins are entertained at a sumptuous dinner, in honour of *Gunesh*, and they are then dismissed with the usual *Dakshina*. On the last day preparations for his departure are made. Evening is the appointed time for parting, when the master of the house performs *Onter-*

puja through the priest, who takes away the divinity with which the image was invested by repeating certain *muntras* or charms: flowers, fruits, and sweetmeats are offered to the idol, and *artee*, that is, lighted wicks, are moved before *him*, accompanied with music and hymns; and he is invoked to bless the owner and his family, and remove any calamity, that might befal them throughout the year. Afterwards the Brahmins are presented with *Dakshina*, and the image is seated in a palankeen, or in an ark expressly made for the purpose, adorned with fresh flowers, and carried to the sea or tank in procession, which consists of the master of the house, his children, and relatives, who are richly attired on the occasion. When they reach the place, they take out the image and commit it to the water, with every devout feeling of regret for its absence till next year. On the day of *Gunesh Chutloorthee* the Hindus are prohibited by the *Shastra* from looking at the moon, and therefore prejudiced and credulous Hindus are afraid to look at her this evening, for fear of incurring any calamities throughout the year. If the vulgar people happen to see the moon, they try to provoke their neighbours to abuse them, and comfort themselves with the idea that the calamities incurred will be all comprehended in that abuse, and removed by it.

RUSHEE PUNCHAMEE.—Observed in honour of the seven Rushees or sages, who are supposed to be the seven bright stars in the *Great Bear*.—Vide 1st September.

GOWREE.—One of the names of the goddess *Parvutee*.—Cakes are made in the shape of pebbles, and eaten at night-time.—Vide 4th September.

WAMUN DWADASHEE.—Instituted in commemoration of the fifth incarnation of Vishnu, in the shape of a dwarf, to prevent *Bullee* from obtaining dominion over the three worlds through the effects of his religious austerities. Bullee promised the dwarf at his own request to grant him as much land as he could compass at three steps. On the ratification of this promise, the first two strides of the incarnate deity embraced the heaven and the earth: there being now no place for him to put down his foot for the third time, Bullee magnanimously told him to put it on his head, which the dwarf having done, crushed him down to Patala, the dominion of which was conceded to the ambitious monarch.—Vide 8th September.

PITRU PUKSH.—The dark half of the month *Bhadrapud*, and sacred to the Pitars, or progenitors of mankind, to whose heaven the souls of the deceased ascend after the celebration of funeral rites, which is particularly proper during this season.—Vide 12th September.

DUSSERA.—This festival, called Doorga Pooja or *Dorgotswa*, is supposed to relate to the autumnal equinox. On this day, in commemoration of the victory of *Devee*, the wife of *Shiva*, over the monster *Maheeshasoor*, her images, after having been worshipped for nine days, are thrown into the water.—Vide 6th October. On this day also *Rama* marched against *Rawauna*, on which account the Marathas seem to have selected it as a proper period for commencing their plundering excursions. This day is observed thus: Early in the morning the Hindus, having washed themselves, perform the *Pooja* of their household gods in conjunction with that of all their *shastrical grunths* or religious books. Marathas and Kshitrias, or those who consider themselves of the military race, worship the implements of war, and ask protection of them throughout the year, under a conception that to the propitiousness of the sword they owe every prosperity. Hereafter at noon they take dinner, in the company of their relatives who may have been invited on the occasion. In the afternoon they go to the temples in procession, with friends and relatives, and children, richly attired. Moombadavee and Booleshwur are the principal scenes. Both of these places are thronged by dense masses of Hindus, bearing each in his hand flowers and a branch of a certain tree *(Apta)* denominated *sona* (gold), which is held highly sacred and indispensable in commemorating this day. On entering the temple they offer the *sona* and flowers to the image, accompanied with prayer; they also give sundry *Dakshina* to the Brahmins, and return home, visit their friends and relatives, present them with a leaf or two of this imaginary gold, and conclude with a hearty embrace and receive similar treatment in return at the same time. The *sona* forms the chief article of the Dussera holiday. The vicinity or front of the above temples is surrounded by the venders of this plant, who range themselves with baskets full of branches in bundles. At night an illumination is made. This day is considered by the Hindus most auspicious for sending their children, who are beginners, to school. The preceding days of the Dussera are called *nowratree*, a compound word for nine nights. During these previous nine days, the devotees of Durga keep themselves holy, engage a Brahmin to read hymns before her, in which her exploits are extolled and her rewards to her votaries are described. On the ninth day, at every temple of Durga, *Huvan*, or a sacred fire is created, and fed with rice and clarified butter, and adored by the repeating of muntras. It is customary among the Banian women to keep up a dance during these nine nights, called *Gurbha*, which is accompanied with religious songs. The celebration of the Dussera owes its origin to the *Panduwas*; the five sons of Pandoo having selected this day, after completing their exile of

twelve years, as an auspicious one for making preparations for the tremendous war with their paternal cousins, the *Kourawas*, of which the Puranas give an account, occupying the whole volume. The Hindus decorate the horses with flowers this day, putting garlands of flowers around their necks. It is said that Parth, the most invincible of the five Panduwas, who had a peculiar fondness for horses and a pre-eminent skill in the art of chariot fighting, and from their being great auxiliaries in the matters of battle, washed his favourite milk-white horses, put garlands of flowers around their necks, and tapped them in token of fondness and approbation, with his own hand: owing to this legend, it seems, the decorating of horses with flowers this day is observed.

DEWALLEE (from *Depawali*, Sanscrit, signifying a row of lamps)—Is celebrated in honour of the goddess Kalee, or Bhuwanee, who was formerly propitiated by human sacrifices, and of Vishnu's victory over the demon Tareekee.—Vide 25th October. The festival, however, seems to be more peculiarly consecrated to Lukshmee, or the goddess of prosperity. The first day (Ushwin wudh) is termed *Dhanootruyadashee* and Sowkars now count their stores and perform pooja to their wealth. On the *Umawasya*, or new moon, there being a fresh account, pooja is again performed before the old and new books. The festival lasts altogether five days. The Dewallee means the feast of illumination, or ranges of light. It is celebrated for the period of five days, during which houses are cleaned, whitewashed, and illuminated; a quadrangular floor is made in front of the house, and painted with different coloured powders; it is called *Rangollee*. Gambling was the chief recreation of the feast. The Dewallee commences from the 28th day of *Ashwenwudh*,—this day is denominated *Dhuntriyodashi*. This day they collect all the treasure in their houses and worship it, giving it the name of *Luxmee*, the goddess of wealth; a light is made and dedicated to *Yama*, the god of the infernal regions, and every preparation is made for the succeeding morning. Fire-works, crackers, spouters, &c., are displayed. The 29th is *Nurrukchuttordashi*. This day Vishnu killed Nurruckasoor, an invincible giant, after a desperate battle, and entered his city early in the morning with the palm of victory, when the people illuminated the city and received him with great joy and acclamation; and the women of the city having adorned themselves, went before him with lighted lamps, and congratulated him. The Hindus keep this day to commemorate this great conquest. This day they get up early in the morning, fill the house with lights, rub their bodies with perfumed ointment, and bathe themselves with hot water. No member of the family is left unbathed: new clothes and ornaments are put on, and children are decorated. When this is done, the mistress of the house performs a sort of ceremony called *Arthee*—by placing wicks either in silver or brass dishes, which mean that God would remove all the difficulties and make the year happy—when each male member makes her a present of money; sweetmeats are distributed, and friends are invited to dinner. The 30th, *Amawashia*, last day of the moon, is the day of *Saraswuttee*, the goddess of learning and wealth. It is vulgarly known by the name of *Pedipoojun*, or the worship of the shops. This day the year of Vikram Sumvut, or Vikram's era, closes; all the merchants close their accounts this evening. New journals, ledgers, and day-books are brought and worshipped through a Brahmin priest; new entries are made in the account books; writers are sent to different shops with rupees to credit in their names, on this auspicious evening. *Saraswuttee* is invoked to render the subsequent year prosperous, and to be with them throughout the year; then the Brahmins are sufficiently paid for their labours, and servants receive a present of some money, according to their rank: this day is celebrated by all classes of people—Banians, Parsees, Mahomedans, &c. The first day of *Kartick Shoodh* is Baliraj, the day of king Bali. This day Bali was sent to *Patal*, or the lower region, by Vishnoo, for his great merit. They also rise up very early in the morning, make the lights, clean the houses, wash their bodies, and fill a basket with all the rags and rubbish, in the house, put a lighted lamp over it, and throw it outside of the house, repeating these words—"Let all the misery and troubles go, and the kingdom of Bali come." After the ablution, the women make an image of Bali Rajah and worship it; presents are given to the Brahmins and other mendicants; and playing with dice is continued with greater ardour and spirit than ever. The 2nd day of Kartick Shoodh is *Yama Dwitiya*, which is commonly known by the name of *Bhaybij*. This day Yama, the king of the infernal regions, went to his sister to dine, and to perpetuate the memory of this, the Hindus must go to their sisters' houses and take their meal with them, and make them a present of some money or gold ornaments, and thus please the king, who will save them from the punishment of their sins.

KARTICK EKADSHEE—Is the eleventh day (in some years the fourteenth) of the light half of the month Kartick, and is celebrated in honour of Vishnu. On this day the god is supposed to rise from his slumber of four months—a fable which has reference to the sun at the winter solstice.—Vide 6th November.

KARTICK POORNIMA—Is the full moon of the month Kartick. On the fifteenth of

this month, as well as of Magh, Ashad, and Vaishak, each of which days is called "*Donumasya Kuru*," gifts to Brahmins are considered indispensably necessary. Shiva also is said to have gained his victory at this season over the monster "*Triboorasoora*."—Vide 10th November. Kartick Shoodh Poornima, the full moon in the month of *Kartick*, is called the *Tree Poora Soora*, master of the three cities. This demon is said to have become so powerful that he defeated almost all the gods, and drove them out of their habitations, when they formed a levee, and went to *Kylas*, the abode of *Shiva*, and represented to him their grievances; who after lending an ear to their pitiful supplication, comforted them by the assurance that the evil should be soon removed, and sent them back to their respective homes. He accordingly made a car of the earth, the wheels of which were the sun and the moon. *Brahma* was chosen his charioteer, the mountain Himalaya formed his bow, and *Wasookey*, the king serpent, his bowstring. Vishnu himself became his quiver. Thus equipped, *Shiva* rode himself in it, and destroyed the mighty giant after a struggle. To perpetuate the memory of this great event, the women of the Hindus get up very early in the morning of this day, at about two o'clock, and wash themselves in cold water, and repair to the temple of *Shiva*, and worship his image. Afterwards they return home, and present a Brahmin with a lighted lamp, made either of silver, copper, or brass, according to their ability, along with some fruits and *Dakshina*, a present in hard cash; this is called *Deepdan*, or present of a lamp. In the evening an illumination is made in the temples of *Shiva*, and a pillar of stones built in front of all of them for this special occasion. A grand fair is also celebrated this day in honour of *Walkeshwar*, an image of *Shiva* at Malabar Hill. It is kept for three days, when booths are erected, and shops are adorned with all kinds of articles by the people of all denominations. The Hindus, both the rich and poor, Brahmins and Shoodras go there and worship the image of *Shiva*, and buy sweetmeats and toys for their children. Some of the wealthy Hindus remain there with their families for three or four days in the *Dharrumsalla*, or inns built by them, but the poor return the same evening. During these days hundreds of rupees are spent in hiring conveyances, and purchasing sweetmeats and toys. Among the many other entertainments.

BIRTH CEREMONIES.

Different ceremonies are prescribed by the Shasters to be observed at the period of conception, and the different stages of pregnancy. "*Jatkurm*" is to be performed at the birth of the infant, and consists in giving it a drop of honey out of a golden spoon before dividing the navel-string. Other rites are to be observed on naming the child twelve days after birth—on bringing him outside the house when three months old—on feeding him with the hand at six months—and, if a male, on shaving his head at the age of three years.

MARRIAGE CEREMONIES.

Among Brahmins the male may be married at any time after the "*Moonj*," or investiture with the sacred thread, which is done within the age of eight years, and among other castes at any age. The female should not be ten years old, and her age must be less than that of her husband; and she should be married before the appearance of the signs of puberty. The Shastors mention eight kinds of marriage, but only one is observed by the "higher castes," named *Bruhma*, when the charges are severally incurred by the fathers of the parties. The principal marriage ceremonies among Brahmins are the "*Lugunputrica*," or writing by the Joshee or Astrologer of the names of the parties, and the day and hour at which the wedding is to take place, the "*Suptupudee*," or walking round a fire three times, at each time seven steps, and tying together the garments of the parties and the "*home*" or burnt offering; after which the contract is indissoluble. The girl is given away by her father in his own house, in which it is usual for her to remain till the appearance of the signs of puberty, after which she proceeds to the residence of her father-in-law, where her husband also resides, or to that of the latter, should it be otherwise. Particular months and junctions of the planets are prescribed for the celebration of marriages in different castes: as also the same castes in different countries have their peculiar ceremonies, which are too various to be described here. "*Phulshobun*" is the performance of certain ceremonies on the occurrence of the first menstruous symptoms.

DEATH CEREMONIES.

On the death of a man, the performance of his funeral obsequies (*Kriya*) and of the monthly and annual purificatory ceremonies, devolves on his heir. The principal times for performing "*Shradh*" are eleven days after death; secondly, every month, and thirdly, on the anniversary of death. Brahmins are unclean for ten days after the death of a relation,—the military class for twelve,—the mercantile for fifteen,—and Shoodras for thirty. Among the Hindus, generally, the body of the deceased is burnt,

but that of an infant under two years of age is buried. The "Shradh" consists in the offering of rice, flowers, water, &c. to the deceased and to his manes, in order to enable his soul to ascend to the heaven of the Pitars, or great progenitors of the human race.

MAHOMEDAN.

RAMZAN.—This Mahomedan fast commences each day throughout the month of this name, when the first streak of light borders the eastern horizon, and continues until the stars are clearly discerned in the heavens. During the whole period not the slightest particle of food, not one single drop of water, nor any other liquid, passes the lips from the dawn till the appearance of the stars in the evening. Each day during the fast is passed in occasional prayer, besides the usual namauz, and in reading the Koran or the lives of the prophets.—Vide 5th April. The fast is first broken by a cooling draught called *Dundhie*, the same which is used in fevers. It is composed of the seeds of lettuce, cucumber, and melon, with coriander, all well pounded, and afterwards diluted with cold water; rose water, sugar, syrup of pomegranate, and kurat, are also added; the whole preparation is made in the zenana, and then drunk by basins-full by all true *Rozedhaurs*. Plain boiled rice, with dhie (sour curd) and sugar, forms the first morning's repast of the Eed; dried dates are eaten with it in remembrance of the prophet's family, whose greatest luxury was supposed to be the dates of Arabia. The conclusion of the month Ramzan is celebrated as an *Eed* or festival, and is hailed with great rejoicing and merriment, as a sort of reward for their severe abstinence. In every house the same dainties are provided, every amusement that can be thought of is indulged in; the nautch women in the apartments of the gentlemen, and the dominee in those of the ladies, are in great request, the zenanas ring with festive songs, and all is life, joy, cheerfulness, and cordiality on this last day of the Ramzan, when the lady of the mansion sits in state to receive nuzzurs from inferiors, and to grant favours to others.

EED.—The followers of Mahomed claim to be the descendants of Abraham through his son Ishmael, who, they aver, was chosen as the offering to the Almighty, and not Isaac, thus differing from the belief of the Jews and Christians, and supporting their assertions by traditions which they deem conclusive evidence on the subject, in opposition to the authority of the Bible. The offering thus made to heaven is annually commemorated by the sacrifice of particular animals, such as camels, sheep, goats, kids, or lambs, according to each person's means, and answers the double purpose of honouring the memory of Abraham and Ishmael, and also assisting to a meal in a time of great need. The followers of Mahomed believe that the entrance to Paradise is guarded by a bridge made of a *scythe*, or some such equally sharp instrument, affording a precarious and unstable footing. To enable them, therefore, to pass without danger, they believe that the number of animals they have sacrificed at the feast of Eed will be present to lend their aid to help them over in safety.

EED KOREAN.—In commemoration of Abraham offering up Isaac, but in Mahomedan estimation Ishmael; and this is the day on which they annually perform the Haj at Mecca.—Vide 12th July.

MOHURRUM.—A celebrated mourning festival, held annually in remembrance of the first martyrs of the Mussulmans—Hassein and Hossein—the two sons of Fatima and Ali, from whom the whole race of Syuds have generated. Hassein was poisoned by an emissary of the usurping Calipha, and Hossein the last victim of the descendants of the prophet's family to the king Yuzeed's fury, suffered a cruel death, after the most severe trials on the plain of *Kurbulla* on the tenth day of the Arabian month Mohurrum, the anniversary of which catastrophe is solemnised with the most devoted zeal. Hassein and Hossein were, as above stated, the two sons of Ali, by his cousin Fatima, the daughter of Mahomed; and after the murder of their father by the contrivances of the Calipha, they with their families removed from *Shawn*, the capital, to Medina. After residing there for several years, the people of *Shawn*, being tired of king Yuzeed's tyrannical rule, invited Hossein to return to the capital and take up his lawful right as Imaum (leader of the faithful). Before accepting this invitation, Hossein sent Moslem, his cousin, as a messenger, to report the true state of affairs to him; but on his arrival with his two sons at *Shawn* he was seized by order of king Yuzeed, and cast from a precipice, and his two innocent sons were barbarously murdered, for the sake of the reward offered for their heads. This forms the subject of the ten days' bewailing during the Mohurrum. The Mahomedans are divided into distinct sects, called the Sheas and the Soonies. The former believe Ali and his descendants to be the lawful leaders after Mahomed, and the latter are persuaded that the Caliphas, as Aboubuker, Omer, &c., are the only leaders to be accredited,—hence quarrels, animosities, and dislikes are hoarded up to be avenged during the Mohurrum. The festival begins on the first day of the moon (Mohurrum). Tazias, (a term signify-

ing grief, and applied to a representation of the mausoleum erected over the remains of Amam Hossain at Kurbulla,) made of ivory, ebony, sandal-wood, cedar, and some wrought in silver filigree, and indeed of every variety of material, from pure silver to bamboo and paper, according to the rank and wealth of the party, are exhibited in every direction, and conveyed in procession through the streets. Mourning assemblies are held morning and evening in the Emaum Barrahs, during the Mohurrum, and the head priest or preacher recites a subject for each day's service, from the various books composed on the subject, descriptive of the life and sufferings of Hassein and Hossein. The Murseeah, a poetical composition of great merit, and embracing all the subject they meet to commemorate, is chaunted with great effect; the names of their lawful leaders are recounted with blessings, and that of their usurpers, the Caliphas, with curses. Then comes the procession of Dhul Dhull, the name of Hossein's horse killed at Kurbulla, beautifully caparisoned; and finally the Tazias are deposited with funeral rites in the public burial grounds, when the Mohurrum ceases until the return of another year. The Taboot is a slight framework of bamboo, in the shape of a mausoleum, covered and ornamented with coloured paper and tinsel, and is designed to represent the mausoleum built over the remains of the slaughtered Hossein. They vary considerably in size and appearance, according to the taste and ability of those who build them. In some of them are the representation of the Tomb of Hassein and Hossein. Before these Taboots incense is burned, and various other rites are also performed. The Taboots, it is said, are peculiar to India. They, of course, are not mentioned in the Koran, and they are not built either by the inhabitants of Persia or Arabia. Many Mahomedans regard them with strong disapprobation. In Bombay the larger portion of the Mahomedans unite in building the Taboots. These are taken out, and, accompanied with music, carried in procession through the Bhendy Bazar, from midnight of the ninth until three o'clock of the morning of the tenth day, and from two to six o'clock on the afternoon of the same day, on their way to the beach in Back Bay, where the greater part of the Taboots, after being stripped of whatever is possessed of value, are cast into the sea. The practice of building Taboots seems to be losing ground in Bombay, a portion of those who formerly united in this having adopted the views of those opposed to those things. The Indian Mahomedans, who do not unite in building the Taboots, are accustomed to go on this occasion to the mosques for five successive evenings, to listen to the account of the death of Hossein. Their demonstrations of grief, however, are not equal to those of the Moguls and Persians, who, while listening to the recital, weep aloud, and smite violently upon their breasts. These are accustomed to meet at the Musjid, a little to the east of the American Mission Chapel, near the Baboola Tank, in Mirza Mahomed Ali Khan Street. In Bombay there is, strictly speaking, no representation of the battle which was fought previous to the death of Hossein. Some two or three horsemen, bearing flags, enter the large yard adjoining the Emaum Barrah, with loud wailings, and are followed by two horses caparisoned, to represent those which were for the use of the fallen Hossein. One person on horseback, with a long sword apparently run through the head, and covered with blood, joins in the wailings. A female infant in deep mourning, sitting at the door of a small mausoleum, which is carried on the shoulders of men, constantly casts ashes or cut-straw upon her head, in token of grief. These pass round in a circle, accompanied or followed by a company on foot, who beat upon their breasts, crying, "Hai Hossein! Hai Hossein!" Sometimes, a person represented in a dying state, his body covered with wounds and blood, and darts and daggers run into it, is carried about in procession. The whole is, indeed, a strange exhibition, fitted to excite in the mind of the enlightened spectator mingled feelings of piety, wonder, and grief. We are not sufficiently informed to give an accurate account of all that occurs on this occasion. It would seem that this festival is now celebrated with less effort and effect than formerly. It is apparently becoming more and more a farce. The grief is doubtless for the most part feigned. The decline of the peculiar zeal of the Mahomedans must necessarily lead them to enter into these with less spirit.—Vide 1st August.

PARSIS.

The Parsis of India are divided into two sects,—the "Shahinshahis" or "Rashmis," and the "Kadmis" or "Churigars," the former of whom constitute the larger portion of the nation. This division originated only about a hundred and fifty years ago, when a learned Persian priest, named Jamasp, arrived in India, and found that his co-religionists differed with their brethren of Iran in their calculation of time by full one month, and in other minor points relating to their "liturgy." Serious disputes arose in consequence, which ended in the formation of the two sects, the Shahinshahis adhering to their own views, and the Kadmis adopting the opinions

imported by Jamasp, thus agreeing with their Persian brethren. Notwithstanding this division, no estrangement exists between each other in their social intercourse. The difference only lies in their computation of time, and in some slight variations in the forms of prayers. Intermarriage is allowed, as well as admission to each others' places of worship.

The festivals of the Parsis, unlike the Hindus and Mahomedans, are celebrated with little or no outward pomp. Their holidays are mostly occupied in prayers in the morning, and festivities and rejoicings during the rest of the day. Some of their religious institutions can be traced to a very ancient period. The festival of the Nowroz dates to upwards of three thousand years before Christ, and is kept to this day by most of the nations of Western Asia, notwithstanding the difference of creed. In a paper by the late Col. Vans Kennedy, published in the second volume of the "Transactions of the Bombay Literary Society," we are informed that the Emperor Ackbar adopted the "Nowroz," and fourteen other festivals of the Parsis, for the observance of those who were attached to his favourite doctrines of the "Alahi faith," or the "Religion of God," which he fruitlessly endeavoured to introduce among his people.

PAPRET, OR NEW YEAR'S DAY.—Among the festivals observed by the Parsis, the first and universally kept is the Pateti, or new year's day. This day is celebrated in honour of Yezdezerd, the last king of the Sassanide dynasty, who was dethroned by Kalif Omar about A. D. 640. The ancient Persians reckoned a new era from the accession of each successive monarch, and as Yezdezerd had no successor, the date of his accession to the throne has been brought down to the present time, thus making their current year 1224. In their calculations of the year only 365 days are allowed; the leap year is unknown to them, though there are records which prove that in every 120 years one month was added to the period, to correspond with the solar year. The year is divided into twelve months of thirty days each, and five days, or "Gathas," as they are called, are added at the end to make up the deficiency. On this day the Parsis rise early, and dress themselves in new suits of clothes, and those piously disposed say their prayers in their private residences, or attend the fire-temples, where a large congregation is gathered. After prayers the Parsis visit their friends and relations, when the "Hamma-i-jour" or "joining of hands" is performed. This ceremony is a sort of greeting, corresponding to the European fashion of wishing each other a happy new year. Their friends and relations are invited to breakfast. The morning being thus occupied they spend the rest of the day in their country houses or clubs, where feasting, rejoicing, and nautch-parties are kept up till a late hour. Alms are also given to the poor in the course of the day, and new suits of clothes are presented to their servants and dependants.—*Vide* 25th September.

KHORDAD-SAL.—The second of the Parsi festivals is the "Khordad-Sal" day, or the anniversary of the birth of their prophet Zoroaster, who was born in the city of Reche, in the north of Persia, in the reign of Darius Hystaspis, about 520 years before Christ, according to Greek writers. Heeren places the birth of this celebrated personage about 1200 years anterior to that ascribed by the Greek chronologists. The Parsis themselves differ as to the exact time of the birth of their prophet: a part of them fix the period at B. C. 589; others at B. C. 638. Religious ceremonies are performed in the morning by the women of the family and the priests, the men as usual on such occasions limiting themselves to private prayers.—*Vide* 30th Sept.

AMARDAD-SAL.—This holiday, which falls on the day immediately after the preceding festival, appears to have no origin in the books of the Parsis. It is merely kept up as the continuation of the "Khordad-Sal"; no religious ceremonies are required, and the day is always spent in the enjoyment of epicurean pleasures.

FURROHURDIN JUSSUN.—This day is set apart for the performance of ceremonies for the dead, Furrohur meaning soul or spirit. On this day the superstitious portion of the people in Bombay attend on the hills near Chowpatty, where there "dockhmas" or "towers of silence" are situated, and there perform prayers for the dead, as if they had a better chance of being heard at that place on behalf of their deceased relations than any other place of worship. This holiday is kept with some slight variations in other parts of India. The Parsis are enjoined by their religion to preserve the memory of their dead by annual religious ceremonies performed in the house; but such of their friends who die on long voyages or in unknown places, and the date of whose death cannot be positively ascertained, are, according to the forms of their religion, honoured by sacred rites on this day. This ceremony consists in a man or woman preparing small round pieces of baked bread, called darouns, which are put in a tray or other copper vessel, along with some fruits and flowers, over which the priest performs the prayers of the Baj, or Yaj, as it is called by M. Anquetil Du Perron in his work, the "Zend Avesta." According to the translation published by this learned Frenchman, the Baj is an invocation of the manes of the departed, and of such of the angels who have a direct control over the souls of the dead after their departure from this world. Prayers of this sort are still performed among the

Hindus and many sects of the Mahomedans, and are not unknown, we believe, in some of the Roman Catholic countries of Europe.—Vide 10th June.

ARDIBEHST-JASAN.—This festival, as its name implies, is maintained in honour of Ardibehst Amsaspund, the controlling angel over the sacred fire, that element being one of the symbols of worship. The fire-temples are crowded this day, and prayers offered to the Supreme Deity.—Vide 25th October.

The NOWROZ.—The fifth on our list is the celebrated Nowroz, called by some the Nowroz-i-Jamshid or the Nowroz-i-Sultan, the king's day. This celebrated festival falls generally on the 21st day of March, and is coeval with our Vernal Equinox, and the Mekh Saccaranti of the Hindus. This day is observed by the Modern Persians, the Arabs, the Turks, and several other Asiatic nations, for the computation of the solar year, and for state purposes, such as the collection of revenue, and the arrangements for the agricultural operations of the year. Eastern writers date the origin of this festival from the time of Jamshid, the third king of the Peshdadian dynasty of Persia, and our own Western writers are not disposed to doubt this statement. Jamshid is supposed to have flourished, according to Bailey, 3,209 years before Christ; the Shah Nameh celebrates him as the first prince of his race who introduced civilisation among mankind, and established the computation of time. If we are to believe the host of Persian writers, the exquisite bas reliefs at the ruins of Persepolis,—still visible in all their pristine beauty after a lapse of two thousand years,—are representations of the Court of Jamshid, more especially on the festival of the Nowroz. The sculptures at this remarkable place, indeed, contain representations of the Courts of ancient Persia, with their long train of attendants bringing in offerings to the feet of the Monarchs; and as the Nowroz is a sort of "revenue settlement" day, when the chiefs of different provinces lay their annual contributions before the throne, and are allowed audience with the monarch, the idea of a part of the Persepolitan bas-reliefs being a picture of some ancient king of Persia holding his Court on the day of the Nowroz, does not appear to be without a good foundation. In Persia this festival is kept for several days with unusual pomp by all the inhabitants, whether Mahomedans or Parsis. In India it is simply a day of rejoicing.—Vide 19th March.

AVA ARDUI SUR JASAN.—Ava, in the Zend text, is the name of the angel who presides over the sea, and this "Jasan" or festival is held in his honour. The Parsis are simply required on this day to approach the sea shore, or any stream of water, and chant the prayers which are writren in Zend; but, owing to their long residence in this country, they have borrowed many Hindu rites in the observance of this holiday, and offerings of sugar, cocoanuts, flowers, &c., to the sea, on this day, are not uncommon. The better informed portion of the community, however, do not join with their brethren in these superstitious acts. In Bombay a fair is held on the esplanade in honour of this festival.—Vide 2nd May.

ADDAR JASAN.—Addar, another synonyme for fire, is the name by which the ninth month of the Parsi year is called. This is the most religious of the twelve months, and the ninth day of that month is held in great respect and sanctity. On this day the Fire temples are very much crowded, and offerings of sandal-wood are made to the sacred flame, and money distributed among the priests.—Vide 31st May.

Besides the above, the festivals of the Parsis are the Meher Jasan, the Bomun Jasan, and a few others of less importance, all of which are partially observed.

The MOOKTADS is the name of a ceremony which is performed at the end of the Parsi year.—Vide 16th September. It consists of a pile of brass or silver vessels filled with water, and raised above the ground on iron stools. Flowers and fruits are placed there, and religious ceremonies in honour of the dead are performed before the Mooktads. A society for religious reform, which has been lately established among the Parsis, has denounced this ceremony in no respectful terms. According to the tracts published by these reformers, the Parsi scriptures only require that the last ten days of the year should be spent in deeds of charity, prayers, and freedom from worldly pursuits; they add further, that the ceremony of the brass and silver vessels, &c., is borrowed entirely from the Hindus.

Preamble.—Whereas it is expedient to make better provision for the appointment of Commissioners for the Conservancy and Improvement of the Town of Bombay, and for assessing and levying rates and taxes for Municipal purposes in the said Town; and

whereas it is also expedient to provide additional funds for improving the Drainage of the said Town, and for repaying the expense incurred by Government in the construction of works for supplying water to the said Town; It is enacted as follows:—

I. *Repeal of Laws*.—So much of the 158th Section of the Act of Parliament 33 Geo. III. Cap. 52 as remains in force; so much of Chapters II. IV. and VI. of Regulation XIX. 1827 of the Bombay Code as remains in force, except Section XIII. of Chapter II.; and so much of Act VII. of 1836 as relates to the repealed portions of those Chapters; Regulation XXXII. 1827 of the same Code; and Act XI. of 1845, are hereby repealed, except so far as they repeal any other Act, and except as to any assessment or tax which shall be unpaid, and as to any proceeding for the recovery of the same which shall have been commenced, before this Act comes into operation.

II. *Present Assessment to remain in force until revised*.—The assessment on houses, buildings, and grounds, made under the said Statute and the said Act XI. of 1845, shall, until revised and altered under the provisions of this Act, remain in full force and effect, and shall be levied and recovered as a rate payable under this Act.

III. *Act XXV. of 1856, incorporated.—Construction*.—Act XXV. of 1856, entitled "An Act to comprise in one Act the provisions necessary for the assessment and collection of Municipal rates and taxes in the Towns of Calcutta, Madras, and Bombay, and the several Stations of the Settlement of Prince of Wales' Island, Singapore, and Malacca," is incorporated with this Act. In construing the said Act, the expression "the special Act" shall mean this Act; the expression "the Commissioners" shall mean the Municipal Commissioners constituted by this Act; and the expression "the local Government" shall mean the Governor of Bombay in Council.

IV. *Number, appointment, and election of Commissioners*.—There shall be three Commissioners for the purposes of this Act, and for the conservancy and improvement of the Town of Bombay under Act XIV. of 1856. Provided that, in respect of any work, for the execution of which the consent or sanction of the local Government is necessary under any of the said Acts, and in respect of the regulation of the salaries of Officers appointed under any of the said Acts, the Commissioners shall, before making application to Government, submit a plan of the work, or a schedule of the salaries, for the approval of the Justices. When any such plan or schedule is disapproved by the Justices, the Commissioners, if they see fit, may refer the matter for the decision of the Governor in Council.

X. *Rate on Houses and Lands*.—An annual rate of five per centum of the annual value shall be imposed upon houses, buildings, and lands in the said Town, and shall be payable by the owners thereof in quarterly instalments. Provided that it shall be lawful for the Governor in Council, on the representation of the Justices, to fix, from time to time, in lieu of the said annual rate of five per centum, any higher annual rate not exceeding seven and a half per centum. XIV. *Remission on account of Vacant Houses.*—When any house shall have been vacant for sixty consecutive days during any year, the Commissioners shall remit so much of the rate for that year as may be proportionate to the number of days the said house may have remained unoccupied; provided that the owner of such house, or his agent, shall have given notice in writing of the vacancy thereof to the Commissioners, and that the amount of rate to be remitted shall be calculated from the date of the delivery of such notice.

XV. *Tax on Vehicles and Animals.*—A tax shall be imposed on all carriages, carts, hackeries, horses, ponies, and mules kept within the said Town, and upon all carts and hackeries plying for hire within the said Town, or let for hire and used within the said Town, and kept at any place beyond the limits thereof, at the following rates; and shall be payable quarterly by the owners or persons having charge of the same:—

XXIX. *Contribution to the Annual Expenses of the Police.*—From and out of the

Furlough and Absentee Rules.

MILITARY FURLOUGH REGULATIONS.

G. G. O. No. 775, of 6th December 1854.—The Right Honorable the Governor in Council is pleased to republish the following General Order by the Most Noble the Governor General of India in Council, No. 1150, dated Fort William, 17th November 1854:—

"The Honorable the Court of Directors having transmitted to the Government of India further explanatory instructions regarding the Furlough Regulations published in Government General Order No. 110, of the 1st of February 1854, the Most Noble the Governor General in Council is pleased to cancel that General Order, and to promulgate in a connected form the Rules which have been laid down by the Honorable Court for regulating Furloughs and Leaves of Absence.

"With the view of adapting the Regulations to the present increased facilities of communication, and to correct, as far as possible, any tendency in them to deter Officers from resorting to the places which may be most conducive to the restoration of their health, when a change of climate is required for that purpose, the following Rules are established, and are to have effect from the 1st February 1854:—

"**1.** All Regimental Officers in the Service on the 1st February 1854, who prefer retaining what may be considered the advantages of the Old Regulations, may do so provided they signify their wish to that effect when they next apply for Furlough or leave of absence, without any limitation, whether such leave be in India or elsewhere; and Officers who once make their election will not be entitled to any other choice, but will be afterwards subject to the New or Old Regulations, according to their decisions.

G. O. C. 10th April 1855.—With reference to G. O. C. No. 1, of the 15th March 1854, and to Rule 1 of the revised New Furlough Regulations, the Commander-in-Chief is pleased to notify, under instructions from Government, that Officers who entered the Service previously to the 1st February 1854 are required to make their election between the New and Old Furlough Regulations on the first occasion of their applying for any leave of absence which has to be announced in General Orders, whether such leave may be to places in or beyond India, and whether on private affairs or sick certificate.

Officers commanding Divisions and Forces will accordingly be careful, before transmitting to Army Head Quarters applications for leave from Officers to whom the above decision applies, to see that each applicant's election between the New and Old Rules is therein duly declared.

G. G. O. No. 370, of 2nd May 1855.—The following extract, paragraph 6 of a Despatch from the Honorable the Court of Directors, dated 20th March last, No. 22, is published for general information:—

"6. With reference to the modifications made in the New Furlough Regulations, we have determined that all Officers who quitted India on leave of absence previous to the announcement of such modifications, and subsequent to the promulgation of the New Rules, shall be allowed to reconsider their decision."

"**2.** Staff Officers, as such, have not the above option allowed them, but they may retain the advantages of the Old Regulations by giving up their appointments, which in such cases will be considered vacated from the date of embarkation.

G. G. O. No. 804, of 25th October 1855.—The Right Honorable the Governor in Council is pleased to republish the following General Order by the Honorable the President of the Council of India in Council, dated Fort William, 4th September 1855, No. 904:—

"The following paragraph of a Military letter from the Honorable the Court of

Directors to the Government of India, No. 84, dated 27th June 1855, is published for general information :—

"'*Letter dated 5th April 1855, No. 82.*

"'Submit the question whether, as Officers are on their first application for leave of absence on Furlough to declare whether they will abide by the Old or accept the New Furlough Rules, Staff Officers who apply for leave to the Hills, or elsewhere in India, are to vacate their offices like those who take leave to the Cape or elsewhere beyond sea. Government observe that if this were so the rule would have the effect of debarring such Officers from all leave, however short, in excess of the privileged leave of one month in six.'"

"'Staff Officers applying for leave in India are not required, by the New Furlough Rules, to vacate their Staff appointments. We therefore approve and confirm the view you have taken of this question.'"

"**3.** To those Officers who adopt them, the New Regulations will apply retrospectively in respect of Furlough and leave of absence beyond sea, and in computing their time of service for retirement; so that their Furlough or leaves of absence, whether under the Old or the New Rules, and whether on private affairs or sick certificate, within or beyond India, will count for service to the authorised extent only in computing the time for retirement on Full Pay.

G. G. O. No. 415, of 5th May 1856.—Extract from a Military letter from the Honorable the Court of Directors to the Government of India, No. 177, dated the 19th December 1855 :—

"Para 2. Under the New Rules, Officers absent from duty are allowed to count, to a prescribed extent, time of absence as service for the Pension on Full Pay, whether the time has been passed in Europe, or at the Cape, or at the Sanatorial Hills, or elsewhere; and in order that Officers then in the service might have the *immediate* advantage of this Rule, they are by Rule No. 3 allowed its benefits retrospectively as well as prospectively. Thus, Officers who previously could not count any portion of the time spent in Europe as service for the Pension, are enabled to do so, and they claim, in consequence, a rate of Pension which could not otherwise have been claimed in some instances until after two, three, or four years of additional service. Of those who have retired on Full Pay since the Rules were established, a considerable proportion have claimed and received this advantage.

Letter from the Governor General, dated 28th September 1855.

A memorial transmitted from Lieutenant William Williamson, 41st N. I., praying—1*st*, That Rule 3 of the New Furlough Regulations may be cancelled; and 2*nd*, that leave in India, on medical certificate, or on any urgent private affairs, may be allowed to reckon as service, as was and is still the case under the Old Rules.

3. On the other hand, Officers who had spent such lengthened periods at the Cape of Good Hope, or elsewhere within Indian limits, as exceed the privileged time allowed by the New Rules, have to consider whether it will be for their advantage to adhere to the Old Rules, and in many instances have determined to do so in virtue of the option allowed to them.

4. If Rule 3 were to be abolished, as now proposed by your Government, the effect would be that Officers adopting the New Rules, who had taken their leaves of absence at the Cape, and elsewhere within Indian limits with the enjoyment of Indian Allowances, would count all that time for the Pension; whilst those who had taken their furlough to Europe with Regimental Pay only would be deprived of any such advantage.

5. We cannot admit that this change would be satisfactory, neither can we approve of still further increasing the privileged time of absence by adding to it all leaves of absence in India. We must therefore decline to comply with the prayer of Lieutenant Williamson's memorial."

"**4.** Officers who have availed themselves of the option of the Old Rules are allowed to reconsider the question under the modifications now sanctioned.

"**5.** Officers who have not taken leave subsequent to the publication of the New Rules on the 1st February 1854, and who consequently may not have been called upon to declare whether they would abide by the Old or the New Regulations, will, on retirement from the Service, be entitled to take full advantage of the privileges given by the New Regulations.

G. G. O. No. 662, of 28th August 1856.—All Unattached Officers are entitled to the benefit of the New Furlough Regulations from the date of their first Commissions.

"FURLOUGHS ON PRIVATE AFFAIRS.

"**6.** Every Officer will be allowed a Furlough to Europe, or elsewhere beyond sea, for a period of two years at the expiration of ten years' service, and for a second period of two years after twenty years' service in India. (See various Orders following Rules 7 and 20.)

"**7.** The second Furlough of two years will only be granted after ten years' service in India from the date of the return to duty after the first Furlough of two years. These Furloughs are not to be cumulative under any circumstances, but are limited to two years. Officers who have taken leave of absence on sick certificate to Europe, or elsewhere beyond sea, will be ineligible to a Furlough on private affairs until they have served six years from their last return to duty. This Rule does not apply to short leaves to sea. (See Orders following Rules 20 and 21.)

G. O. C. 3rd July 1855.—With reference to Rules 6 and 7 of the revised New Furlough Regulations, the Commander-in Chief is pleased to notify, that under a decision passed by the Government of India, Officers who may have availed themselves previously to the 1st February 1854 of Furlough to Europe, on private affairs, *with Pay*, after ten years' service in India, will, in event of their adopting the New Furlough Rules, be entitled, after completing ten years' additional service, to a second Furlough, *with Pay*, under the provisions of Rule 7, for two years, deducting therefrom such period in excess of two years as they may have been previously absent on Furlough *with Pay*.

G. O. C. 23rd August 1855.—With the sanction of the Right Honorable the Governor in Council, the following decisions of the Government of India, on points connected with the revised New Furlough Rules, are published to the Army :—

Question.	*Decision.*
"Are the periods of ten and twenty years' 'service in India,' which will entitle Officers, under the New Furlough Rules, to Furloughs on private affairs to Europe, or elsewhere beyond sea, with Pay, to be understood to include all leaves of absence *in India*; or are all such leaves (excepting only the privileged leave of one month in six) to be reckoned against service towards Furloughs on private affairs with Pay ?"	"The ten years' service in India, after which an Officer is entitled to a Furlough, is understood to include all leaves *in* India. The second Furlough of two years is only granted after ten years' service in India from the date of return to duty after the first Furlough of two years. "All leaves *in* India are counted as service, except for Retiring Pension, for which only a portion of an Officer's total leave in and out of India can be so reckoned."

G. G. O. No. 560, of 10th July 1856.—The Honorable the Court of Directors, in their letter No. 56, of the 25th April 1856, have communicated the following decision regarding Nos. 6 and 7 of the New Furlough Rules published in Government General Order No. 1150, dated the 17th November 1854 :—

"Officers who take their first Furlough after twenty years' service in India, may take their second Furlough after an additional service of five years from the date of their last return to duty."

"**8.** All grants of Furlough on private affairs are subject to the exigencies of the Public Service, and to the Regulations framed for the preservation of the efficiency of each Regiment, by limiting the number of absentees.

G. G. O. No. 364, of 15th April 1857.—Under the authority of the Honorable the Court of Directors, the Right Honorable the Governor General in Council is pleased to extend to Officers generally, at the three Presidencies, the privilege granted to Officers at Mooltan and Peshawur, of being allowed, when the demands of the Service will permit, temporary leave, without pecuniary loss, or loss of service, for sixty days consecutively in the course of each year, or of thirty days consecutively in each half year, as may be preferred by them.

"**9.** Officers holding Staff or other detached appointments may be allowed Furlough for a period of six months, without losing their appointments; but during that period they will not be entitled to any portion of their Staff Salary, which will be drawn in full by the Officers officiating for them.

G. O. C. 23rd January 1855.—The Honorable Court of Directors have been pleased to decide that Rule 9 of the revised New Furlough Regulations is not applicable to Officers proceeding on Furlough to Europe, or elsewhere beyond sea, whose service in India may fall short of the periods specified in Rules 6 and 7, and that

Furloughs can be granted to such Officers only under the special provisions of Article 75, Section XXVI. page 877, of Jameson's Code, which is to be considered as still in force.

G. G. O. No. 342, of 11th April 1856.—Letter from the Honorable the Court of Directors to the Government of India, No. 8, dated 23rd January 1856 :—

Letter No. 213, dated 29th September 1855. Government forward correspondence relative to certain questions connected with the New Furlough Regulations, and request to be informed as to claims of an Officer to the residue of his furlough on private affairs when he has been already absent on leave to England on private affairs for six months.

Para. 8. "We have to state, in reply to your inquiry, that an Officer proceeding on leave to England for six months, retaining his appointment or otherwise, is not to be considered as having taken his authorised furlough after ten or twenty years as the case may be, but may, with your permission, be allowed at any time to take the remainder of the two years authorised furlough on private affairs."

G. G. O. No. 560, of 10th July 1856.—The Honorable the Court of Directors, in their letter No. 56, of the 25th April 1856, have communicated the following decision regarding No. 9 of the New Furlough Rules published in Government General Order No. 1150, dated the 17th November 1854 :—

"Absence for six months, under this Rule, does not preclude an Officer from taking his furlough to Europe after ten years' service."

"**10.** All Officers, whether Staff or Regimental, while on Furlough on private affairs, will be entitled to Furlough Pay only.

"LEAVE OF ABSENCE ON SICK CERTIFICATE.

"**11.** Leave of absence on sick certificate will be granted for a term not exceeding eighteen months, whether it be to any place in Europe, or elsewhere out of India.

"**12.** Extensions of such leave may be granted, as at present, on production of medical certificates, for further periods not exceeding eighteen months in the whole.

"**13.** An Officer holding a Staff or other detached appointment will be allowed to be absent on sick certificate in England, or elsewhere beyond sea, for a period of fifteen months, without losing his appointment; and during the first six months only of such absence he will be entitled to draw half the Staff Salary of his appointment, the Officer officiating for him drawing the remaining half Salary during the first six months, and the whole Salary during the remainder of the time.

"**14.** An Officer's claim to half Staff Salary for six months, as sanctioned in the preceding Rule, will not be affected by his subsequently retiring from the Service, in Europe or elsewhere.

G. G. O. No 395, of 28th April 1856.—Under instructions from the Honorable the Court of Directors, the Right Honorable the Governor General in Council is pleased to publish the following Notification :—

"The grant of leave of absence to Staff Officers on medical certificate, with half Staff Allowances for six months, and with the privilege of returning to their offices if their absence from India be not prolonged beyond fifteen months, is bestowed by the Honorable Court in order to enable such Officers to regain their health, and in the expectation that they will be thereby qualified to render additional service to the Government. But if leave of absence be taken merely to run out a prescribed period of service, and without any intention of returning to duty, the principle on which the rule is founded is infringed, and the indulgence of the Honorable Court is abused. Wherefore the Right Honorable the Governor General in Council hereby notifies for general information, that if there be an avowed intention on the part of an Officer not to return to duty, or if the Government have valid grounds for concluding that the Officer has no intention to return to duty, the indulgence of leave on sick certificate, retaining office, will not be granted in future."

"**15.** No portion of Command Allowance, Medical Staff Salary, or other similar allowance, which under the Old Rules was inadmissible to Officers absent from their Corps or Stations, at the Cape or elsewhere, will be allowed to absent Officers under these Regulations.

"**16.** All Officers, whether Staff or Regimental, while on leave of absence on sick certificate, will be entitled for a period of six months to the same rate of Indian Pay and Allowances as was allowed under the Old Regulations to Officers proceeding to the Cape on medical certificate, and for the remaining period of their leave they will receive Furlough Pay only.

"**17.** If the leave on sick certificate be extended, Furlough Pay will be continued, but under no circumstances for a longer period than three years altogether from the commencement of the absence.

"STAFF OFFICERS.

"**18.** The term 'Staff Officers' applies to all Officers holding Staff or detached appointments, Military (General or Regimental), Political, or Civil; also to General Officers commanding Divisions, Members of the Medical Board, Superintending Surgeons, and others who under the Old Rules were entitled to draw half Staff Allowance when absent at the Cape. (See G. G. O. No. 111, of 30th January 1856, following Rule 31.)

"**19.** Staff Officers absent on leave beyond the periods stated in Rules 9 and 13, respectively, cannot retain their appointments and allowances, except on special grounds, to be sanctioned by the Government of the Presidency. Any such special grant of leave is to be reported at once to the Honorable the Court of Directors, with the reasons for it, and to be subject to their approbation.

"**20.** The privilege of retaining Staff appointments during leave of absence on sick certificate, or on Furlough on private affairs, will not be available a second time, if the fresh leave is on sick certificate, until an Officer has been three years, or if on private affairs until he has been six years, in the discharge of the duties of his appointment, from the date of last return to it.

G. O. C. 27th August 1855.—With the sanction of Government the following decision of the Government of India is published to the Army:—

"Under the New Furlough Rules, Furlough granted without Pay or other privileges, does not bar privileged leave hereafter."

"**21.** This Rule, however (No. 20), does not apply to leaves of absence, whether on sick certificate or on private affairs, in India, or for brief periods to Ceylon, the Mauritius, or other places out of India.

G. O. C. 12th July 1856.—The Government of India has fixed three months as the maximum period which is to be understood by the terms "short leaves" and "leaves for brief periods" used in Rules 7 and 21 of the New Furlough Regulations.

"**22.** Officers commanding Troops of Horse Artillery and Light Field Batteries, and Officers generally in employment, will be allowed leave out of India, under the same Rules with respect to allowances and tenure of command or office as regulated the grant of leave to the Cape to such Officers under the Old Regulations, except as to the duration of those advantages, the time for their continuance being subject to the provisions of the New Regulations.

"DATE OF FURLOUGH, AND ADVANCES OF PAY.

"**23.** The period of Furlough on private affairs, or leave of absence on sick certificate, is to be calculated from the date of the departure from India of the ship in which the Officer proceeds.

"**24.** Advances of Pay and Allowances, Staff and Regimental, to Officers proceeding on leave of absence on sick certificate, who may be entitled to them, will be made in India for three months from date of embarkation. Payments in continuation will be made in England at the rates of exchange fixed annually for repayment of advances made on account of Her Majesty's Government. Furlough Pay will continue to be issued in advance for six months when required by Officers obtaining Furlough on private affairs.

G. G. O. No. 193, of 27th February 1856.—The Right Honorable the Governor in Council is pleased to notify to the Army, that it has been decided by the Government of India that every Officer proceeding to a British Colony within Indian limits, is entitled to the advance of pay authorised in the first Clause of Rule 24 of the New Furlough Regulations, but that such Officer shall be required to appoint an agent in India to draw the arrears which may accrue to him during furlough on either sick certificate or private affairs; if such an agent be not appointed, payment of the arrears shall be postponed till the return of the Officer to India; and every agent shall be required to give a sufficient guarantee for the refund of any payment that may fail to be recovered.

"**25.** The existing Regulations regarding Passage Money to Officers are not affected by these Rules.

"**26.** The certificates issued to Officers who are granted Furloughs on private affairs, or leave of absence on sick certificate, are to specify the time each Officer has been absent on leave within Indian limits, as well as the time of his previous absence in Europe, but will not include the periods allowed for proceeding to the Presidency or port of embarkation, and to enable Officers to rejoin their Regiments or Stations after their return to India, nor the leave of one month's absence in six months as authorised by the Regulations. The last Pay Certificate of all Officers proceeding to England on sick certificate is to specify the rate of Regimental Pay and Allowances and Staff Salary to which they would have been entitled under the Old Regulations if proceeding to sea on medical certificate. This information is necessary, in order that no difficulty may arise in the Pay Department of the India House in adjusting the several payments which may be due. (See various Orders following Rule 31.)

G. O. C. 27th April 1855.—With the sanction of the Right Honorable the Governor in Council, the following decisions of the Government of India, on points connected with the revised New Furlough Rules, are published to the Army :—

Question.

"Is it only such leave (not exceeding thirty days in six months) as may be granted under the *special* Regulation contained in G. O. G. G. I. No 341, dated the 20th March 1851, that is to be allowed to count as service ; or will Officers who may be absent from their Stations, on leave granted to them under the *ordinary* Regulations, 'for short periods to sea,' or for from one day to six months, between the 1st January and 1st July, and *vice versâ*, whether on private affairs or sick certificate, be entitled to have a period not exceeding thirty days of such leave counted as service ?"

Decision.

"Any short leaves are not to reckon against an Officer's length of service, but all leaves announced in General Orders, which in the aggregate exceed the periods laid down in paragraphs 32 to 36 of the Government General Order* No. 1150, of the 17th November last, count against service, and no deduction can be made from such leave, except for the period allowed an Officer preparatory to embarkation, and to enable him to rejoin his Corps or Station on his return to India."

* Bombay G. G. O. No. 775, 6th Dec. 1854.

"An Officer who has obtained leave for six months, or any other period *in General Orders*, is not allowed to deduct the thirty days' privileged leave which he might have taken without its being announced in General Orders. In such a case, the whole period announced in General Orders reckons against his service."

G. O. C. 17th September 1855.—With the sanction of Government, the following decision of the Government of India, having reference to Rule 26 of the New Furlough Regulations, is published to the Army :—

"Short leaves on private affairs for periods not exceeding thirty days, which have been granted to Officers in General Orders previously to 6th December 1854, are to be counted as privileged, provided they do not exceed an aggregate of thirty days in each half year."

G. G. O. No. 857, of 12th November 1855.—With reference to the Regulations noted in the margin, the Right Honorable the Governor in Council is pleased to declare the following rule, obtaining under the Bengal Presidency, to be applicable to this Presidency also, from this date :—

Art. 16, Clauses 1 to 4, Sect. XIV. Jameson's Code.
Arts. 216 to 219, Sect. XXVI. 1st Appendix Jameson's Code.
Arts. 124 to 126, Sect. XXXIII. Jameson's Code, page 938.

"The thirty days privileged leave is to be calculated so as to include the day of return as one of leave, *i. e.*, if leave be granted on the 15th July, the Officer must rejoin on the 13th of August."

"OFFICERS OF HER MAJESTY'S SERVICE.

"**27.** Officers of Her Majesty's Service in India, whether employed Regimentally, or in Staff or detached situations, are entitled to the advantages above laid down in respect to allowances and tenure of office when on Furlough or leave of absence.

"**28.** In the case of officers of Her Majesty's Service on Furlough or sick certificate, in England or elsewhere, who may retire or exchange into Regiments not on the

Indian Establishment, the grant to these Officers of Indian Allowances will cease from the date of their retirement or exchange, if it take place before the expiration of six months from the date of quitting India.

"PERIODS OF ABSENCE ALLOWED TO BE COUNTED AS SERVICE FOR RETIRING PENSIONS.

"**29.** In order that all Officers quitting India, on Furlough or sick certificate, may be placed on an exact equality as regards loss of time, the period allowed by Regulation for proceeding to the Presidency or to the nearest port of embarkation, as well as the time to enable Officers to rejoin their Corps or Stations after their return to India, will be considered as time counting for service for the Retiring Pension. (See various Orders following Rule 31.)

G. O. C. 31st May 1855.—Under instructions from Government, the following table, showing the number of Travelling Days allowed to Officers proceeding unaccompanied by Troops, between Bombay and the different Outstations, is published for general information and guidance, in supersession of that contained in Arts. 160 and 161, Section VI. 2nd Appendix to Jameson's Code.

Officers proceeding to England, or elsewhere beyond India, on Furlough or medical certificate, under the New Furlough Regulations, will be entitled, under Rule 29, to count as service the number of travelling days now authorised, according to port and season.

The distances in the "fair season" are entirely by land, or partly by land and partly by water, whichever is the most expeditious. Both by sea and river the passage is estimated by "country boat," and the month in which the longest passages occur has been taken as the standard for the average length of passage.

The "fair season," as regards sea or river passage from, to, and in Scinde, is estimated to commence on the 15th October and end on the 15th April.

The "fair season," as regards all other water passages, lasts from the 15th of October to the 15th of May.

When the distance is entirely by land, ten miles per diem is allowed, without halts, by the nearest marching route.

G. O. C. 23rd June 1855.—With reference to the New Furlough Regulations, the Commander-in-Chief is pleased to direct that in future, Officers, not above the Regimental rank of Captain, who may return from Furlough or leave of absence *beyond Presidency limits* during the monsoon, or who, being on sick leave within Presidency limits, may be reported fit for duty during that season, viz. between the 1st June and 1st October, shall be permitted, in the event of their own Corps being too distant to admit of their at once rejoining, to do duty until the latter date with Regiments at the Presidency, or other Stations at or near which they may be at the time, unless they should obtain leave of absence in extension on private affairs.

Officers belonging to Regiments at Neemuch, who may be circumstanced as above, will remain attached to other Corps until the 15th December.

G. G. O. No. 235, of 8th March 1856.—The Right Honorable the Governor in Council is pleased to announce that the following Rule will be observed in calculating the periods of Officers' absence on furlough in or beyond India :—

As respects Furlough in India, the day of departure from a Regiment or appointment is one of leave, and the day of return thereto is one of duty.

As respects Furlough beyond India, the date of final departure from India, viz. that on which the vessel conveying the Officer from India puts out to sea, is reckoned as one of Furlough, and the day on which he returns to his Presidency as one of duty.

G. G. O. No. 120, of 28th January 1857.—Under instructions from the Government of India, the Right Honorable the Governor in Council is pleased to direct that the rule promulgated in G. G. O. No. 235, dated 8th March 1856, regarding absence on Furlough, shall be held applicable to privileged leave.

"**30.** No Furlough or leave of absence, as announced in General Orders, exceeding two years in twenty years' aggregate service, three years in twenty five years' service, and four years in thirty years' service, shall be allowed to count as service for the Retiring Pension; and no difference will be made in this respect between leave of Absence taken in Europe or elsewhere, in or out of India, or whether the leave be on sick certificate or on private affairs. (See various Orders following Rule 31.)

G. G. O. No. 183, of 25th February 1856.—The Right Honorable the Governor in Council is pleased, with the sanction of the Government of India, to declare that the period during which Officers may have been, or may hereafter, be absent on leave for the purpose of accompanying Insane or Sick Officers, is allowed to reckon as service for Pension under the New Furlough Rules, to the extent of the regulated travelling days.

G. G. O. No. 278, of 18th March 1856.—The Right Honorable the Governor in Council is pleased, with the sanction of the Government of India, to declare that Officers returning from Furlough to Europe, and intending to adopt the Overland Route, who may be ordered to do duty with Recruits proceeding to India viâ the Cape of Good Hope, shall reckon service for Pension under the New Furlough Regulations from the date of arrival at their respective Presidencies of the Overland Mail Steamers on which they would otherwise have proceeded.

"**31.** In the term 'leave of absence as announced in General Orders' is to be included all leave of absence except the period allowed in Rule 29, and the ordinary indulgence of one month's leave in six months, as authorised by the existing Regulations, and which are in all cases, whether of Regimental or Staff Officers, to be allowed to count as service for Pension. All leave to a greater extent, granted by Political and other Authorities, which may not hitherto have been published in General Orders, must be so announced hereafter.

G. O. C. 29th May 1855.—With reference to Rules 26 and 31 of the New Furlough Regulations, and to G. O. C. No. 1, dated 26th ultimo, the Commander-in-Chief is pleased to establish the following Rules, in supersession of existing Orders, with respect to the grant by Officers commanding Regiments, Stations, and Divisions or Forces, of leave of absence on *private affairs* to Officers (Staff and Regimental) serving under their respective commands.

I. The periods for which leave may be granted are limited as follows:—

By Officers commanding Regiments, subject to the control of Officers commanding Stations:

For periods not exceeding three days in the calendar month (between musters), *within the Division or District*, and limited to an aggregate of ten days in six months, between the 1st January and 1st July, and *vice versâ*.

By Officers commanding Stations, subject to the control of Officers commanding Divisions or Forces:

For periods not exceeding ten days in the calendar month (between musters), *within the Division or District*, and limited to an aggregate of twenty days in six months, between the 1st January and 1st July, and *vice versâ*, exclusive of leave granted by Officers commanding Regiments.

By Officers commanding Divisions or Forces:

To the extent of thirty days in six months, between the 1st January and 1st July, and *vice versâ* (irrespective of musters), *within or beyond the limits of the Division or District*, and *exclusive* of leaves granted by Officers commanding Regiments and Stations.

II. All leave which may involve absence from the Station for one or more nights, must be sanctioned in public Orders.

III. The period of leave specified in public Orders is to be understood as including the whole period of an Officer's absence from his Corps or Station, except when expressly sanctioned in extension of leave previously granted.

IV. Commanding Officers are strictly prohibited from granting leave of absence in extension of the periods for which leave may have been sanctioned by any authority superior to their own.

V. In every application for leave of absence, the total period of leave previously enjoyed since the 1st January or 1st July is to be specified.

VI. When leave beyond the limits of the Division or District may be granted by Officers commanding Divisions or Forces, the place to which it is granted must be specified in the Order, except when sanctioned under the special provisions of G. G. O. No. 211, dated 14th April 1851 (Jameson's Code, Arts. 216 to 219, Section XXVI).

VII. Leave of absence under the provisions of the G. G. O. quoted in the preceding paragraph can be sanctioned in those cases only in which Officers shall declare their *bonâ fide* intention to rejoin their Stations at the expiration of the leave applied for.

VIII. Officers commanding Stations may grant permission to Officers to proceed to places beyond the limits of the Division or District, in anticipation of the sanction of Officers commanding Divisions or Forces, in cases of pressing emergency, to be specially reported.

IX. Officers commanding Regiments, Stations, and Divisions or Forces, who may desire leave of absence, must await the sanction of the next superior authority before quitting their commands, except in cases of pressing emergency, which must be specially reported.

X. Medical Officers must obtain the sanction of the Superintending Surgeon before submitting applications for leave of absence from their Stations for any period exceeding three days.

XI. All Officers are required to provide themselves with copies of the Orders granting them leave of absence, and in reporting their arrival at any Military Station they are to specify the periods for which they may have obtained leave.

XII. It is to be distinctly understood, that with the exception of the short leaves within Divisions or Districts, which Officers commanding Regiments and Stations are above empowered to grant, no leave of absence on private affairs in excess of thirty days in six months can be sanctioned under any authority but that of the Commander-in-Chief or Government, duly announced in General Orders.

G. O. C. 22nd June 1855.—It being required by the New Furlough Regulations that all leaves of absence on *medical certificate*, whether within or beyond India, and for whatever period, shall be announced in General Orders, the Commander-in-Chief calls the attention of Officers commanding Divisions or Forces, and Stations, to those Regulations, and directs that extracts of all Orders granting Officers leave of absence from their respective Stations, *on medical certificate*, be duly transmitted on the day of issue to Army Head Quarters, for publication in General Orders. When the medical certificate sets forth that the Officer is necessary for the purpose of obtaining a final leave applied for by any place *out of India*, the purpose is to be specified in the Order, in view to the regulated travelling days being credited to the Officer in the Register of Furloughs.

G. G. O. No. 643, of 20th August 1855.—The Right Honorable the Governor in Council is pleased to direct that every Officer proceeding on leave be required to certify the dates of his departure from and return to his Station, and that in every application preferred for leave *on private affairs* within Presidency limits, the applicant be required to specify the total period of such leave previously enjoyed since 1st January or 1st July immediately preceding.

G O. C. 5th September 1855.—Consequently on the New Furlough Regulations, a Register of all Furloughs and leaves of absence *in* and *beyond* India, granted to Officers in General Orders, between the 1st January 1818 and the present time, has been prepared at the Adjutant General's Office at the Presidency, where every Officer will be at liberty in future to see and take a copy of his own registered leaves of absence, or to depute any other person, by a letter to the Assistant Adjutant General in charge of the Bombay Office, to do so for him. As there are probably many cases in which Officers may not have availed themselves of the full periods of the leaves in India sanctioned in General Orders in past years, the unexpired portions (not already cancelled) of all such leaves will be credited to them, and the Register corrected accordingly upon Officers furnishing certificates from Regimental or Station Staff Officers, or (should the existing official records not afford the information) certificates upon honour, under their own signatures, of the dates on which they actually quitted and rejoined their respective Corps or Stations; provided the certificates be received at the Adjutant General's Office at Bombay within six months from this date, if the Officer be now *in India*, and if absent *beyond India*, within six months from the date of his return.

As every Officer will be able, under the provisions of this Order, at all times to inform himself regarding the total period of his service in India counting for Pension, the Adjutant General's Department is entirely exempted from hereafter furnishing certificates of service to individual Officers.

Officers will address their communications on the subject of this Order to the Assistant Adjutant General at the Presidency, postage paid.

G. O. C. 22nd September 1855.—With a view to obviate the necessity for cancelling in General Orders the portions of leaves of absence, *within Presidency limits*, granted in General Orders to Officers under the New Furlough Regulations, of which they may not have availed themselves, the Commander-in-Chief is pleased to notify, under the authority of Government, that all Officers will have such portions of their leaves credited to them in the Furlough Register in the Adjutant General's Office, provided they report by letter to the Assistant Adjutant General at the Presidency, within one month from the expiry of the leave, the precise dates of their quitting and rejoining their respective Corps and Stations; and that failing such reports, the whole period of leave published in General Orders will be debited against their service for Pension.

All Officers (howsoever employed) will transmit the above reports *direct* to the address of the Officer in charge of the Adjutant General's Department at the Presidency, postage paid. The reports of Officers serving Regimentally must bear the counter-signatures of the Officers commanding their respective Corps.

G. O. C. 16th October 1855.—Under the authority of Government, the following Rules, sanctioned by the Government of India, are published to the Army, with reference to the New Furlough Regulations:—

"I. All Officers proceeding on or returning from Furlough, or leave of absence 'beyond sea,' will be entitled to one month's preparatory leave at the ports of embarkation and debarkation, in addition to the regulated travelling days, and to count the same as service for Pension, provided they quit their respective Corps or Stations with the avowed intention of applying for leave to sea, or beyond the limits of the Presidency, and provided they proceed direct to the ports of embarkation.

"II. Officers who may be placed on Court Martial or other duty by order of the Commander-in-Chief or Government, while on leave of absence on private affairs, will be allowed to count as service for Pension the periods during which they may be so employed.

"III. Leave to the following extent may be granted to Officers to proceed to the Presidency on duty, for the purpose of being examined in the Native languages before the General Examination Committee, and will reckon as service for Pension, viz:—

"The regulated travelling days; one month for preparatory study at Bombay; and the actual period of detention in attendance on the Committee.

"IV. Officers permitted to attend the Central School at Poona for instruction in

Military attainments, will be considered 'on duty,' and will be entitled to count as service for Pension the regulated travelling days, and six months in addition for residence at Poona.

"V. Officers permitted to proceed to Stations at which Mounted Corps are located, for the purpose of going through the prescribed 'Infantry Course' of Equitation Drill, will be considered 'on duty,' and will be entitled to count as service for Pension the regulated travelling days, and two months in addition for residence at the Station."

G. O. C. 5th December 1855.—With reference to G. G. O. No. 857, dated the 12th ultimo, the Right Honorable the Governor in Council has been pleased to decide, that in all cases of leaves of absence on private affairs, which have been granted in General Orders previously to the date of the Order above quoted, for "one month" (whether taken between or irrespective of musters), and in which the leaves may be shown to have been granted as "privileged," the Officers shall be held entitled to reckon thirty days of such leaves for Pension, notwithstanding that they may have been actually absent from their Stations for thirty-one or thirty-two days, the day of return included.

The Right Honorable the Governor in Council has been pleased to decide that all leaves of absence on private affairs, within Presidency limits, which have been or may hereafter be granted to Officers on their return from Furlough or leave beyond sea, or on being relieved from Staff or other detached duty, in consideration of their being prevented by the Rules contained in Articles 31, 86, and 87, Section XXXII. Jameson's Code, from at once proceeding to join their Stations in Scinde or Rajpootana, shall reckon as service for Pension under the New Furlough Regulations.

When practicable, Officers so circumstanced will in future be employed on duty, or attached to some Corps, until the season shall admit of their joining their respective Stations.

G. G. O. No. 111, of 30th January 1856.—Referring to that part of the General Order by the Governor General of India of the 17th November 1854, which regulates the period of absence to be counted as service for the retiring Pensions of Officers of the Army, the Right Honorable the Governor in Council is pleased to prescribe the following Rules regarding the notification of leave of absence granted to Officers of the Staff, with a view to the maintenance of an accurate Register in the Office of the Adjutant General, and in order that all Officers quitting India may be placed on an exact equality as regards loss of time counting as service.

The term Staff, as declared in the 18th paragraph of the above General Order, applies, for the purposes of these Regulations, to all Officers holding Staff or detached appointments, Military, Political, or Civil.

The following Rules are intended to apply only to Officers serving immediately under Government, or in offices or Departments not immediately subordinate to Army Head Quarters. For Regimental and other Officers, serving directly under the orders of the Commander-in-Chief, His Excellency will be pleased to lay down such rules as may appear to be most appropriate and convenient for the required object:—

1*st*.—All leave of every description, privileged or unprivileged, which is granted by Government, is to be notified in the Military General Orders.

2*nd*.—Every Order granting leave of absence is to express the date from which it is to commence, and the date to which it is to extend.

3*rd*.—Officers who have not availed themselves of the full period of leave granted to them, are authorised to notify the circumstance with full particulars to the Adjutant General's Office at the Presidency by letter (postage paid), within one month from the expiration of the leave, and such correction as is proper will then be made in the Furlough Register; failing such Notification, the entire period of leave published in General Orders will be debited against their service for Pension.

4*th*.—In order to ensure still further the correctness of the Register, returns will be made by the Military Auditor General, and by the Civil Auditor, half yearly, showing the leave, privileged and unprivileged, which has been taken by officers serving immediately under the orders of Government.

5*th*.—No Officer is to quit his Station until leave is regularly granted him by the proper authority; and all Officers are to return to their Stations within the term of leave granted to them, failing which they will be considered as absent without leave, and be subjected to the penalties of that condition.

G. G. O. No. 230, of 8th March 1856.—The Right Honorable the Governor in Council is pleased to announce that the maximum period for which an Officer can

absent from his Regiment or appointment on privilege leave, whether between musters or irrespective of muster, is thirty days in each half year.

G. G. O. No. 956, of 22nd December 1856.—If an Officer obtain privilege leave for one month, and in extension thereof obtain one month's leave on private affairs in the following month, he is entitled to count the first month as privilege leave; but in the case of an Officer obtaining leave to proceed to the Presidency preparatory to embarking for Europe on Furlough under the New Furlough Regulations, no portion of such preparatory leave can be treated as privilege leave.

Should an officer who is on privilege leave not rejoin his Corps, but be absent in continuation, on not more than five months' leave on private affairs, or one year and eleven months' leave on medical certificate, he will retain his full salary or allowances for the thirty days of privileged leave, which will also count as service; but he will nevertheless forfeit all military allowances on completing six months' or two years' absence, as the case may be, reckoned from the date that he quitted his Corps or Station.

"**32.** Officers, to be entitled to retire on the Full Pay of their Regimental rank (under the Regulation of 1796), must have served twenty-two years in India, out of which leaves of absence for two years in the aggregate, and not more, will be allowed to count as service for the Retiring Pension.

"**33.** Officers, to be entitled to retire on the Full Pay of Captains and Majors (under the Regulations of 1835-37); must have served twenty and twenty-four years respectively, out of which time leaves of absence for two years in the aggregate, and not more, will be allowed to count as service.

"**34.** Officers, to be entitled to retire as Lieutenant Colonels, must have served twenty-eight years, out of which leaves of absence for three years in the aggregate, and not more, will be allowed to count as service.

"**35.** Officers, to be entitled to retire as Colonels, must have served thirty-two years, out of which leaves of absence for four years in the aggregate, and not more, will be allowed to count as service.

"**36.** The scale for Medical Officers and Veterinary Surgeons, of privileged Furlough and leave of absence, as counting for the Retiring Pension, will be as follows:—

Years	Months.	
1	8	in 17, and under 20 years' service.
2	0	in 20, " 25 "
3	0	in 25, " 30 "
4	0	in 30, and upwards.

"**37.** It is to be distinctly understood, that under no circumstances whatever will an Officer be permitted to retire on Full Pay until he has completed the *full time of service* above specified, whether he be in England at the close of his service or elsewhere.

G. G. O. No. 878, of 23rd September 1857.—The following Extract, paras. 18 and 19, of a Military Letter from the Honorable the Court of Directors to the Government of India, No. 126, dated 22nd July 1857, are published for general information:—

Letter dated 6th March 1857, No. 98.

Request Court's decision on the question whether leave of absence in or beyond India, taken in consequence of wounds received in action, shall be allowed to reckon as service for pension both under the Old and New Regulations.

18.—By the Regulations established for the promotion of Lieutenant Colonels to the rank of Colonel after three years' service, it is provided that no longer period than one month in each year, or a total of three months in three years, or six months in six years, shall be allowed to reckon, whether the leave shall have been spent in India or out of the country, except in cases of wounds or illness contracted by service in the field, duly certified by a Medical Board, when each case will be separately considered with reference to the time to be allowed.

19. In reply to the question now put to us, we have much satisfaction in stating that we are prepared to extend the benefit of the exception above specified to the time required for retirement on full pay. Every claim to the benefit of this exception must be duly certified by a Medical Board, and be forwarded to us for our decision, accompanied by the opinion thereon of the Government and Commander-in-Chief of the Presidency to which the Officer belongs.

"**38.** The privileged time of absence may, with the permission of the local Govern-

ment, be taken at any time, subject to these Regulations. If, therefore, at the end of twenty years' service, of which eighteen had been passed on actual duty in India, an Officer should be on Furlough or sick certificate, in Europe or elsewhere, he will be entitled to retire on the full Pay of a Captain without returning to India, and so in the other terms of service for the higher Pensions. In like manner, a Medical Officer on Furlough or sick certificate, in Europe or elsewhere, at the end of seventeen years' service, fifteen years and four months of which had been passed on actual duty in India, will be entitled to retire on the lowest rate of Pension without returning to India; and so in the other terms of service for the higher Pension.

"**39.** These Rules do not in any way affect the existing Regulations regarding the grant of leave in India, or for short periods to sea, whether on private affairs or on sick certificate, except as to the periods of such absence being taken into calculation in the time allowed to count as service for retirement on Full Pay."

G. O. C. 27th April 1855.—With the sanction of the Right Honorable the Governor in Council, the following decisions of the Government of India on points connected with the revised New Furlough Rules, are published to the Army:—

Questions.	*Decisions.*
"Will all Officers (Staff and Regimental) who may proceed on leave to places 'in India,' whether within or beyond the limits of their own Presidencies, be entitled to receive their Indian Allowances for a period not exceeding six months, if on private affairs, and two years, if on medical certificate, from the dates of their quitting their respective Corps or Stations, as allowed to them under the Furlough Rules?"	"It has been expressly declared in Rule 39 that the former Rules regarding the absence of Officers *in India* are not in any way affected by the New Regulations."
"Will Officers holding Staff or other detached appointments, who may so proceed on medical certificate, be entitled to retain their appointments, and to receive half their Staff Salaries, for a period not exceeding two years, as under the Old Furlough Regulations?"	"An Officer may proceed to those places only which he could have visited on leave in India prior to the publication of the New Rules, and he can retain any appointment during absence for six months on private affairs, and for two years on medical certificate."
"Will all Officers (Staff and Regimental) under the New Rules, who may proceed on leave for short periods to sea, or for brief periods to Ceylon, the Mauritius, or other places out 'of India' on *private affairs*, be entitled to receive their Indian Allowances during their absence; and if so, for what period from the dates of their quitting their respective Corps or Stations?"	"Officers absent for short periods at sea retain their Indian Allowances, the Old Rules on this subject continuing in force."

CIVIL ABSENTEE RULES.

FORT WILLIAM, FINANCIAL DEPARTMENT, THE 8TH JUNE 1855.

The following Rules for the grant of Leave of Absence, for regulating Deductions from Salaries and Deputation Allowances, and for limiting the period of service of Civil Servants, are published for general information, and will take effect in all the Presidencies and Settlements under the Government of India from the date of the publication of this Notification, in supersession of the Rules of the 17th May 1843 and the 25th August 1854:—

CHAPTER I.

RULES FOR APPLICATION FOR LEAVE OF ABSENCE

Section I.—No. leave of absence from any Office or Station can be granted but by the Government under which the employment is held, and on the application of the party requiring such leave, saving in such cases as may hereafter be specially excepted. The application must be made publicly, through the regular channel, in the Department to which the applicant may belong.

NOTE.—This Rule must be considered as superseding the Rule under which Commissioners of the Land Revenue and other Officers have heretofore been allowed to grant leave of absence in Bengal.

Section II.—The Official Allowances of the holder of a Civil office quitting his Station without leave will entirely cease from the date of his quitting until his return, or, in the event of his subsequently obtaining leave, to the date of such leave being granted to him.

Section III.—No leave of absence shall have any retrospective effect, except in cases of severe illness, to be attested by medical certificate, conforming in every respect to the directions contained in Section V.

CHAPTER II.

RULES FOR SICK LEAVE.

Section IV.—Upon application duly made, the Government may grant leave of absence on medical certificate to any Civil Servant, to any place in India, in Europe, or elsewhere, as he may consider most conducive to the restoration of his health, without any restrictions whatever as to the places to which he may resort.

Section V.—When an application for leave of absence is made on the ground of ill-health, it must be accompanied by a certificate and a statement of the case from the Medical Officer by whom the applicant has been attended, distinctly stating, from personal observation, the nature of the disease, the symptoms by which it is manifested, the period during which it has existed, as far as the knowledge of the Medical Officer extends, and the necessity for temporary removal to some other place in India, or in Europe, or elsewhere, as laid down in Section IV.; and in case of the applicant visiting the Presidency preparatory to obtaining leave, the certificate must be countersigned by the Members of the Medical Board, on their being satisfied, on a perusal of the Medical Attendant's statement of the case, that the leave applied for is absolutely necessary towards his recovery. Should the applicant's Medical Attendant be of opinion that he ought to proceed to a Sanitarium or other place without visiting the Presidency, the certificate must, in the first instance, be countersigned by the Superintending Surgeon of the Division in which the applicant may be located, and afterwards submitted, with the statement of the case, for the consideration and countersignature of the Members of the Medical Board.

The certificate shall be given in the following form:—

"I, A. B., Surgeon at or of ——, do hereby certify that E. F., of the Civil Service, is in a bad state of health, and I solemnly and sincerely declare that according to the best of my judgment, a change of air is essentially necessary to his recovery; and do therefore recommend that he may be permitted to proceed to sea (or to such place as the Surgeon may think proper, expressing it in the certificate)."

The following form shall be observed by the Members of the Medical Board or the Superintending Surgeon, in countersigning the Surgeon's certificate:—

"We (or I) do hereby certify, that, according to the best of our (or my) professional judgment, after careful personal examination of his case, we (or I) consider the state of health of E. F. to be such as to render leave of absence for a period of —— absolutely necessary (or highly desirable) for his recovery."

An application for extension of leave must, if the applicant be in India, be accompanied by a certificate to a like effect from the Medical Officer by whom the applicant is attended, together with a statement, showing sufficient reason for the extension solicited; and such certificate must be countersigned by the Members of the Medical Board, or by the Superintending Surgeon of the Division in which the applicant may be located, as the case may be, on perusal of the statement. In like manner, if the applicant shall have proceeded beyond the territories under the Government of the East India Company, he must furnish a certificate and statement to the required effect from a Surgeon or Physician at the place of his temporary residence by whom he has been attended, such attendance, and the period of it, to be stated, and the certificate to be countersigned by the Examining Physician of the East India Company, if the applicant is in England, or, if not in England, by the principal Medical authority of the colony or country to which the absentee may have proceeded, or some sufficient reason stated for the want of such countersignature, if the certificate be not so countersigned. The Medical Board or Superintending Surgeon, before countersigning a certificate as above mentioned, must either personally examine the applicant, or state some sufficient reason why they or he have or hath been unable to do so. When any of the required particulars are neglected, leave will be refused.

Section VI.—The following conditions will in future attach to leaves of absence granted to Civil Servants who may be declared by a sufficient medical certificate to require such leave for the recovery of their health:—

1*st*.—The total period of absence, with the privileges hereinafter provided, shall not (save as specially excepted in Clause 5 of this Section, and in Section VII. of these Rules) exceed eighteen months in the whole, nor shall it exceed fifteen months on any one occasion.

2*ndly*.—The office of the absentee will be considered to be vacated if he shall be absent beyond eighteen months altogether, or beyond fifteen months at any one time, unless he shall obtain leave under Clause 5 of this Section, such absence to be computed, if he shall proceed to a Sanitarium within the Presidency, from the date of his arrival thereat to the date of his quitting the Sanitarium; if to any place beyond the Presidency, but within the continent of India, from the date of his leaving the frontier of his own Presidency to the date of his return thereto; and if he shall proceed to sea, from the date of the sailing of the vessel on which he may have embarked from any port in India which is not more distant from his Station than the ports of his own Presidency, to the date of the arrival at any port within the Presidency to which he belongs, or at any other port which is not more distant from his Station than the port of his own Presidency.

3*rdly*.—The absentee will be entitled to draw a moiety of his Salary, and the same will be paid to him during such period of absence, provided that he shall in no case draw a larger sum than Rupees 10,000 (£1,000) per annum during that period; in cases in which the emolument of the absentee's office does not exceed Rupees 5,000 per annum, no deduction therefrom shall be made for the period of eighteen months, nor shall such a deduction be made in other cases as shall reduce the allowance below Rupees 5,000 (£500) per annum. In cases in which the Salary of the absentee may not be of that amount, the full Salary will be granted.

4*thly*.—For the interval elapsing between departure from Station to the commencement of reckoning absence, or between the end of reckoning absence and re-arrival at Station, the absentee will be allowed a special leave for an additional period of one month, two months, or three months, according to the distance to be travelled, as prescribed in Section XX. of these Rules; and during this additional period the absentee will be entitled to draw the same Salary as is allowed by Clause 3 of this Section.

Civil Servants proceeding on sick leave beyond sea, will be allowed special leave for the interval elapsing between departure from Station and the commencement of reckoning absence, and between the end of reckoning absence and re-arrival at Station, for an additional period of four, six, or eight weeks, according as the distance to be travelled shall not exceed 300 or 600 miles, or be in excess of the last mentioned distance, on the condition that during this additional period the absentee shall be entitled to draw the same rate of allowance as laid down in Clause 3 of Section VI. If the leave on medical certificate be taken in India, the preparatory leave is to be calculated at the rate of one day for every fifteen miles of the distance to be travelled to the Sanitarium. (Notification of the Government of India, 14th October 1857.)

Separate applications for the special leave above referred to are no longer required, in the cases of Civil Servants proceeding on leave on medical certificate. In cases of Furlough on private affairs, separate applications for leave for the purpose of

travelling must still be submitted. (Resolution of the Government of India, 17th April 1857.)

5thly. (As amended by the Government of India on the 22nd December 1858.)—If the absentee shall apply, under medical certificate, to remain absent for a longer period than eighteen months, or fifteen months at any one time, and it shall appear to the Honorable the Court of Directors to be absolutely necessary, after examination by their Medical Officers in England, that he should do so, the leave which may have been granted in India will, under the orders of the Honorable Court, be extended to the limit of two years, with permission to retain office and half salary within the limits enjoined during such extension. If the absentee be in India, the leave may be extended to the limit aforesaid, under the orders of the Government of India, or the subordinate Governments, upon the certificate of a Board of Medical Officers, to be summoned to report on the state of the absentee's health.

6thly.—If the absentee be compelled by the state of his health, under due medical certificate, to remain absent for a longer period than eighteen months, or fifteen months at any one time, or beyond two years in the case of an extension under Clause 4, he will, as before stated, vacate his appointment; but he will be permitted to receive an Allowance at the rate of £500 per annum if above ten years' standing at the time when the leave was granted, or of £250 if not above ten years' standing at the time when the leave was granted, for such further period of absence as shall not exceed the entire term of three years in the whole. At the expiration of that term, all allowance must cease until he reports his return to his Presidency.

Section VII.—If a Civil Servant of more than fifteen years' service, after having been absent on sick leave for eighteen months in the whole, or for fifteen months at one time, at whatever period of his service such sick leave shall have been taken, shall be again compelled by the same cause to apply for leave of absence, the Government of India and the subordinate Governments may, on special grounds, grant leave of absence for one further period not exceeding six months, during which the absentee may retain his office and half his Salary under the limits above enjoined.

Section VIII.—If a Civil Servant, after fifteen years' service, shall be compelled by ill-health to apply for further leave of absence, he may be permitted on special grounds to obtain it, but his absence will involve the loss of office and salary; the Government of India and the subordinate Governments will, however, respectively, exercise a discretionary power to grant in such last mentioned cases a Sick Absentee Allowance, not exceeding Rupees 5,000 or £500 per annum, for a further period not exceeding twelve months.

Section IX.—A Civil Servant who has taken sick leave under the Rules of the 17th May 1843 will not be debarred by that circumstance from taking such leave again under the above Rules, with the privilege of retaining office, provided the leave be not granted till three years have expired after his return from his leave under the Rules of 17th May 1843.

Section X.—None of the abovementioned Rules will be applicable to Members of Council. Each Member may, however, with the special sanction of the Government, be permitted to be absent, under medical certificate, for a period not exceeding six months, retaining his office and receiving half his Salary, which shall be paid to him during such absence; but if his absence shall exceed six months, his office will be vacated.

Section XI.—Civil Servants, who may desire to draw their Allowances while absent on account of sickness under the above Rules, will be required to give security, in such amount and form as may be fixed by the Government, for the refund of any excess that may be drawn either by the Agents at the Presidency or by themselves, in case of their coming under retrenchment.

CHAPTER III.

Rules for Short Leave on Private Affairs.

Section XII. (As amended by the Government of India on the 8th May 1856.)—The Government may grant to Civil Servants leave of absence to any place in India, Europe, or elsewhere, without any restriction whatever as to the place to which they may resort, for one month in each calendar year, without deduction from the Salaries and Emoluments drawn by such Servants. Such leave, however, will only be granted when the Government is satisfied that no inconvenience will arise from the departure of the officers seeking it. No second leave can be granted under this Rule until the completion of eleven months from the expiration of the last leave, if taken at one time, or from the date of return from any sick leave, or until the completion of six months from the expiration of the last instalment of a leave, if it has been divided. Servants not availing themselves of the indulgence in any one year may obtain, under the like

conditions, leave of absence for two successive months, to commence at or after the expiration of twenty-two months from the termination of their former leave; and if two years elapse without enjoyment of the privilege, leave for three months may, in like manner, be granted at the expiration of thirty-three months from the termination of the last preceding leave; but no leave shall be granted under this Rule for any period exceeding three months. If an Officer shall not return at the expiration of the period of leave granted him under this Rule, he shall forfeit all Pay and Allowance during the time of his remaining so absent without leave; and if he shall so continue absent for more than one month beyond the term granted, his office shall become vacant.

When the leave is divided, it is not necessary that six months should elapse before granting the second instalment, provided it is taken in the same calendar year. (Decision of the Government of India, page 1869 of the Calcutta *Government Gazette* of 1856.)

Leave under Section XII. cannot be granted preparatory to Furlough or retirement from the Service, and to have the benefit of its advantages the party must continue to serve, unless disabled by sickness, for three months from the date of his return from privilege leave (Notification of the Government of India, 19th September 1856) Preparatory leave may, however, be granted on half salary under the same Notification.

An officer absent on leave under Section XII. cannot draw salary until he returns to his Station. (Notification of 11th July 1856.)

Civil Servants absent from their Stations under medical certificate cannot be admitted to leave under this Rule in continuation of their sick leave; and if while absent under this Rule they be granted extended leave under medical certificate, they shall be considered liable to the Rules applicable to leave of absence on medical certificate for the whole period of their absence.

Civil Servants who have been absent on medical certificate during any portion of a calendar year are not entitled to leave under this Rule during that year; but, in determining the interval necessary to entitle a person to leave under this Rule, no reference will be made to any intermediate leave of absence that may have been granted under Section XIV. Clause 1.

Leave taken under Section XIV. must be held to be an interruption in calculating for the grant of leave under Section XII, and the computation must be subject to renewal from the date of the Civil Servant's return from the former. (Para. 1st of the Honorable Court's Despatch No. 6, of 14th January 1857)

Section XIII. (As amended by the Government of India on the 8th May 1856.)—As a general rule, when leave is granted under Section XII, such leave will be in one period only, whether for a whole month or less, and not in detached portions to complete one month; but, as an exception to this Rule, it shall be discretional with the several local Governments, where good cause is shown for the indulgence, and it is attended with no public inconvenience, to sanction leave of absence under this Rule, to such parties as may not have occasion to apply for the whole at once, in two instalments only, which are not to exceed in the aggregate one month within the calendar year.

Section XIV. Clause 1. *(As amended by the Government of India on 22nd December* 1855.)—The Government may, on sufficient cause being shown, grant to a Civil Servant special leave of absence on private affairs for six months to any place in India, Europe, or elsewhere, without any restrictions whatever as to the place to which he may resort; provided, however, that the absentee shall draw no more than one half of his salary and allowances. After an absence of six months any office held by the absentee shall become vacant.

Clause 2. *(As amended by the Government of India on 22nd December* 1855.)—The leave granted under this Section, if taken in India, will be computed from the date of the absentee's quitting his Station to the date of his return thereto, and if taken to Europe, or beyond Indian limits, from the date of the sailing of the vessel on which he may have embarked from the Port nearest to his Station, to the date of his arrival at the same on his return to duty. A second leave of the same description cannot be taken till the expiration of six years from the date of return to duty from a former leave. No portion of the half salary allowed to be drawn will be claimable till the absentee shall have returned to his duty.

For the interval elapsing in the case of leave taken to Europe or beyond Indian limits, between departure from Station to arrival at the Port of embarkation, or between return to Port and re-arrival at Station, the Government may grant, on the same terms and conditions as the special leave, such an additional period of leave as may

be considered to be absolutely required to enable the absentee to reach the Port of embarkation, or to return from the Port of debarkation to his Station.

Clause 3.—It will be understood that leave under this Section is not to be granted as a matter of course to every applicant, but that it will be the duty of the Government to consider and determine whether the grounds of the application are sufficiently urgent to justify the concession of the leave.

Clause 4. (*Notification of Government of India, republished, and dated Bombay Castle, 17th June* 1857.)—In the event of a Civil Servant, while absent on special private affairs leave, under Section XIV. of the Rules, falling sick, and being granted extended leave under medical certificate, he shall be considered liable, for the whole period of his absence, to the Rules applicable to leave of absence on medical certificate.

Leave under Section XIV. cannot be allowed in continuation of leave granted under Section XII., (Government Notification 11th December 1855), and cannot be granted by instalments, (para. 85 of the Court's despatch No. 97, of 19th November 1856; Government endorsement No. 323, of the 16th March 1857).

CHAPTER IV.

Furloughs on Private Affairs.

Section XV.—In the place of the period of three years (in one term) for which Furlough has hitherto been granted, Civil Servants will be allowed the option of taking a Furlough of three years as at present, or of dividing the Furlough into three periods of one year each, to be taken after successive periods of seven years' service, or into two periods, which may either be of one and two years respectively, or of eighteen months each, provided that in every case the Civil Servant shall declare, on taking his Furlough, whether he intends it to be for twelve, eighteen, twenty-four, or thirty-six months, in order that the Government may make its arrangements accordingly. In case of a division into two periods, the first Furlough must be taken after a residence of not less than ten years, and the second Furlough after a further residence in India of ten years from the date of return from the first Furlough; but Civil Servants returning on Furlough to Europe will continue, as at present, to vacate their offices.

Civil Servants who have had sick leave beyond sea cannot take Furlough to Europe on private affairs until six years from the date of return to their duty from such sick leave. This rule however does not apply to short leave to sea on medical certificate, (page 1544 of the Bombay *Government Gazette* of 1856), nor does it interfere with Civil Servants having special leave under Section XIV. of the Absentee Rules. (Page 1987 of the Bombay *Government Gazette* of 1856.)

Section XVI.—The Furlough Allowance granted during the periods mentioned in the last Section will be at the rate of £500 per annum, and the receipt of it will not, on any grounds whatever, be permitted for any longer period than three years.

Section XVII.—Civil Servants who may have been compelled by sickness to quit their duty under medical certificate, before completing seven years' residence in India, will be entitled to receive, during their Furlough on private affairs taken subsequently to their completion of that period of residence, the ordinary Furlough Allowance of £500 per annum for three years.

Section XVIII. Clause 1.—In applying the foregoing Rules in substitution of those before existing, periods of absence to the limit of three years will count as service in India in the twenty-five years entitling to the Annuity, the present qualification of twenty-two years' residence being retained.

Clause 2.—Absence on medical certificate to the extent of one year will reckon as service and residence in India, and be so computed, in addition to the three years of absence which, under the Clause next preceding, are allowed to be reckoned as Indian service. All periods of short leave of absence on private affairs, taken under Sections XII. and XIV. of these Rules, will also count as service and residence.

Section XIX.—Military Officers employed in the Civil Department will be subject to the Rules laid down in General Order No. 1150, dated 17th November 1854, for the grant of leave of absence and Furlough to Officers holding Military Staff Appointments.

CHAPTER V.

Rules for Joining Stations.

Section XX.—There shall be allowed to officers appointed to any new office the periods of one month, two months, or three months, for joining, accordingly as the distance may not exceed 300 or 600 miles, or be in excess of the last-

Note.—The time allowed for joining is computed from the date of the Order reaching the Officer appointed.

mentioned distance. Officers not joining their Station within the said periods, respectively, shall forfeit their Salary for the time delayed in excess of the above periods; and if such excess shall exceed one month, the office shall be vacated, unless otherwise specially ordered by Government.

Section XXI—Upon the first appointment of any Civil Servant, who shall be reported qualified for Public Service by the examiners appointed by the Government, to any Civil Station, there shall be allowed for travelling expenses to the Station an Allowance at the rate of 8 annas per mile by the direct post road, according to the Polymetrical Tables of the Post Office, the bill for which Allowance will be passed by the Civil Auditor after the Officer shall have joined the Station; if required in advance, an order of the Government shall be necessary.

Section XXII—The salary of office will be payable from the date only of the Officer joining, but in case of Junior Civil Servants, the Salary of Assistants will be payable from the date of their being reported qualified for the Public Service, unless forfeited under the preceding Rule through delay in joining the Station to which they may be appointed.

Section XXIII.—In case of a change of Office, when an officer is appointed to a higher situation, he shall not draw the higher Salary until he joins. For the period occupied in travelling, the Rule No. XX., regulating the time and distance for joining Station, shall be applicable; and the Officer will, for the periods allowed in that Rule, respectively, draw out of the Salary of the office he is about to join a sum equal to that of his previous situation.

CHAPTER VI.

Rules for Deputation Allowances.

Section XXIV.—The sum of Company's Rupees 52,200 per annum having been fixed, under the orders of the Court of Directors, as the maximum Salary of Civil office for the offices of Government under the situation of Member of Council, Civil Servants who may draw larger Allowances than this annual sum, as a consolidated personal and sumptuary Allowance, in consideration of the necessary expenses of their position, will, in all cases of absence, be treated in respect to deductions as drawing only the Allowance thus limited; and the excess above the monthly Salary yielded by that annual sum shall remain as a local addition to the usual Deputation Allowance to be drawn by the Officer performing the duties, to meet the necessary expenses of his position; provided, however, that in the cases of Civil Servants appointed to offices of the description referred to subsequent to the 2nd June 1854, the sum of Rupees 50,000 shall be held to be the maximum Salary, under the Government Resolution No 563, of that date.

NOTE.—This rule will equally apply in case of a Political Resident taking a leave of one, two, or three months, for which in other cases he would suffer no deduction. The excess above the maximum monthly Salary will in that case be enjoyed by the person in charge.

Section XXV.—Deputation Allowances shall be granted to Civil Servants temporarily performing the duties of an office according to the following rates, and subject to the limitations and conditions hereinafter laid down:—

To Civil Servants not holding any substantive appointment, at the rate of 50 per cent. on the monthly Salary of the appointment officiated in, such Deputation Allowance being in addition to the Subsistence Allowance of their respective ranks.

To Civil Servants holding an office of inferior emolument, when officiating in an office of superior emolument, at the rate of 20 per cent. upon the monthly Salary of the appointment officiated in, in all cases in which the salary of such appointment shall not exceed Company's Rupees 2,000 per mensem; and in respect to all appointments of which the Salary shall be more than Company's Rupees 2,000 per mensem, at the rate of 20 per cent. upon Company's Rupees 2,000, and of 10 per cent. on the amount in which the monthly Salary may exceed Company's Rupees 2,000; provided, however, that no lower rate of Deputation Allowance shall be given than Rupees 200 per mensem.

The Deputation Allowance shall in all cases be in addition to the Salary of the substantive appointment held by the Officer on Deputation.

The above rates are granted provisionally, subject to future revision.

In the Punjab, Nagpore, and other places where appointments are by *classes*, the amount of Deputation Allowances payable at the above rates will be calculated, not upon the Salary of the individual Officer holding the substantive appointment in which the Officer deputed may be temporarily officiating, but on the average rate of Salary attached to the particular *class* to which the appointments may belong.

A Civil Servant acting for another shall have no claim to Commission or fees, where any such sources of emolument exist. These shall be regarded as forming part of the income of the Officer to be relieved, subject to the prescribed deductions.

A Civil Servant acting in an appointment the Salary of which is to be reduced on the retirement of the present incumbent, will draw Deputation Allowance on the reduced Salary.

An Officer officiating in more than one appointment will be entitled to Deputation Allowance, regulated by the aggregate amount of the Salary of the offices.

An Officer appointed permanently to a higher situation, but prevented from joining his appointment by an order of Government, and detained to officiate in a situation of still higher emolument than the one to which he has been permanently appointed, will be entitled to a Deputation Allowance in addition to the higher Salary to which he has been promoted.

Section XXVI.—No Civil Servant temporarily officiating for another shall draw an amount larger than the entire emoluments of the office in which he is officiating; and if the amount of the Deputation Allowance, according to the prescribed scale, added to the permanent emoluments of the officiating Servant, would exceed the emoluments of the office in which he is temporarily acting, the excess shall not be drawn. But this provision shall not apply to the case of any Officer deputed for special reasons to act in an office of inferior emolument to his own. In cases where an Officer, holding two appointments, on being deputed to officiate for another, shall be relieved only from one, he shall receive no Deputation Allowance, unless the emoluments of the office in which he is deputed to act exceed the united emoluments of his permanent appointments, and in that case the Deputation Allowance shall be limited to the difference.

Section XXVII.—No subordinate officer acting for his principal or for any other person holding a superior appointment, in the same office or establishment, at the same Station, shall be entitled to any Deputation Allowance until after the expiration of one month, and then the Allowance is not be drawn in arrear. But a Servant previously out of employment, or who may be deputed to act from a different Station, shall be entitled to Deputation Allowance from the date at which he may enter upon the discharge of the duties to which he has been temporarily appointed,

Section XXVIII—Civil Servants, if deputed to act at a distance from the Stations where they are employed or if ordered by Government on special duty, shall be permitted to draw Travelling Allowances at the rate sanctioned in the case of a first appointment.

CHAPTER VII.

Rules for Limiting the Period of Service.

Section XXIX.—After thirty-five years' service no Civil Servant shall be appointed to any new office, nor be permitted to retain an office which he has held for a period of five years and upwards, except in special cases, which are to be referred to the decision of the Honorable the Court of Directors. This Rule will be applicable to every Civil Servant appointed to office after its promulgation, and to the case of every other Civil Servant to whom it relates at the close of five years from the 25th August 1854.

CHAPTER VIII.

Rules for the Grant of Leave of Absence to Law Officers.

Section XXX.—The East India Company's Law Officers may obtain sick leave, and short leave on private affairs, under the conditions prescribed in the case of Civil Servants, both as respects the periods of absence and the limitation of Allowances during such absence. Leave will, however, only be granted at the convenience of the Government, and no additional expense will on any consideration be incurred by the Government on account thereof

If any Law Officer shall quit his duty, save on leave under medical certificate or on short leave on private affairs, he will be considered to have vacated his appointment.

CHAPTER IX.

Rules for Chaplains and Assistant Chaplains.

Section XXXI—Chaplains and Assistant Chaplains may take furlough on private affairs and on medical certificate; also privilege leave and leave for short periods on private affairs and on medical certificate in or out of India, on the same terms and conditions as Military Officers, with the following modifications :—

1*st.*—Chaplains being allowed to retire after twenty years' service, the period of Furlough on private affairs is in their case limited to the present term of three years. The Furlough may, however, either be taken in one period or be divided into two periods, whether of eighteen months each, or of two years and one year respectively, and if

divided, the first Furlough may be taken as at present, after seven years' residence, and the second Furlough after a further residence of ten years in India. As respects Chaplains and Assistant Chaplains appointed before the 11th January 1854, when the period of service was only eighteen years, their second Furlough, if they should exercise the option of taking Furlough in two periods, will be available after a second residence in India for a term of eight years.

2ndly.—No Furlough or leave of absence, whether on private affairs or on sick certificate, taken in Europe or elsewhere out of India, in excess of three years, will be allowed to count as service in India in the twenty years which qualifies Chaplains for their Retiring Pensions.

The new Rules not to have retrospective effect so as to deprive Chaplains of the privilege of counting as service leave already taken under the old Rules. (Para. 3 of the Honorable Court's despatch No. 24, of 5th March 1856.)

Section XXXII.—The Furlough Pay of Chaplains will remain as at present. With regard to their Allowance during sick leave to any place out of India, they shall receive Salary (but at a rate not exceeding £600 per annum) for the first six months of absence, and, for the remaining twelve months, an Allowance equal to the Furlough Pay of their standing. If the leave be extended, an Allowance equal to Furlough Pay may be drawn for a further period of eighteen months.

Chaplains and Assistant Chaplains may be granted leave of absence in India on medical certificate to the extent of one year on their full salaries, subject to a deduction of one-third, but not to reduce the salary below Rs. 500. (Para. 4 of the Honorable Court's despatch No. 24, of 5th March 1856.)

Chaplains and Assistant Chaplains may have privilege leave once in every six months, and be allowed accumulated privilege leave to the extent of three months after eighteen months' continuous duty. (Para. 5 of the same despatch.)

Chaplains and Assistant Chaplains granted sick leave to Europe or beyond sea, to receive salary at the rate of Rs. 500 for the first six months, and their Furlough Pay for the remainder of their leave. (Para. 4 of the Honorable Court's despatch No. 78, of 5th September 1855.)

Leave under Section XII. cannot be granted preparatory to Furlough or retirement from the Service; and to have the benefit of its advantages the party must continue to serve, unless disabled by sickness, for three months from the date of his return from privilege leave. (Notification of the Government of India, 19th September 1856.) Preparatory leave may, however, be granted on half salary under the same Notification. (Declared applicable to Chaplains and Assistant Chaplains by Government Letters No. 1, of 3rd January, and No. 87, of 5th March 1857.)

UNCOVENANTED ABSENTEE RULES,

PASSED BY THE GOVERNMENT OF INDIA UNDER DATE THE 5TH MARCH 1857.

CHAPTER I.

RULES FOR APPLICATION FOR LEAVE OF ABSENCE.

Section I.—Leave of absence to officers not in the covenanted service of the East India Company, receiving their appointments direct from Government, will be granted by the Government only under which office is held, on application made publicly through the regular channel in the department to which the applicant may belong; but in respect of all other officers it will be optional with the local Governments to delegate to heads of offices or departments, power to act upon the rules without special reference to higher authority.

Section II.—Absence without leave will render the absentee liable to loss of appointment, and will be attended with entire forfeiture of salary for the whole period of such absence.

Section III.—No leave of absence shall have any retrospective effect, except in cases of severe illness, to be attested by medical certificate, conforming in every respect to the directions contained in Section IV.

CHAPTER II.

RULES FOR SICK LEAVE.

Section IV.—When an application for leave of absence is made on the ground of ill-health, it must be accompanied by a statement of the case from the medical man by whom the applicant has been attended, distinctly stating, from personal observation, the nature of the disease, the symptoms by which it is manifested, the causes by which it has been probably produced, and the period during which it has existed, so far as the knowledge of the medical officer extends; and by a certificate from the chief medical officer of the station or district, or if at a Presidency town, from a Presidency or other official Surgeon, certifying, after careful personal investigation, the necessity for temporary removal, and the period for which absence is, to the best of his judgment, absolutely requisite for restoration to health. If the requisite leave be for a longer period than six months, the certificate must in the first instance be countersigned by the Superintending Surgeon of the division in which the applicant may be located; and in cases of leave beyond sea, be afterwards submitted, with the statement of the case, for the consideration and countersignature of the Members of the Medical Board.

The certificate shall be given in the following form:—

"I, A. B, Surgeon at or of ——, do hereby certify that E. F. (here enter designation of office) is in a bad state of health, and I solemnly and sincerely declare that, according to the best of my judgment, a change of air is essentially necessary to his recovery; and that the circumstances of his case are such as to render leave of absence for the period of —— absolutely necessary (or highly desirable)."

The following form shall be observed by the Superintending Surgeon and Members of the Medical Board in countersigning the certificate:—

"I (or we) do hereby certify that according to the best of my (or our) professional judgment, after careful consideration of his case, I (or we) believe the state of health of E. F. to be such as to render leave of absence for a period of —— absolutely necessary (or desirable) for his recovery."

An application for extension of leave must, if the applicant be in India, be accompanied by a certificate to a like effect from the medical officer by whom the applicant is attended, together with a statement showing sufficient reason for the extension solicited; and such certificate must be countersigned by the Members of the Medical Board, or by the Superintending Surgeon of the division in which the applicant may be located. In like manner, if the applicant shall have proceeded beyond the territories under the Government of the East India Company, he must furnish a certificate and statement to the required effect from a surgeon or physician, at the place of his temporary residence, by whom he has been attended; such attendance and the period of it to be stated, and the certificate to be countersigned by the examining physician of the East India Company if the absentee is in Europe, or by the principal medical authority of the colony or country to which the absentee may

have proceeded; or some sufficient reason stated for the want of such countersignature if not produced.

The officer countersigning must either personally examine the applicant, or state some sufficient reason why he has been unable to do so; when any of the required particulars are neglected, leave will be refused.

Section V.—Leave of absence will be granted under the following limitations to servants who may be declared by a sufficient medical certificate to require leave for the restoration of their health:—

1. The limit to leave on medical certificate is fixed at three years during the entire period of service, of which not more than two years may be continuous, and two years only will be permitted to reckon as service qualifying for pension.

2. Leave of absence on medical certificate will not be granted for a longer period than twelve months at any one time, which may, however, be extended, if necessary, under renewed medical certificate, for periods not exceeding six months within the limit of two years continuously. After a continuous absence of two years on medical certificate, an interval of two years shall elapse before further leave on that account is granted.

3. During one year of the entire period of absence under this rule, the absentee will be subjected to a deduction of one half, and during the remainder to a deduction of two thirds of his allowances; provided, however, that he shall in no case draw a larger sum than Rupees 6,000 (£600) per annum.

4. In cases of extreme urgency the heads of offices are authorised to grant leave of absence on medical certificate to the extent of one month, provided the same be immediately reported for the sanction of Government.

Uncovenanted Servants proceeding on sick leave beyond sea, will be allowed special leave for the interval elapsing between departure from Station and the commencement of reckoning absence, and between the end of reckoning absence and re-arrival at Station, for an additional period of four, six, or eight weeks, according as the distance to be travelled shall not exceed 300 or 600 miles, or be in excess of the last mentioned distance; on the condition that during this additional period the absentee shall draw the same rate of allowance as laid down in Clause 3 of Section V. If the leave on medical certificate be taken in India, the preparatory leave is to be calculated at the rate of one day for every fifteen miles of the distance to be travelled to the Sanitarium. (Notification of the Government of India, 14th October 1857.)

Separate applications for the special leave above referred to are no longer required in the cases of Uncovenanted Servants proceeding on leave to Europe on medical certificate. In cases of furlough on private affairs, separate applications for leave for the purpose of travelling must still be submitted. (Resolution of the Government of India, 17th April 1857.)

Section VI.—Parties who may desire to draw their allowances while absent on leave, will be required to give security, in such amount and form as may be fixed by Government, for the refund of any excess that may be drawn in case of their coming under retrenchment.

Personal security sufficient, according to the form laid down. (Notification by the Government of India, 2nd January 1857.)

CHAPTER III.

Rules for Leave on Private Affairs.

Section VII.—Leave of absence may be granted for one month in each year, or, to judicial officers, during the authorised closing of the civil courts, without deduction from salary.

Privilege leave, if taken in broken periods of a month, can be granted in two instalments only, not to exceed one month in the year. If taken for a whole month, eleven months must elapse from the expiration of the last leave, before a fresh leave can be granted; if taken by instalments, six months from the termination of the last instalment taken in the previous year. (Government Notifications, 23rd July and 15th October 1856. Also 2nd para. of Notification, 28th April 1857.) The instalments may be granted within six months, provided they are taken in the same calendar year. (Vide page 1547 of the Calcutta *Government Gazette* of 1857.)

An Uncovenanted Servant is not entitled to leave on private affairs in continuation of privilege leave. (Notification, 15th November 1856.)

An Uncovenanted Servant not returning at the expiration of his privilege leave, shall forfeit all pay and allowances during the time of his remaining so absent without leave, and if he shall so continue absent for more than one month beyond the term granted, his office shall become vacant. (Resolution of the Government of India, 23rd January 1857.)

Uncovenanted Officers of the Educational Department are not entitled to leave under Section VI. in addition to the leave granted to them during the vacations. (Resolution of the Government of India, 26th September 1856.)

Uncovenanted Servants may, at the option of Government, obtain accumulated privilege leave for two or three months, according as they may have been uninterruptedly at their duties twenty-two or thirty-three months since they last had leave. (Government Notification, 29th July 1857.)

Judges of the Small Cause Court may, with the sanction of Government, obtain leave for one, two, or three months, under Section VII., according as they may have been at their duties eleven, twenty-two, or thirty-three months since they last had leave, and provided they have not during these periods availed themselves of leave during the vacations of the Court. (Resolution of the Government of India, 21st August 1857.)

Section VIII.—In addition to the above, and on sufficient cause being shown, leave of absence may be granted on private affairs for not more than six months, one half the absentee's salary being deducted for such period of absence, provided the rate of Rupees 6,000 (£600) per annum be not exceeded.

Clause 2.—The leave granted under this Section will be computed from the date of the absentee's quitting his post to the date of his return thereto. A second leave of the same description cannot be taken till the expiration of six years from the date of return to duty from a former leave. No portion of the salary allowed to be drawn will be claimable till the absentee shall have returned to his duty.

Clause 3.—Leave taken under this and the preceding section will reckon as service qualifying for pension.

Leave under Section VIII. cannot be granted continuously with leave under Section VII. (Notification, 15th November 1856.)

Section IX.—In addition to the leave which may be granted under the preceding rules on medical certificate or private affairs, Government may at any time, under special circumstances, and at its discretion, grant leave of absence once during the period of service, not exceeding twelve months on private affairs, without forfeiture of appointment, but without pay; such period of absence not to count as service towards pension.

Section X.—No leave of absence on private affairs shall be claimable by any party whatever under these rules as a matter of right; such leave will be granted only at the pleasure of the Government or its authorised officers when the concession of the indulgence in no way interferes with the interests of the public service, and it shall be the duty of the Government in every instance (except in the case of leave granted under Section VI.) to consider and determine whether the grounds of the application are sufficiently urgent to justify the concession of the leave.

CHAPTER IV.

Rules for Allowances, &c.

Section XI.—No person appointed to a situation under the Government shall draw the salary of his appointment for any period prior to the date of his joining it.

Section XII.—An officer holding a situation, appointed to one of equal or higher value, will, until he join, draw so much of the salary of his new office as may be equal to the salary of his former situation; provided he does not exceed the time allowed for joining under the following rules; should he do so, no salary will be passed to him for such period in excess.

Section XIII.—The time ordinarily allowed for joining an appointment is to be calculated at the rate of fifteen miles a day (Sundays excepted), together with a week to prepare for the journey; but on occasions of emergency, it will be optional

with the Government to prescribe the period within which any journey is to be performed.

Section XIV.—A person officiating temporarily in any situation, will draw so much of the salary of such situation as may equal the sum deducted on account of absence from the real incumbent, and the substantive allowances of every officer temporarily acting in a situation of superior emolument will be subject to deduction at the same rate; *but no additional expense is on any account to be incurred by the absence of any officer on leave.*

Medical or Military Officers acting for Uncovenanted Officers to receive extra allowance agreeably to the Civil Absentee Rules. (Resolution of the Government of India, 22nd February 1856.)

Uncovenanted Servants acting for Civil Servants to receive extra allowance at the rate of one half allowed to Civil Servants acting for other Civil Servants. (Government letter, 12th June 1845.)

INDIAN NAVAL FURLOUGH REGULATIONS.

G. G. O. No. 186, *of* 1*st November* 1855.—The Right Honorable the Governor in Council, in conformity with the instructions of the Honorable the Court of Directors, is pleased to publish the following Furlough Regulations for the Indian Navy, which are to take effect from this date :—

Furlough on Private Affairs.

1. Every Officer will be allowed a Furlough to Europe, or elsewhere beyond sea, for a period of two years, at the expiration of ten years' service, and for a second period of two years after twenty years' service in India.

2. The second Furlough of two years will only be granted after ten years' service in India from the date of the return to duty after the first Furlough of two years. These Furloughs are not to be cumulative under any circumstances, but are limited to two years. Officers who have taken leave of absence on sick certificate to Europe, or elsewhere beyond sea, will be ineligible to a Furlough on private affairs until they have served six years from their last return to duty. This rule does not apply to short leaves to sea.

3. All grants of Furloughs on private affairs are subject to the exigencies of the Public Service, and to the Regulations framed for the preservation of the efficiency of the Indian Navy, by limiting the number of absentees.

4. Officers holding detached or shore appointments may be allowed Furlough for a period of six months without losing their appointment ; but during that period they will not be entitled to any portion of their salary, which will be drawn in full by the Officers officiating for them.

5. The Europe Furlough Pay to be granted in the above cases is as follows :—

	£.	s.	d.	
To Captain, the pay of Lieutenant Colonel in the Army.....	1	0	0	per diem.
To Commanders, as Majors	0	16	0	ditto.
To Lieutenants and Pursers, as Captains	0	10	6	ditto.
To Mates above three years' service as such, as Lieutenants	0	6	6	ditto.
To Clerks, as Ensigns.....	0	5	3	ditto.

Leave of Absence on Sick Certificate.

6. Leave of absence on sick certificate will be granted for a term not exceeding eighteen months, whether it be to any place in Europe or elsewhere out of India.

7. Extensions of such leave may be granted, as at present, on production of medical certificates, for further periods not exceeding eighteen months in the whole.

8. An Officer holding a detached appointment will be allowed to be absent on sick certificate in England, or elsewhere beyond sea, for a period of fifteen months, without losing his appointment, and during the first six months only of such absence he will be entitled to draw the Indian unemployed shore pay of his rank and half the difference between that and the salary of his appointment, the Officer officiating for him drawing the unemployed shore pay of his rank and the remaining half salary during the first six months, and the full salary of the appointment during the remainder of the time.

When the salary of the appointment is not consolidated, a moiety thereof, with Net Pay of rank, is admitted.

9. An Officer's claim to half the salary for six months, as sanctioned in the preceding rule, will not be affected by his subsequently retiring from the service in Europe, or elsewhere.

10. No portion of Command Allowance, Medical Staff Salary, or other similar allowance, which under the Old Rules was inadmissible to Officers of the Indian Navy absent from their ships at the Cape or elsewhere, will be allowed to absent Officers under these Regulations.

11. All Officers on detached or shore employ, while on leave of absence on sick certificate, will be entitled for a period of six months to pay as above stated, and for the remaining period of their leave they will receive Furlough pay only.

12. If the leave on sick certificate be extended, Furlough pay will be continued, but under no circumstances for a longer period than three years altogether from the commencement of the absence.

13. Officers on detached shore employ, absent on leave beyond the periods

stated in paras. 4 and 8, cannot retain their appointments and allowances, except on special grounds, to be sanctioned by the Government of the Presidency; any such special extension of leave is to be reported at once to the Honorable the Court of Directors, with the reason for it, and to be subject to their approbation.

14. The privilege of retaining appointments during leave of absence on sick certificate, or on Furlough on private affairs, will not be available a second time, if the fresh leave is on sick certificate, until an Officer has been three years, or if on private affairs until he has been six years, in the discharge of the duties of his appointment from the date of last return to it.

15. This Rule, however, does not apply to leaves of absence, whether on sick certificate or on private affairs in India, or for brief periods to Ceylon, the Mauritius, or other places out of India.

Officers Serving Afloat.

16. Officers of the Indian Navy are to be allowed, during their absence on sick leave in England, pay as follows:—

Captains.—The shore pay of Captain, Rs. 400 per mensem, being Indian shore or unemployed pay, for the first six months, and afterwards Furlough pay at the rate of £1 per diem.

Commanders.—Rs. 300 per mensem, being Indian or unemployed shore pay, for the first six months, and afterwards Furlough pay, or 16*s.* per diem.

Senior Lieutenants.—Indian pay, Rs. 191-8-1 per mensem for the first six months, and 10*s.* 6*d.* per diem for the remainder of their Furlough.

Junior Lieutenants and Pursers.—Rs. 161-8-1 for the first six months, and 10*s.* 6*d.* per diem for the remainder of their Furlough.

Mates above three years' service as such, 6*s.* 6*d.* per diem.

Mates under three years' service, and *Clerks after six years' service*, 5*s.* 3*d.* per diem. And,

Midshipmen and Clerks under six years' service, £75 per annum during the currency of their Furlough.

Date of Furlough and Advance of Pay.

17. The period of Furlough on private affairs, or leave of absence on sick certificate, is to be calculated from the date of the departure from India of the ship in which the Officer proceeds.

18. Advances of pay and allowances to Officers proceeding on leave of absence on sick certificate who may be entitled to them, will be made in India for three months from the date of embarkation. Payments in continuation will be made in England at the rates of exchange fixed annually for repayment of advances made on account of Her Majesty's Government. Furlough pay will continue to be issued in advance for six months when required by Officers obtaining Furlough on private affairs.

Advances are payable for three complete months, and it is optional with Officers to receive or decline the same prior to leaving.

Furlough pay undrawn in England, is payable in India at the exchange of 2*s.* 0½*d.* per rupee.

19. The existing Regulations regarding Passage Money to Officers are not affected by these Rules.

20. The Certificates issued to Officers who are granted Furloughs on private affairs, or leave of absence on sick certificate, are to specify the time each Officer has been absent on leave within Indian limits, as well as the time of his previous absence in Europe.

21. The last Pay Certificate of all Officers proceeding to England on sick certificate is to specify the rate of pay and allowances to which they may be entitled.

22. This information is necessary, in order that no difficulty may arise in the Pay Department of the India House in adjusting the several payments which may be due.

Periods of Absence allowed to be continued as Service for Retiring Pensions.

23. Officers to be entitled to retire on the Full Pay of their rank (under the Regulations of 1796) must have served twenty-two years in India, out of which leaves of absence for two years in the aggregate, and not more, will be allowed to count as service for the Retiring Pension.

24. All Officers now in the Service, who prefer retaining what may be considered the advantages of the Old Regulations, may do so, provided they signify their wish to that effect when they next apply for Furlough or leave of absence, without any limitation whether such leave be in India or elsewhere; and Officers who once make their election will not be entitled to any other choice, but will be afterwards subject to the New or Old Regulations, according to their decisions.

25. Officers holding shore appointments have not the above option allowed them, but they may retain the advantages of the Old Regulations by giving up their appointments; which in such cases will be considered vacated from the date of embarkation.

26. To those Officers who adopt them, the New Regulations will apply retrospectively in respect of Furlough and leave of absence beyond sea, and in computing their time of service for retirement, so that their Furloughs or leaves of absence, whether under the Old or New Rules, and whether on private affairs or sick certificate, within or beyond India, will count for service to the authorised extent only in computing the time for retirement on Full Pay.

27. These Rules do not in any way affect the existing Regulations regarding the grant of leave in India or for short periods to sea, whether on private affairs or on sick certificate, except as to the periods of such absence being taken into calculation in the time allowed to count as service for retirement on Full Pay.

The Electric Telegraph.

RULES FOR THE TRANSMISSION OF MESSAGES BY THE ELECTRIC TELEGRAPH.

[PASSED BY THE GOVERNOR GENERAL OF INDIA IN COUNCIL ON THE 5TH JANUARY 1855, AND MODIFIED BY THE HON'BLE THE PRESIDENT IN COUNCIL ON 4TH MAY 1855.]

I. Messages on the Public Service shall take precedence of all others.

II. Service Messages shall be charged for at the same rate as private Messages, but the former shall be paid for by a transfer in account, covered by a *pro formâ* without cash payments.

III. A Return shall be made every quarter to the Government of India and to the local Governments, showing the number and cost of the Messages transmitted by each Department during the preceding quarter.

IV. No Government Officer shall employ the Telegraph except on urgent and important occasions, and no Message shall be sent on Service by the Electric Telegraph unless the saving of time effected by the Telegraph is of real importance.

V. At the seats of the local Governments authority to despatch Messages is vested in the head of the Government and in his Private Secretary. All other Service Messages, Civil and Military, shall be sent under the authority only of the Chief Secretary to Government and of the Chief Military Officer respectively.

VI. At Calcutta, Messages will be sent under the signature of the Governor General, of his Private Secretary, and of the Secretaries to Government. The power of communication along the river is also vested in the Superintendent of Marine and the Master Attendant.

VII. At Telegraph Stations not being seats of Government, no Service Message shall be sent unless it be signed by the Chief Civil or Military Officer of the Station, each for his own Department.

VIII. The Officer who signs the Message will be responsible for the necessity of sending it by the Telegraph, and if on the periodical inspection of the Station-books it shall be discovered that Messages of a trifling nature have been despatched, the Officer who authorised them will be made to pay for them.

IX. Officers, whose signatures will authorise Messages to be sent free, are bound in honor not to send private communications under cover of that authority.

X. All Service Messages must be conveyed in as few and as short words as possible.

XI. Messages will be received for transmission by Electric Telegraph at the undermentioned rates of charge, and subject to the following rules :—

Messages of 16 words and under, including the name of the sender, the name of the person addressed, the date (if inserted), and the names of the places of despatch and destination (unless they be also the names of Telegraph Stations), will be sent a single distance along the line for one rupee.

Messages, as above, exceeding 16 words, but not exceeding 24 words, will be sent a single distance along the line for one rupee and eight annas.

Messages, as above, exceeding 24 words but not exceeding 32 words, will be sent a single distance along the line for two rupees.

And for every additional 16 words, or fraction thereof above 32 words, there shall be charged, for a single distance, an additional rupee.

A single distance is commonly any distance not exceeding 400 miles ; and for every additional single distance above 400 miles there will be made an additional charge equal to the charge made on the same Message for a single distance.

No charge is made for stops, or for prepositions, or such words as " and Co.," " Mr." and " Mrs." occurring in the address of a Message.

The name of the sender, of the person addressed, and of the place of address, must be written on the face of every Message.

The date may be written or not, at the option of the sender.

A single distance from Calcutta will include Benares, Mirzapore, and all intermediate Stations.

A double rate from Calcutta will include Agra and the intermediate Stations at Allâhabad and Cawnpore.

A treble rate from Calcutta will include Meerut, Delhi, Loodianah, Lahore, Gwalior, Seepree, and Indore.

A quadruple rate from Calcutta will include Peshawur and Bombay. Six rates include Madras.

Peon hire, at the rate of 4 annas per mile, will be charged for extra, if the Message be sent to any place at a distance beyond half a mile from a Telegraph Station.

XII. No Message, however brief, will be charged for at less than a single rate, and the reply will in every case be charged for separately.

XIII. Mercantile or other Messages involving important results, will only be received on condition of being repeated back from each receiving Station, and half price will be charged for repetition, according to the practice in Europe.

XIV. The sender of a Message may pre-pay the charge for a reply, which must be limited to the number of words so pre-paid for.

XV. All Messages must be in the English language, and must be pre-paid in cash, including Peon hire, excepting Messages sent from River Stations below Calcutta.

XVI. No unpaid Message, with the above exception, shall on any account be transmitted. A violation of this rule will subject the Signaller, or Assistant in charge of the Station whence the Message may be sent, to dismissal from office.

XVII. Messages in cypher will be charged for at triple rates, under special rules which may be learned at the different Telegraph Offices.

XVIII. All communications in cypher must also be repeated back to obtain accuracy, and the repetition will be charged for in addition, at single rate.

XIX. Should a Message in cypher be tendered for transmission simultaneously with a Message in ordinary language, the latter will take precedence of the former.

XX. Subscriptions for daily Messages of 48 words or more, will be received at an abatement of one-fourth of the above-named rates.

XXI. Violation of secrecy on the part of any Officer, Assistant, Clerk, or Signaller, in the Telegraph Department, will be punished by dismissal from office, forfeiture of arrears of pay, and a declaration in the official *Gazette* of the incapability of the delinquent to serve the Government in any public capacity.

XXII. Officers in charge of Telegraph Stations may refuse to transmit a Message which may be of a decidedly objectionable character. Should the character of the Message be disputed, the matter may be referred to a Secretary to Government if the dispute occur at the seat of a Government, or to the Chief Civil Officer if it occur at a Mofussil Station.

XXIII. Private Messages shall be transmitted in the order of their receipt in the Telegraph Office. Should two or more Messages be tendered for transmission at the same time, the shortest shall have the precedence, without reference to its relative importance.

XXIV. No Message or Messages beyond 200 words in all can be sent at one time by one individual or firm; and no second Message can be sent by the individual or firm till after the lapse of three hours, unless the line be free and not required by any one else.

XXV. Private Messages will, until otherwise notified, only be received between sunrise and sunset.

XXVI. During the receipt of Messages signalled as "Confidential," visitors shall be excluded from the Signalling Room. A violation of this rule shall subject the Assistant in charge to dismissal from office.

XXVII. News and Messages shall be conveyed in the following order:—

1*st*.—Intelligence of the English Mails.
2*nd*.—Messages for the Press.
3*rd*.—Messages of Subscribers.
4*th*.—Messages for Non-Subscribers.

[Under orders from the Government of India, received the 3rd June 1858, the 27th Rule has been amended by striking out the words "3rd, Messages of Sub-

scribers." Under this amendment, preferential despatch cannot be granted in favor of any individual, whether a subscriber or not, for private messages of any description.]

XXVIII. Overland intelligence, or other public news of great importance, shall be given to the Press free of charge, at the seats of the different Governments, and at all other places on the line where Newspapers are published, and where there are regular Repeating Stations. The intelligence or news will ordinarily be given in two Messages; the first in as few syllables as possible, and containing not more than 25 or 30 words, the second Message will be full, but shall not exceed 610 words.

XXIX. Messages will, under these rules, be received by Post from Europe or elsewhere for transmission, if money be deposited beforehand sufficient to pay for the transmission.

XXX. Messages will also be sent to the Post Office in letters, bearing postage, when instructions to that effect are sent with the Message

XXXI. The accuracy of Messages is not guaranteed.

XXXII. The foregoing Rules are provisional, and the rates are open to revision.

DESPATCH OF MESSAGES BY POST AND TELEGRAPH, FROM PLACES NOT HAVING TELEGRAPH STATIONS.

All Post Masters will be provided with copies of the preceding rules and a table of distances, showing the rates to be charged for a Message of 16 words between any two places on the lines. [See page 710.]

Thus, the distance between Meerut and Calcutta is marked in the table as 3, which means that a Message of 16 paid words is charged at 3 rupees—a Message of 17 to 24 words Rs. 4-8—a Message from 33 to 48 words Rs. 9—the charge for any given number of words being multiplied by the *number* in the table, and half added in case of *repetition*. Thus a repeated Message of 32 words between Meerut and Bombay will be charged—32 words at a single rate Rs. 2; sent 3 distances Rs. 6; add one-half for repetition—total, Rs. 9.

The Post Masters will explain the rules and rates to applicants, and inform them of the nearest Telegraph Stations from which their Message can be despatched.

The Message is then to be written on a stamp of the required value, according to the subjoined form, in which the numbered words are those charged for; the words not numbered are passed free.

The stamps are procurable from all civil treasuries, and from the regular licensed venders.

The Message must be written on the stamped paper, and if two stamps are required the Message must be written across both.

The stamped Messages are then to be sent by post under envelopes, marked conspicuously "ELECTRIC TELEGRAPH DESPATCH;" all such despatches will have priority of delivery at the receiving Post Office to Telegraph Messengers, who will be kept always in attendance.

It is strongly advised that such Messages be sent as *Registered* letters; a copy of the Message should also be sent by post to the party, addressed in the usual manner.

The sender of a Message must accept all risk of delay, non-delivery, or error. No refund will be made of fees.

Complaints regarding missing or inaccurate messages will receive immediate attention, and all cases of neglect on the part of the Assistants be severely punished.

In the address of a Message the names of the places are not charged if there be Telegraph Stations at such places; but names of places not having Telegraph Stations—of quarters, streets, or houses, and all such special directions, will be charged word for word.

In the *address* of a Message the words Mr.—Mrs.—Miss—Messrs.—and Co.—From—For—To—are passed free; but all these words in the body of the Message are charged for.

Dates are optional, and may be given without name of the month, as "Wednesday" or "23rd" &c. &c.

Numbers are in all cases charged for word by word, as if written in full—thus 1855, are *five* words.

The name of the sender of a Message must be given in all cases, and be written on the face of the Message.

In names, each initial is counted as a word, and it is strongly advised that the Christian names be spelt in full.

No charge is made for the stop; notes of interrogation, admiration, and inverted commas are not transmitted.

Senders of Messages are advised to use the shortest and most familiar words they can select. The more intelligible a Message is, the greater is the certainty of its being transmitted free of error.

Senders are also *advised* to specify the streets and numbers of the residences of the persons they address, specially with reference to Calcutta, Bombay and Madras. The Telegraph Offices have necessarily but small delivering establishments, and many Messages sent merely to "Calcutta," "Bombay," or "Madras," miscarry through this omission.

Messages which must be *repeated* include all those sent on mercantile, banking, and money business of every kind; on law matters, freights, shipping, insurances, and markets. *Repetition* is also *recommended* for family Messages of special urgency.

If sent from Bombay to Calcutta it would be charged 4 distance rates—total, Rs. 18.

"REPEATED" MESSAGES.

Parties sending messages are informed, that by causing these to be *repeated* back at half price extra, great additional certainty of freedom from errors is attained, and in the event of any gross error arising in the transmission of a repeated despatch, its non-delivery, delivery to a wrong person, or unreasonable delay, the fee paid for the message is refunded to the sender or his agent. No refund is made for messages which are not repeated.

TRANSMISSION OF MESSAGES IN CYPHER.

Persons wishing to send messages in cypher, under Rule XVII. of the Rules passed by the Governor General of India in Council on the 5th January 1855, are informed that the only cypher which can be allowed is that in numerals, and the Assistants in charge of Offices are ordered not to receive or transmit messages in any other than the English language, and in perfectly intelligible terms ; or by means of numerals, that is, of figures written in full.

TRANSLATION OF MESSAGES.

1. Native Merchants must take their own measures for having their messages composed in accordance with the Telegraph rules.

2. Translation is not undertaken by any officer or servant of the Department.

3. Forms are supplied *gratis* at the Receiving Office, and any information required given free from all charge.

4. Any demand made for Fees, or their acceptance by any person employed in the Department, will be punished by immediate dismissal.

REGISTER OF CORRESPONDENTS' NAMES.

Several Messages having miscarried through errors in spelling the names of the parties addressed, a Register has been opened in the Calcutta, Bombay, and Madras Offices, in which persons may insert the names of one to four habitual Correspondents at other Stations. This list is printed, and a copy supplied to each Station. The words "to Registered Correspondent" will be telegraphed in all such cases free of charge.

As more than half the Messages on the lines pass between such habitual Correspondents, it is confidently expected that the mistakes referred to will be thus prevented in a proportionate degree.

No charge is made for the Registry ; and one or more names may be added monthly. The Register will be printed and circulated on the first Saturday in each month.

TELEGRAPHIC CORRESPONDENCE WITH PLACES OFF THE LINE.

Under orders of Government, Messages are received for transmission at any Telegraph Office if sent by Post from places not having Telegraph Stations, if written on ordinary stamped paper of the value required.

It is recommended that all letters containing Messages for despatch by Telegraph be registered at the Post Office, and be marked with the words "*Telegraph Message*" in large letters and in red ink.

GRATUITOUS DISTRIBUTION OF OVERLAND NEWS.

Extracts of a letter from C. Beadon, Esq., Secretary to the Government of India, to Sir W. B. O'Shaughnessy, Superintendent of Electric Telegraphs in India.

1. That the Mail news be given gratuitously to the public at all stations in which the Morse Instruments are in use.

2. That the "Heads of Intelligence" from the English newspaper the *Home News* be telegraphed all over India, immediately on arrival of the Mail steamers at Bombay, this to be followed immediately by the Commercial Intelligence, and Mercantile Messages, and lastly the Details of Intelligence prepared at Bombay and Madras, limited to 400 words, and those not to contain any of the items already signalled as the first bulletin.

RULES FOR ADMITTANCE OF VISITORS.

The indiscriminate admittance of visitors to the Telegraph Offices all over India has injured the character and much impaired the usefulness of the Department. Messages, both official and private, are habitually disclosed, and this being well known at each station, the community avoid as much as possible the employment of the Telegraph, in the apprehension of their messages being made public.

In many Stations, the Telegraph Office has become a mere news room, and especially when the Mail news from England is passing, it is resorted to by numerous visitors, who are admitted to the Signal-room, and allowed to hear all that passes.

This practice must be immediately and entirely discontinued: admission to the Signal-room is henceforth positively forbidden to all persons, whether officials or private individuals. It is obvious that no Officer, Civil or Military, however high in rank, has the right to be present at the receipt of a private message for another person. He might as well claim the privilege of reading that person's letter. On the other hand, it is clear that private individuals cannot be permitted to know the contents of official despatches.

To meet the natural wish which prevails among all classes to witness the operation of the Telegraph, every person who has to *send* a message may be present at its transmission and acknowledgement, and the sender of a message may permit his friends to see its transmission. But the visitors so admitted must withdraw from the Signal-room the moment it is intimated from the corresponding Station that a message is on the line for another party.

A Visitor's Book is to be kept at each Station, and the name of every one admitted to the Signal-room under the above rule must be inscribed by the visitors, and an entry made of the hour and minute of their entrance and departure.

It is now finally intimated to the Assistants in charge of Telegraph Stations that these rules must be exactly observed, on penalty of dismissal from the Telegraph Department, and exclusion from the public service generally, by notification in the *Government Gazette*. This penalty has just been inflicted by the Government of India on two Signallers lately employed in the office at Burdwan, as notified in the *Calcutta Gazette* of the 17th August, as follows:—

"NOTIFICATION.

"*Fort William, Home Department, the 17th August*, 1858.

"John James Bradley and George Peter Reid having been dismissed from the service of the Government in the Electric Telegraph Department for violation of secrecy, are declared incapable of serving the Government in any capacity.

(Signed) "C. BEADON,

"*Secretary to the Govt. of India.*"

MONEY, WEIGHTS, AND MEASURES.

MINT PROPORTION OF COINS.

The Gold Mohur and the Company's Rupee are of equal weight and fineness, as under :—

Weight 180 Grains Troy. Pure metal 165 Grains. Alloy 15 Grains.

The new Copper Coins of India weigh as follows :—

The 1 Anna piece 400 Grains Troy.
" ½ " " 200 "
" ¼ " " 100 "
and the pie 33·333 decls.

12 Pie make 1 Anna, and 16 Annas 1 Rupee.

The Gold Mohur is estimated at 15 Rupees, but its current value must always vary according to the price of gold.

The Silver Coins of India are a legal tender for any amount.

The Copper Coins of India are not a legal tender for more than one Rupee.

NEW WEIGHTS AND MEASURES OF INDIA.

The Unit of the British Indian Ponderary system is called the *Tola*. It weighs 180 Grains Troy weight. From it upwards are derived the heavy weights, viz., *Chittack*, *Seer*, and Maund ; and by its sub-divisions the small or Jeweller's weights, called *Mashas*, Ruttees, and Dhan.

			Grs. Troy
1 Tola		=	180
80 Tolas	1 Seer	=	14,400
40 Seers	1 Maund	=	576,000

Large or Bazaar Weights.

			Grs. Troy
5 Tolas	1 Chittack	=	900
16 Chittacks	1 Seer	=	2½lbs
40 Seers	1 Maund	=	100lbs

			Grs. Troy
8 Ruttees	1 Masha	=	15
12 Mashas	1 Tola	=	180
80 Tolas	1 Seer	=	2½lbs.
40 Seers	1 Maund	=	100lbs.

To check fraudulent Weights.

80 Rupees weigh 1 Seer
86 Annas in copper 1 Seer
6 Rupees' worth of pice 4 Seers

Rules to convert Indian Weight into Avoirdupois Weight.

1.—Multiply the weight in Seers by 72, and divide by 35 ; the result will be the weight in Pounds Avoirdupois.

2.—*Or*, Multiply the weight in Maunds by 36, and divide by 49 ; the result will be the weight in Cwt. Avoirdupois.

WEIGHTS FOR DRUGS, PRECIOUS METALS, &c.

1 Chawl, or 4 dhans = 1 ruttee or goonj
2 goonj = 1 val, or wal
8 ditto = 4 ditto = 1 massa
96 ditto = 48 ditto = 12 ditto = 1 tola

GROSS WEIGHTS FOR COARSE AND CHEAP GOODS.

2 chewul = 1 dhan, yuv, or grain of wheat
8 = 4 = 1 ruktika or goonj
64 = 32 = 8 = 1 massa
256 = 128 = 32 = 4 = 1 tank

Nuv (or 9) tanks = ⅛ seer
18 tanks = ¼ seer
36 tanks = ½ seer
72 tanks = 1 seer, gross weight

* This is the common Bombay seer, and is computed at 11 ozs. 4 drs.

40 seers of 26 tolas = 1 mun, or maund as it is commonly called, and reputed to be equal to 28 lbs. Avoirdupois
20 muns = 1 khundee = 560 lbs. avoirdupois

MEDICAL WEIGHTS.

3 mohiree =	1 sarshup or mustard seed					
21 =	7 =	1 yuv, or dhan, or grain				
63 =	21 =	3 =	1 goonj			
189 =	63 =	9 =	3 =	1 wal		
567 =	189 =	27 =	9 =	3 =	1 massa	
1,701 =	567 =	81 =	27 =	9 =	3 =	1 tank

JEWELLERS' WEIGHTS.

Beswa or vussa	Chuwul or chow				
3½ =	1				
6½ =	2 =	1 yuv, or dhan, or grain of wheat			
20 =	6 =	3 =	1 goonj, or khrishnuln		
160 =	48 =	24 =	8 =	1 massa	
640 =	192 =	96 =	32 =	4 =	1 tank

Therefore, supposing the chuwul or chow a constant quantity, which it is, the tank of the jewellers is equal to 24 rutee weights of the goldsmiths, 6 by 332 being = 8 by 24 chow ; the first is to the last as 6 to 8 ; and the jewellers' massa and goonj ⅜ths of the goldsmiths' massa and goonj.

TO REDUCE THE BOMBAY MAUND OF 40 SEERS INTO AVOIRDUPOIS WEIGHT.

RULE.—As 40 seers = 28 lbs. (¼ of a cwt.) therefore divide any given number of maunds by 4, and the result will be the amount in cwt. Thus—2,095 maunds ÷ 4 = 523¾ cwts.

RULES AND REGULATIONS

For the Measurement by Callipers, upon Shipments to Great Britain, of Cotton, Wool, Hemp, and other Screwed and Pressed Bales, at this Port.

I. That Callipers shall from time to time be submitted to the Secretary of the Chamber of Commerce, and, if found correct, shall be branded with a Stamp bearing the name of the Chamber, to indicate the same.

II. That if, from use or otherwise, any Callipers should get out of order and be objected to, the party objecting shall send the Callipers to the Chamber for examination; and should the objection be valid, the Chamber Stamp shall be defaced by the Secretary; if, however, the objection is found to be groundless, the Secretary shall give a note to that effect, and the party objecting shall be bound by his decision.

III. That any Callipers found incorrect, and on which the Stamp has been defaced, may be re-stamped after adjustment.

IV. That no measurements shall be held good, except such as are taken by Callipers bearing the Chamber's Stamp.

V. That Cotton, Hemp, Wool, and other screwed Bales, shall be measured as follows, namely: the greatest length to be first ascertained, and then the Bale to be set on either end, as the Shipmaster may wish, and cross measurements to be taken at top over the lashings, excepting the knots, and as near the centre of the Bale as possible. That an average of 100 Bales be struck by ascertaining the actual measurement of any 10 Bales, and proportionately, the Shipper selecting and measuring one half, and the Shipmaster the other half; should, however, any dispute or difficulty arise in the selection of Bales, either party to have the option of measuring the whole quantity.

VI. That all produce subject to measurement be measured within the day on which it has been ordered to be screwed, provided the order has been given by the Shipmaster or Agents of the Vessel; and that from 1st June to 15th October the same be measured at the Screws; during the remainder of the year, if required, on the Bunder, weather permitting. No Cotton, Wool, or other goods, to be measured, until a Custom House Pass has been obtained for the same.

VII. That, in the event of the Shipmaster not attending to measure at such hour as may have been appointed by him, the Agent or Agents of the Ship do empower a person to attend on his behalf, whose sanction to the measurement shall be binding upon the Shipmaster.

TENTH BOMBAY MORTUARY REPORT,

BEING FOR THE YEAR BEGINNING 1ST FEBRUARY 1857.

During the year which ended 31st January last, the registered deaths from all causes were 17,543, or exclusive of still-born, they were 17,210; of which 9,544 were males and 7,666 were females, being in the proportion of 124·5 of the former to 100 of the latter. The still-born were 191 males and 142 females, or 333 in all.

Bombay was reported to have been the birth-place of 8,663, while 8,635 were said to have been born elsewhere, and of 45 the place of birth was unknown. The families of but 3,620 were stated to belong to this island, those of 13,878 belonged to other places, and of 45 the families were unknown. There were buried 10,976; burnt 5,751; and exposed to vultures 816.

The increased aid of the medical practitioners, which was given at the close of the year 1856 in response to the Government Circular, was continued for a few months, and the proportion of written reports of death is again one-seventh; had the effort been sustained, they would have been nearly a fifth of the whole.

The high mortality was participated in by all the various classes of disease, excepting those of Cholera, Small-pox, and Diseases of the Respiratory Organs, in which the fatal casualties registered were below the average. The year's mortality was chiefly marked by severe epidemic visitation of Measles. This disease was rapidly increasing in prevalence at the close of the preceding year; it advanced to its maximum in March, and then declined, until September, when it became extinct, having, from the 1st February, carried off 1,609 persons, or altogether 1,772 from the outbreak of the epidemic at the close of the preceding year. As is usual in measles, its severity was greatest at the lower ages, and 86 per cent. of the deaths were in children below seven years of age, and 96 per cent. below the age of fourteen years.

The deaths from cholera were 1,741, and from small-pox 396, both numbers being much below the mean of former years. The total mortality from the three epidemic classes was 3,751.

From the common or sporadic causes there were 13,459 deaths, of which 7,884 were attributed to fever; 621 to diseases of the brain and nervous system; and 34 to those of the heart and vascular system. The number under diseases of the respiratory organs was 1,031, the lowest that has been registered—of course this does not include the cases in which bronchitis or pneumonia supervened on measles; the deaths in all such were entered under the head of the primary disease. The deaths (2,078) from ailments of the bowels and other alimentary organs were above the mean number; still the reported deaths in Class IX. were few. From diseases of the sexual system and child-bearing there were 139; and from Class XI. there were 99. The great increase in the entries under debility gives reason to suspect a want of diligence on the part of those who receive the reports of death at the funeral-places; the whole number in Class XII. was last year 1,154, or 430 above the average. There were 29 deaths from leprosy, 179 from dropsy, 175 from violence and accident, and 19 from causes undetermined.

Ten years of the Registration are now completed, and much that is interesting and of importance to Medical and Statistical Science is recorded. Exclusive of still-born, 147,950 deaths have been registered, and from the facilities afforded by insular position, and from the plan of registration followed, such is believed to be nearly the true mortality. A small deficiency in the death reports of young infants was detected, and was mentioned in former yearly reports; but now the Police are empowered, by a recent Act of the Legislative Council, to put a stop to domiciliary interments.

The information recorded as to sex, caste, and race, occupation, and locality of residence, are believed to be accurate; that as to age is only approximatively so.

The reports of "*Cause of Death*" are, in many points, unsatisfactory, as from time to time has been stated. The mortality from cholera, small-pox, and measles

is thought to be given with near approach to accuracy, and the entries in Class XV., that of accident and violence, are correct. Class IV. doubtless contains much more than idiopathic fever, and the numbers are, consequently, too low in Classes V., VII., and VIII. It is probable that tetanus and convulsions are sometimes confounded together. In referring to the specific diseases in Class VII. it must not be supposed that bronchitis and pheumonia are of rare occurrence, from the small numbers that are opposite these headings ; many cases are most probably included under the general term *Respiratory Disease*. From the mortuary register it is seen that the climate of Bombay, with its mean temperature of 80° Fahr., and a mean daily range of 11½° Fahr., gives considerable immunity from pulmonary disease ; but the impure air of the small, unventilated, and often crowded sleeping-places of the majority of the native part of the population, must act prejudicially, and lessen, it is thought, the advantages that temperature would otherwise give. In Class VIII. also the deaths specified as from dysentery are not all that occurred from that disease ; many cases that had become chronic were most probably returned under the designations diarrhœa and bowel complaint. The smallness of the numbers met with in Classes VI. and IX. has several times, in former reports, been alluded to, and reasonably attributed to inability, on the part of those reporting the deaths, to detect the diseases belonging to those classes. Class X. is probably deficient, through dislike in some to state the true cause of death when it is of this class. Were the diagnosis more carefully made, there would be fewer deaths of children returned under the slovenly term *Debility*. It is probable that Class XIII. does not contain so many as it ought, as the termination of leprosy by diarrhœa or dysentery is likely to be the occasion of some deaths which belong to it having been referred to Class VIII.

Success has not yet attended the attempts that have been made to trace a connexion between meteorological movements and the variations in the amount of mortality here in different years. That atmospheric changes do affect the health is obvious, and that sickness thus produced may terminate fatally, does not admit of reasonable doubt ; but from the varying duration of many diseases thus produced, and their liability to modification and to complication by other than atmospheric influences, it is not easy, from ordinary mortuary registers, to determine truly the effects on mortality of variations in different years in the temperature, moisture, movement, or pressure of the air. A perfect knowledge or the effects of the vicissitudes of weather on the progress of diseases as they occur in this climate would doubtless be a valuable addition to the natural history of disease, and although this can be best prosecuted by observing the diseases in their beginning and progress, the attempt to trace their connexion with the fatal issue from the information registered at the funeral-places may still be persevered in.

What is of more immediate local and practical importance is, to find out the localities in the island where endemic and epidemic disease is most prevalent, that these places may be avoided, or that proper means may be used for their sanitary improvement. The minuteness with which these mortuary tables have been prepared has had reference to this ; and when it is ascertained how many lives, at different ages, are at risk in each district, then at once can be answered the questions so often asked as to the insalubrity or otherwise of different localities. Information regarding the mortality in each street, as well as district, is contained in the registers, and, when called for, can be reduced to Tables.

However desirous one may be to place the figures of the mortuary registration in juxtaposition with population returns, it is better yet to wait in expectation of a trustworthy Census, than to promulgate error by basing calculations on either of the notoriously incorrect Censuses of 1849 and 1851. The hopelessness of deducing any sure approximation to the total number of the inhabitants from the number of deaths is manifest, as a slight difference in the assumed rate of mortality produces a great discrepancy in the results ; as for example, if the rate of mortality at different ages, and in different sexes, for the whole of England, be applied to the mean of the last five years' deaths here, it gives a population of 987,686 ; or, if thinking that rate too favourable to adopt, the mean rate in very unhealthy Liverpool during the seven years 1838 to 1844, be used, it gives here a population of only 670,290, the difference between the products being nearly 317,000.

During the ten years the annual mortality has been increasing, and in comparing the mean of the first five with that of the last five of those years, it is found that there is an excess in the latter of about 2,000, which belongs, not to the fluctuating epidemic classes, but to the more permanent causes of death. This increase accords with many other circumstances, which indicate a rapid increase in the population.

The tables of occupations are made with reference to general statistics, rather than to show the effect of various trades and professions on health, which, in a former Report, was stated to be here almost impracticable. In those tables the deaths are arranged according to the trade or occupation which was *the source of livelihood*, whether the deceased laboured personally in that occupation, or was maintained by a parent or other relative deriving the means of the maintenance from that occupation.

Taking the comparative number of deaths as indicative of the comparative number of lives at risk, we find progressive increase during the ten years in the various trades likely to be in demand in an increasing city: it is found in the labourers, masons, workers in wood and in iron; in those furnishing the means of conveyance, as bullock-drivers, those employed about horses, and porters; in the maritime population also, and those deriving their livelihood from the book-trade and the press,—perhaps it is in relation to this that the "*Writers and Accountants*" have not increased. The grain dealers and the retailers of tobacco, opium, and ganja have increased, but the number connected with the production and sale of spirits has diminished. The butchers have remained stationary, and the bakers, grain-parchers, and confectioners have diminished; beggars and vagrants are among those who have increased in numbers.

After arranging the deaths that have been reported during the last two years, according to the languages spoken by those of the various castes and races to which the deceased belonged, it has been roughly estimated that in every 1,000 of the inhabitants, Murathee is spoken by 480; Guzerathee and its dialects by 244; Hindostanee or Hindee by 205; Canarese, Telingee, &c. by 16; Arabic, Persian, Beloochee, &c. by 7; Portuguese and its *patois*, by 26; and English, or other European languages by 22.

If, to facilitate the examination of the results of the ten years' mortuary returns, the numbers be laid down in linear projection, it is seen that in the curve delineating the deaths from all causes, there are two maxima: the first in January and the second and greater in April; while the minima are—the first in February, and the second, which is by far the lower, in October.

If, after eliminating the deaths belonging to the three epidemic classes, the delineation of the remaining mortality be made, there are found to be three maxima, which fall respectively in January, May, and August; and three minima, which are in February, June and September. These three waves are produced by great fever mortality in May, towards the close of the hot season; from numerous deaths in August towards the close of the rains, from cachexiæ and diseases of the alimentary organs, which latter class, along with fever, contributes to form the third and greatest wave in January, or towards the close of the season when miasmata are supposed to be most active, and when the diurnal ranges of temperature and humidity are greatest.

When the deaths from small-pox (which amounted in ten years to 6,610), and those from measles, 2,362, are severally projected in a linear form, it is seen that there is one maxium of mortality in April and a minimum in October in the former, and one maximum in March and one minimum in September in the latter, and that the rise and fall of the curves are very regular; and it is seen, on laying down the yearly deaths, that the curves in them correspond with those of the decennium. This yearly regularity is best seen in small-pox, of which the cases registered have been the more numerous.

The periodicity observed here in these diseases is very remarkable, and its cause is worthy of being sought for. Similar periodicity in small-pox and measles mortality is not found in all countries; for on examining the reports of the Registrar General of England, it is found that the 6,860 small-pox deaths in London in the nine years—from 1846 to 1854—were distributed as follows:—in the quarter

ending 31st March 1,619 deaths; in that ending 30th June 1,721 deaths; in that ending 30th September 1,651; and in the quarter ending 31st December 1,879; or, in the six months from 1st January to 30th June there were 3,340 deaths, and in the other six months 3,520 deaths. The deaths from measles in London during the same nine years were 10,126, and were distributed in the successive quarters of the year thus—first, 2,488; second, 3,772; third, 2,030; and fourth, 2,841.

If, from different quarters of the world, there is any precise information on the subject on record, it does not appear to be at present accessible in Bombay. In the Parliamentary Returns on the Health of Troops on the West Coast of Africa in the Sierra Leone Command, there is mention made of two epidemics of small-pox, both of which were present in the spring months; the latitude was about 8° N.

It is worthy of inquiry whether the periodicity now mentioned always accompanies the disease in tropical climates, and whether there is any regular ratio in which the manifestation of periodicity diminishes on receding from the equator; and also whether the law affects the time of prevalence of the disease in the southern hemisphere. No precise information on this latter point has been found; but from meagre incidental notices that have been met with in books of travels in South Africa and South America, it is probable that our seasons of increase and decrease are not there reversed.

The progress of the disease is not affected by temperature, for its advance is not impeded by the increasing cold of November, December, and January, nor by the rising temperature of the succeeding month. Nor is the periodicity dependent on the changes in the sun's declination, as the disease advances while the southern declination is increasing, and does not cease to advance at the solstice, but is still progressive while the southerly declination is again diminishing, and attains its maximum when the declination is near zero.

In recent investigations connected with terrestrial magnetism, it has been observed that a marked influence attends the passage of the earth through the points in its orbit at which the plane containing the sun's axis is perpendicular to the ecliptic, and the times of that passage are about ten days before the equinoxes: the poles of the sun lean more towards the earth at those than at other epochs. It is to this annual period that the small-pox mortality conforms itself, although the solar influence produces in it but one maximum and one minimum; while, in the magnetic variations, it causes two of each, one of the minima coinciding in time with the maximum of variola. The power retarding the prevalence of small-pox (and of measles also) is coincident in time with the earth's approach to the sun's pole in September. This retarding or adverse power is found to be greatest at the autumnal equinox, and, after regularly progressive diminution, to be least at the vernal equinox, when the earth approaches the other pole of the sun, from which time the retarding influence increases, until it has again, in September, reached its maximum. In the mortuary tables we have only the date of death, but the registers from which those tables are compiled give also the duration of the fatal attack in each case; and the mean duration during a short period has been elaborated and found to be ten-and-a-half days, which, added to the days that may be allowed for the incubation of the disease, would bring the maximum of attacks to very near coincidence with the sun's periods.

It is likely that the periodicity of fever, both in its seasonal prevalence and in its diurnal phenomena, may yet be found to be due to influences connected, or concomitant, with the magnetic changes in the earth and the atmosphere, and it is probable, also, that the periodicity in croup, which has its time of accession and its critical hours, synchronous with the waves of the barometric tide, may find in the magnetic changes of the atmosphere a predisposing cause more satisfactory than the mere variations in the pressure of the air. These latter points, however, require clinical observation for their elucidation.

In the cholera mortality there are no regular annual times of maxima and minima; and in looking at the returns of the successive years, the outbreaks or exasperations of the disease, as indicated by the deaths, are seen to have taken place at apparently irregular periods. If, however, the aggregate of the deaths in the ten years be taken, there are found to be two maxima and two minima, and these nearly coincide with the maxima and minima of the fever mortality, and one of the maxima and one of the minima agree nearly with those of small-pox and measles.

In several of the epidemic visitations of cholera, a very minute examination of the daily Meteorological Observations was made with reference to the progress of the mortality from the disease, but no casual connection between them was detected. The influence of locality of residence on the mortality from this disease has often been pointed out in former reports.

The deaths from diseases of the brain and nervous system during the ten years amounted to 5,659, and there was not any well-marked regularity in either their annual or monthly fluctuations. The mortality, 14,953, from diseases of the organs of respiration, was distributed with much equality through the different months, although the sum, in various years, varied considerably; the proportion to the total mortality was 9·5. The fatal casualties from diseases of the alimentary organs were 19,579, or about 1,958 a year, or 13·2 of the total deaths, the maxima falling, as before stated, in January and August. The numbers recorded during the ten years in Classes VI., IX., and X., were 169, 153, and 1,114; and, as was before mentioned, these are below the reality. The number from diseases of the integuments, muscles, bones, and joints, was about 61 a year, or 609 in all; and of these 159, or nearly 25 per cent., were from guinea-worm. If those in Class V., under traumatic tetanus which originated from this parasite of the integuments, be added, there appear 194 deaths from this cause. From diseases of the General System, such as scurvy, beriberi, rheumatism, cancer, syphilis, &c., and the doubtful cases included under the term *debility*, there were 7,244 reported deaths. The yearly mean would, of course, be 724, but the entries during the last two years of the decennium greatly exceed the average. From leprosy there were 425, from dropsy 1,772, and from other and unknown causes 237, in the ten years. This last number is made up chiefly of cases of infants and strangers found dead, those reported by the Coroner "natural death," "sudden death," and a few in which the persons furnishing the report had omitted to state the diseases that preceded death, and had in its place written "*Old Age*," or the more learned but equally uninstructive term "*Senectus*," which was superfluous, as the age was at the same time particularly given, as usual, in another line of the same report.

In Class XV., that of violent deaths, there were 1,488, or about 149 a year. Of these some were from causes peculiar to this country, such as the 29 instances of snake-bite, and the 46 deaths from falls from palm-trees—these latter occurring

among men whose occupation it is to tap the trees. There were 17 deaths reported as having resulted from mercurial ptyalism, probably through the abuse of mercury by native medical practitioners.

There were 77 reported to have died from having been run over, or injured in the streets, by carriages and carts. There were 606 drowned, of which number 180 were so in the sea, and of these 47 lost their lives in the harbour during the hurricane of 1st and 2nd November 1854. In tanks, wells, and pools there were 426 drowned, many of them by suicide. The suicides recorded in the ten years were as follows :—

From this table it appears, as was stated in the report for 1852, that suicides are increased by the facilities afforded by ill-fenced or ill-guarded tanks and open wells, as it is in the months when the water in these is most abundant that suicides are most numerous.

The violent deaths reported as homicidal were 71, and were inflicted by the following means :—

In reviewing the ten years' deaths in reference to the races and castes of the deceased, there is seen no reason for supposing that any have absolute exemption from any of the forms of disease. The liability, however, to certain diseases seems to differ in different classes of the people. The tables of caste and race were, from the beginning of the registration, arranged with a view to obtain information on this point ; and although after the first three years alterations were made in these tables, the distinction between those allowed by their religion to eat flesh and those forbidden to do so, has been strictly observed from the first. Those who religiously abstain from eating the flesh of animals are the Jains, Brahmins, Lingaets, and Bhatias ; the deaths among these *Asarcophagous* tribes were, exclusive of still-born, 12,532, or 8½ per cent. of the whole. There is no religious obligation on the other castes or races of the people to abstain from animal food, and they are all classed together as *Sarcophagous ;* but, although their religion does not enforce it, many of the Hindoos of other castes are, from the constraint of poverty, strangers to the use of animal food, and, like those of the Asarcophagous class, make use of various pulses in their diet, to supply the demand of the body for nitrogenous aliment. For this reason the distinction between the two classes is less strict than could be wished, and, perhaps, the contrast between the two is less marked than it would otherwise have been.

Among the Asarcophagous, the deaths from cholera were 7·1 per cent. of the whole, from small-pox 3·1 per cent., and from measles 0·7 per cent.; while among the Sarcophagous, 135,427 in all, the per-centage from cholera was 16·0, from small-pox 4·6, and from measles 1·7. It has to be borne in mind, while making this comparison, that as small-pox and measles are diseases that chiefly affect children, the difference may possibly be owing, in some measure, to a difference in the proportion of children in the different tribes residing in Bombay with their parents, for many adults sojourn here while their families remain at their distant homes.

If the deaths from cholera, small-pox, and measles be put aside, and those from all other causes be examined, we find among the 11,162 pulse-eaters, 63·1 from fever; while among the 105,280 flesh-eaters, the proportion is but 54·1 per cent.; from diseases of the nervous system in the Asarcophagous 4·1, in the Sarcophagous 5·0. The Asarcophagous class seems more subject than the other to pulmonary diseases, the deaths in the former being 13·3, and in the latter 11·9; while, on the other hand, the Sarcophagous had 17·5 per cent. from diseases of the alimentary system, and those who do not eat flesh only 10·4. The deaths from Cachexy and Debility were 4·8 among the Asarcophagous, and 6·4 among the Sarcophagous.

OFFICE RULES.

The Bank opens for the transaction of business at 10 A. M., and closes at ½ to 4 P. M. every day, Sundays and Holidays excepted. Saturdays at 1 o'clock.

No deposit will be received of a less amount than One Rupee, nor in excess of Fifteen Hundred.

No copper coins will be received, nor other than Government Paper.

The Pass-book must be produced whenever any sum is deposited or withdrawn.

Individuals resident out of Bombay at places where there is no Public Treasury, and females who, according to the manners and customs of the country, do not usually make their appearance in public, are required to appoint (by letter addressed to the Secretary) Agents to carry on transactions on their behalf. Payments to these Agents will only be made on the production of the Pass Books of the Principals (or the persons in whose names the Accounts stand), accompanied by orders signed by the latter, authorising the payments. These orders, in cases of Native female Depositors, are to bear the signatures of two respectable witnesses as to the signature of the drawer being genuine.

Depositors resident at the Presidency, with the exception of the Native females aforesaid, are expected, on making withdrawals, to attend personally at the Bank, in all practicable cases.

It having been observed that many persons deposit money about the beginning of the month, seemingly for safe custody, and then withdraw sums as they are required from time to time in the course of the same month, a practice which, pursued as a system, seems scarcely to come within the legitimate use or proposed ends of a Savings' Bank, the Secretary is, therefore, empowered to close the account of any Depositor who may use the Bank as an Agency by very frequently withdrawing portions of his Deposits.

* In his absence from the Presidency, the Deputy Adjutant General.

This Association was established in 1852, for the purpose of reforming the social condition of the Parsees of Western India, restoring the religion of Zoroaster to its pristine purity, and eradicating such ceremonies and practices as have crept into the Parsee religion in consequence of the descendants of this ancient Persian race having come in close contact with, and borrowed many usages and customs from, the Hindoos and Mohamedans of India, with whom they have associated for twelve centuries, since their expatriation from Persia.

THE ONLY WHITE ZINC WORKS in the UNITED KINGDOM.

HUBBUCK'S
PATENT WHITE ZINC PAINT.

WHITE ZINC PAINT MADE BY HUBBUCK'S PATENT PROCESS COMPLETELY RESISTS LONDON ATMOSPHERE, BILGE WATER, AND GAS UNDER EVERY FORM.

THE Suspension Bridge over the Thames at Charing Cross was painted in 1853 with Zinc Paint made by this process, and in 1857 the Company's Inspectors state—"It is found to have completely resisted all atmospheric and other influences, the ironwork being thoroughly protected; the Paint is as perfect as when the work was finished; it is therefore decided as unnecessary to renew any part of the Paint except the Balusters and Coping along the Footway, which has been worn off through friction caused by the Passenger traffic. A more severe test could not be had; it incontestably establishes the applicability of ZINC PAINT to outside work."

For outside work the Zinc Paint made by the French process is found in exposed situations after a time to mix up into a soapy mass, and wash off. In Paris, therefore, White Zinc is mixed with White Lead that it may resist the rain, and still have brilliancy and permanency of Colour from the Zinc.

The American is a copy of the French process, and the same may be said of Foreign Zinc Paint in general.

Prejudice has been caused through the Paint Grinders having sold Paint ground from the foreign article, and some have even sold the Number Two and Three Qualities, which are mere adulterations, under the name of Improved Zinc Paint.

The Painters then naturally condemn Zinc Paint altogether. That they have never seen the best Zinc Paint is evident, or they would not use any other paint for their best work.

CAUTION.—The same may be said of the Zinc Paint sent out by the Honourable East India Company to be used in their service. They now contract for the very lowest quality that it is possible to obtain by public competition, and buy at a less price than the mere metal is selling for in the market.

To prevent the prejudice which the inferior article must produce, each Cask is stamped

"HUBBUCK, LONDON, PATENT."

THOMAS HUBBUCK & SON,

Paint and Varnish Works,

157, FENCHURCH STREET, LONDON.

"Among other tests to which it has been subjected, has been that of painting the hold of a sugar vessel, which, after a voyage to St. Kitt's and back, is found, after washing, to be as white as the first day it was applied."—*John Bull*, Sept. 14, 1850.

"For public schools, and all rooms occupied by children, there will be now no excuse for using poisonous paints. Parents have remarked that their children, on returning from the country to newly-painted houses, have suffered in health. The reason is evident: the breath extracts the poison from White Lead even after the paint is dry, and the lungs draw in the deadly vapour."—*Wesleyan Times*, August 5, 1850.

Other Cases for Pencils, Brushes, Colors, &c., kept in stock or made to order.

NEWMAN'S CRESWICK DRAWING PAPER, size 40 by 26 inches, and 30 by 21 inches.—This Paper is invaluable to the Artist, particularly in hot climates, as it *takes Color freely without damping*. One Color can be worked over another without disturbing the first, giving effects of Atmosphere, with many other advantages. (Look for the Initial "N." in the Water-mark, the distinguishing mark of all Newman's Drawing Papers.)

NEWMAN'S IMPROVED MOIST COLORS (Prices the same as Cake Colors). JAMES NEWMAN has been favored with many most gratifying commendations of the superiority of these Colors, from both Artists and Amateurs, who are now using them in the very *hottest climates*. They are nearly as brilliant as the Cake Colors—keep moist a *very* considerable time, and a very valuable peculiarity is that if, from being kept *too* long, they become hard, a little water makes them quite equal, both in brilliancy and working, to a new Color. *There is no waste in these Colors.* To damp the Colors, allow a *little* water to stand on them for a few hours to *gradually* soften them. Can be had with every description of Artist Materials of Mr. Newman's manufacture, through the principal Indian Agencies, or (with Remittance or satisfactory reference in London,) at

CAUTION!

THURSTON & CO.,

CATHERINE STREET, STRAND, LONDON, W.C.

Established 1814.

THE superiority of Messrs. THURSTON and Co.'s BILLIARD TABLES is too well known to need comment.

At the same time their celebrity having called forth spurious imitations, advertised by men professing to have left their Establishment, Messrs. T. & Co. beg to CAUTION their Friends, and Officers of Regiments in particular, against such articles, advertised at a price at which it is impossible to make them either in quality or material suitable for the climate of India, where none other than the THURSTON TABLE is appreciated.

Having had the honour for so many years to supply most of the Native Regiments in India, as well as Her Majesty's Regiments in all parts of the world, they have received numerous very flattering testimonials, and are encouraged to hope for a continuance of that patronage which has been so liberally bestowed upon them.

SARSAPARILLA.

IT is asserted by many eminent medical men that there is no medicine in the Materia Medica comparable to Sarsaparilla for recruiting the debilitated constitution, restoring the tone of the stomach, improving the general state of the system, and by its continued use removing various morbid symptoms ascribed to a deranged condition of the fluids—such as eruptions on the skin, ulcerations, scorbutic and cutaneous diseases, and rheumatic pains, operating as a general and complete purifier of the blood. BUTLER'S "COMPOUND CONCENTRATED DECOCTION, OR FLUID EXTRACT OF SARSAPARILLA," is the original of the now numerous preparations of the kind, and is extensively prescribed by Medical Practitioners; it is most carefully prepared from the finest Jamaica Sarsaparilla imported, at a low temperature, so as to preserve entirely the virtues of the root in their most efficient and concentrated form. A pint bottle is equal to four quarts of the ordinary preparation.

Prepared and sold in pint bottles, 20s.; half pints, 10s.; and quarter pints, 5s 6d.; by BUTLER & HARDING, CHEMISTS, 4, Cheapside, Corner of St. Paul's, London.

Butler's Tasteless Seidlitz Powder.

IN ONE BOTTLE.

This useful aperient preparation, besides forming an equally efficient and far more agreeable Draught than that produced by the Common Seidlitz Powders, is made in much less time, and with infinitely less trouble. To allay fever or thirst, a tea spoonful, in water, forms a most refreshing Saline Draught. Being enclosed in a bottle, it will remain uninjured by humidity during the longest sea voyage or land journey.

Sold at 2s. 6d. the bottle (which is enclosed in a case, and accompanied by a measure and spoon), by the preparers, BUTLER & HARDING, Chemists, 4, Cheapside, Corner of St. Paul's, London.

Dalby's Carminative.

A most safe, effectual, and often immediate Remedy for the Wind, Griping Pains, Convulsions, and all disorders in the bowels of Infants. It is also equally efficacious in the Cholic and other internal disorders of grown persons. Sold wholesale and retail by the Proprietor's sole Agents, BUTLER and HARDING, Chemists, 4 Cheapside, Corner of St Paul's, London, in bottles at 1s. 9d. Purchasers are further requested to observe that the name and address "BUTLER and HARDING, 4, Cheapside, Corner of St. Paul's," are engraved on the Government Stamp which is affixed to each bottle of the Carminative, in order to distinguish the genuine from all other preparations.

N.B.—Be particular to ask for WILLIAM DALBY'S CARMINATIVE.

Butler's Effervescent Citrate of Magnesia,

OR, MAGNESIAN APERIENT, FOR DYSPEPTIC AND BILIOUS COMPLAINTS.

When taken after too free indulgence in the luxuries of the table, particularly after too much wine, the usual disagreeable effects are altogether avoided. In warm climates it will be found extremely beneficial, by correcting the disordered biliary secretion without debilitating the stomach.

TO MEMBERS OF REGIMENTAL MESSES.

MEMBERS of Regimental Messes, Residents in India and the Colonies, are respectfully solicited to inspect the articles supplied to them, purporting to be the manufacture of CROSSE & BLACKWELL, as in consequence of the great repute in which their various condiments and table-supplies are held, large quantities of goods are prepared, so similar to theirs in *outward appearance*, that the deception is not discovered until the purchaser has opened them.

It is therefore important to all who wish to guard against disappointment, to carefully examine their purchases, as C. & B. do not guarantee any articles to be their manufacture unless bearing their name and address in full on the various bottles and corks. The indents C. & B. execute for the principal Storekeepers in India and the British Colonies are most varied and extensive, comprising (among other preparations too numerous to be included in the limits of an Advertisement) the following well-known supplies :—

The extensive Assurance Business of the Agra and United Service Bank has been transferred to this Office, and the Society has Branch Establishments or Agencies at Calcutta, Madras, Bombay, and Agra.

The London Directors of the FAMILY ENDOWMENT SOCIETY, being desirous of carrying out the pledge they gave when they commenced the Indian Branch of their business, to reduce the premium of Insurance to the lowest rates consistent with perfect safety, have, on the report of their Actuary that the premium charged on short term policies was too high in proportion to that on whole Life Policies, made a further reduction in the rates for short terms, and the following extract from the Tables will show that NOW, AS WHEN THE BRANCH WAS ESTABLISHED, THE RATES OF PREMIUM ARE LOWER THAN THOSE OF ANY OTHER OFFICE IN INDIA.

A Fee of Ten Rupees is payable by this Office in every case to the Medical Examiner filling up the Certificate of an Applicant.

A RETURN OF 20 PER CENT. OF THE YEARLY PREMIUM FROM REALISED PROFITS HAS BEEN DECLARED, AND IS NOW PAYABLE TO ALL POLICY-HOLDERS ON THE PROFIT SCALE WHO HAVE PAID FIVE YEARS' PREMIUM.

Extract from Report of the Directors of the Indian Branch for the year ending the 30th June 1858.

The Directors have this year to report a considerable diminution in the New Business, and large increase to the Claims by Death.

The financial year embraces the most eventful period of the Insurrection, during which it has not been deemed desirable to push the operations of the Company in any part of India, while from those districts more immediately the *foci* of rebellion, Proposals for Assurance of the lives of Europeans have for obvious reasons been discouraged.

The result is, that the New Business this year is only 21 lacs against 36½ lacs last year. The annual Premium Income has not—owing to the extra charge for war risk—decreased in the ratio of the Sum Assured, being Rs. 5½ lacs against 6½ lacs last year, nor is the diminution in Investments so excessive as under the circumstances might be expected; but a considerable number of the Adjusted Policies fall to be paid during the current year.

The following Extract from the REPORT OF MESSRS. G. W. MOULTRIE AND T. R. GRANT, the Auditors for the year, exhibits the exact figures.

"(I.) There have been received 397 PROPOSALS for Assurance, amounting to Rs. 25,23,587, of which 38, for Assurances amounting to Rs. 2,19,125, have been declined.

"(II.) There have been issued 349 NEW POLICIES, assuring Rs. 21,15,062, and yielding in Annual Premiums Rs. 1,07,420-11-2.

"(III.) There have been adjusted 157 CLAIMS by death on 132 lives, for the aggregate sum of Rs. 9,00,895.

"(IV.) The CANCELMENTS from all causes amount to Rs. 29,11,501, the relative Annual Premium Income being Rs. 1,41,445-2-10.

"(V.) The POLICIES IN FORCE as at 30th June 1858, are in number 2,171, Assuring Rs. 1,25,86,874-8 8 and yielding in Annual Premiums Rs. 5,83,277-9.

"(VI.) The INVESTMENTS, all of which stand in three names, amount to Rs. 8,29,240-15, including Cash and Bank Balances, Rs. 6,86,193-5-4 being in Company's Paper, on a portion of which Paper Rs. 42,650 has been advanced by the Bank of Bengal."

About one-half of the whole Policies in force are for short terms.

The Directors desire to point out that the claims by Death this year are 9 lacs against 3½ lacs last year, the excess being directly consequent on the mutiny of the Bengal Army.

The aggregate losses of the Indian Life Offices by the great national calamity from which we are now emerging, must exceed 11 lacs. This Society, in common with other Offices, has submitted a claim for compensation.

THE PROFITS

Are ascertained at regular intervals of five years, and an entire two-thirds divided amongst Policy-holders on the participating scale.

At the Twelfth Annual General Meeting of the Society, held in the offices in London on the 24th November 1853, the first Bonus on Indian Policies arising out of the profits up to the 30th June 1853, was declared, and nearly two per cent. per annum was added to the amount assured by Policies effected on the participating scale.

The following example will illustrate the effect of the Bonus on Indian Policies:—

THE GENERAL ADVANTAGES

Afforded by the Society, not already noticed, may be briefly enumerated as follows:—

Policies issued for any amount, from Rs. 500 to Rs 50,000.

Policies held by parties on their own lives indisputable on any ground whatever, except fraud or non-payment of the premiums, but subject to forfeiture during the period of twelve months from their date, in the event of the life assured dying by his own hands, or by duelling, or by the hands of justice.

Assignment of Policies registered without charge, and from the date of such registration the Assurance not subject to forfeiture on any ground whatever, except fraud or non-payment of the due Premiums.

Age and interest admitted on the Policies in all cases where satisfactory proof is given.

Assurances may be revived within three months of the date on which the Premium became due, on satisfactory proof of health, and payment of moderate fine.

Policies on which Five Annual Premiums have been paid, purchased at a fair value.

Two-thirds of the estimated value will be advanced on the Security of Policies on which at least Five Years' Premiums have been paid.

Civil rates charged on the lives of Military Officers holding Civil appointments, for the term of such appointments.

Immediate reduction to English rates on the assured proceeding to Europe, or any other part of the world which the Directors may consider equally healthy, there permanently to reside; and, if such residence be temporary only, the said reduction to take effect after one year's residence.

The whole of the Funds of the Indian Branch invested in Government, real, and Indian Securities.

Claims paid three months after proof of death, or discounted immediately after such proof, if preferred.

Policies may, at the time of being effected, be made payable in London at the rate of two shillings sterling per Company's Rupee.

The following is a summary of what are more particularly the advantages to European Residents in India.

Notwithstanding the material modifications which have been made in the terms of other Offices since this Society commenced operations in India, the rates of Premium, which remain unaltered, will be found generally lower than those of any other Company, and especially favorable for Military men.

There is no charge for Entry-money, Policy or Medical Fees, or any expense whatever beyond the premium, in obtaining Policies.

Premiums may be paid in one sum, or by Yearly, Half Yearly, Quarterly, or Monthly payments.

Fifteen days of grace allowed for payments of premiums; and in the event of death taking place during the currency of these days, the risk binding on the Company if payment of the Premium be made before the days of grace expire.

Persons assured with the Society through the Indian Branch, have permission to proceed to, and reside in any part of the world, except the West Coast of Africa, without prejudice to the Assurance, so long as they continue to pay the original rate of premium applicable to India, stipulated in their Policies.

ASSURANCE OF DISEASED LIVES.

The Directors of the Indian Branch have, at present, no authority to issue Policies on Invalid Lives, but proposals for Assurance of this character will be received for transmission to the Society's Office in London, and the decision thereon communicated to applicants with all possible expedition.

The Company transacts, generally, every description of business involved in the contingencies of European Life in India, including the granting of Deferred Annuities and Endowments. Every information as to the constitution, terms, and conditions, of the Society, not afforded by this Prospectus, will be promptly supplied, and forms and instructions to parties wishing to effect Assurance will be forwarded free, on application being made to any of the Agents, or to the Secretary of the Indian Branch in Calcutta.

TESTIMONIALS.

This Lamp was thoroughly tested in the Crimea, and pronounced by Captain GODBY, of the Royal Engineers, as "most perfect, allowed to be so by all who have seen it—it is simple, and boils the water very quickly."

Dr. GAVIN MILROY, the Sanitary Commissioner, who used one of the above Lamps during his sojourn in the Crimea, wrote home to his friends in England as follows:—

Balaklava, February 25th, 1856.

I received about two months since the Tucker's Lamp, and have been using it regularly of an evening ever since to read and write by. The simple plan by which it boils water, at the same time without any smoky nuisance, is very ingenious, and answers exceedingly well. This is a great convenience when a fire cannot be had. The supply of Oil, Candles, and other fittings, in a small compass within the case, makes one very independent of servants, a matter too often of no small moment. Altogether, from its completeness and portability, the whole affair appears to me excellently suited for Camp life, also for use on board ship on many occasions.

(Signed) GAVIN MILROY.
